

MRS. JACK

A painting of a woman in a white dress with arms outstretched. The woman is depicted in a dynamic, almost dancing pose, with her arms raised and outstretched to the sides. She is wearing a long, flowing white dress with a dark sash or belt. The background is dark and textured, suggesting an outdoor setting at night or in a dimly lit interior. The overall style is expressive and somewhat abstract, with visible brushstrokes and a focus on light and shadow.

The Spanish Craze Richard L. Kagan, 2019-03-01 The Spanish Craze is the compelling story of the centuries long U S fascination with the history literature art culture and architecture of Spain Richard L. Kagan offers a stunningly revisionist understanding of the origins of hispanidad in America tracing its origins from the early republic to the New Deal As Spanish power and influence waned in the Atlantic World by the eighteenth century her rivals created the Black Legend which promoted an image of Spain as a dead and lost civilization rife with innate cruelty and cultural and religious backwardness The Black Legend and its ambivalences influenced Americans throughout the nineteenth century reaching a high pitch in the Spanish American War of 1898 However the Black Legend retreated soon thereafter and Spanish culture and heritage became attractive to Americans for its perceived authenticity and antimodernism Although the Spanish craze infected regions where the Spanish New World presence was most felt California the American Southwest Texas and Florida there were also early quite serious flare ups of the craze in Chicago New York and New England Kagan revisits early interest in Hispanism among elites such as the Boston

Embracing the East Mari Yoshihara, 2003 As exemplified by *Madame Butterfly* East West relations have often been expressed as the relations between the masculine dominant West and the feminine submissive East Yet this binary model does not account for the important role of white women in the construction of Orientalism Mari Yoshihara s study examines a wide range of white women who were attracted to Japan and China in the late nineteenth and early twentieth century and shows how through their engagement with Asia these women found new forms of expression power and freedom that were often denied to them in other realms of their lives in America She demonstrates how white women s attraction to Asia shaped and was shaped by a complex mix of exoticism for the foreign admiration for the refined desire for power and control and love and compassion for the people of Asia Through concrete historical narratives and careful textual analysis she examines the ideological context for America s changing discourse about Asia and interrogates the power and appeal as well as the problems and limitations of American Orientalism for white women s explorations of their identities Combining the analysis of race and gender in the United States and the study of U S Asian relations Yoshihara s work represents the transnational direction of scholarship in American Studies and U S history In addition this interdisciplinary work brings together diverse materials and approaches including cultural history material culture visual arts performance studies and literary analysis *Embracing the East* was the winner of the 2003 Hiroshi Shimizu Award of the Japanese Association for American Studies best book in American Studies by a junior member of the
