Post Secular Philosophy Between Philosophy And Theology:

Post-Secular Philosophy Philip Blond, 2002-11 Post Secular Philosophy is one of the first volumes to consider how God has been approached by modern philosophers and consider the links between theology and postmodern thought

Postsecular History Maxwell Kennel, 2021-11-13 This book explores how contemporary approaches to the meaning of time and history follow patterns that are simultaneously political and theological Even after postsecular critiques of Christianity religion and secularity many influential ways of dividing time and history continue to be formed by providential narratives that mediate between experience and expectation in movements from promise to fulfilment In response to persistent theological influences within ostensibly secular ways of understanding time and history Postsecular History revisits and revises the concept of periodization by tracing powerful efforts to divide time into past present and future and by critiquing historical partitions between the Reformation and Enlightenment Developing a postsecular critique of theopolitical periodization in six chapters Postsecular History questions how relations of possession novelty freedom and instrumentality implied in the prefix post are reproduced in postsecular discourses and the field of political theology **The Cambridge**

Companion to Feminist Theology Susan Frank Parsons, 2002-07-04 Feminist theology is a significant movement within contemporary theology The aim of this Companion is to give an outline of feminist theology through an analysis of its overall shape and its major themes so that both its place in and its contributions to the present changing theological landscape may be discerned The two sections of the volume are designed to provide a comprehensive and critical introduction to feminist theology which is authoritative and up to date Written by some of the main figures in feminist theology as well as by younger scholars who are considering their inheritance it offers fresh insights into the nature of feminist theological work The book as a whole is intended to present a challenge for future scholarship since it critically engages with the assumptions of feminist theology and seeks to open ways for women after feminism to enter into the vocation of theology **Handbook of the**

Intersections in Christianity and Critical Theory Cassandra Falke,2010-10-27 Dealing with the historical and thematic intersections of Christianity and critical theory this collection brings together a diversity of specialist scholars in the area Building on recent discourses in theology as well as their knowledge of hermeneutic and critical traditions they examine major themes in contemporary critical theory

On Tragedy and Transcendence Khagan M. Delport,2021-10-08 From the time of Plato s proposed expulsion of the poets tragedy has repeatedly proposed a challenge to philosophical and theological certainties This is apparent already in early Christianity amongst leading figures during the patristic age But this raises the question Why was the theme of tragedy still accepted and deployed throughout the history of Christianity nevertheless Is this merely an accident or is there something more substantial at play Can Christian theology take the tragic seriously Must Christianity ultimately deny the tragic to be coherent or might it be able to sustain its negativity Some like George Steiner David Bentley Hart and John Milbank have doubts about such a coherency but others think differently This book aims to examine this debate laying out the lines of disagreement and continuing tensions Through a critical examination of the work of Donald MacKinnon and the eminent Christian thinker Rowan Williams the book aims to show that there is a path for reconciling the claims of Christian orthodoxy and the experience of tragedy one that is able to maintain a metaphysical foundation for both real transcendence and unfolding historicity without denying either

Women and the Divine G. Howie,2016-04-30 This collection explores the question of whether it is possible to reconceive the category of transcendence from a feminist perspective The contributors use the concept of transcendence to approach questions relating to the body desire and subjectivity while offering a response to secular relativism

Postsecular Cities Justin Beaumont,Christopher Baker,2011-06-16 This book reflects the wide spread belief that the twenty first century is evolving in a significantly different way to the twentieth which witnessed the advance of human rationality and technological progress including urbanisation and called into question the public and cultural significance of religion In this century by contrast religion faith communities and spiritual values have returned to the centre of public life especially public policy governance and social identity Rapidly diversifying urban locations are the best places to witness the emergence of new spaces in which religions and spiritual traditions are creating both new alliances but also bifurcations with secular sectors Postsecular Cities examines how the built environment reflects these trends Recognizing that the turn to the postsecular is a

contested and multifaceted trend the authors offer a vigorous open but structured dialogue between theory and practice but even more excitingly between the disciplines of human geography and theology Both disciplines reflect on this powerful but enigmatic force shaping our urban humanity This unique volume offers the first insight into these interdisciplinary and challenging debates Process and Difference Catherine Keller, Anne Daniell, 2012-02-01 The similarities and creative tensions between French based poststructuralism and Whiteheadian process thought are examined here by leading scholars Although both approaches are labeled postmodern their own proponents often take them to be so dissimilar as to be opposed Contributors to this book however argue that processing these differences of theory at a deeper level may cultivate fertile and innovative modes of reflection Through their comparisons contrasts and hybridizations of process and poststructuralist theories the contributors variously redefine concepts of divinity and cosmos advance the interaction between science and religion and engage the sex gender and religious ethics of otherness and subjectivity Sensible Ecstasy Amy Hollywood, 2010-01-15 *Sensible Ecstasy* investigates the attraction to excessive forms of mysticism among twentieth century French intellectuals and demonstrates the work that the figure of the mystic does for these thinkers With special attention to Georges Bataille Simone de Beauvoir Jacques Lacan and Luce Irigaray Amy Hollywood asks why resolutely secular even anti Christian intellectuals are drawn to affective bodily and widely denigrated forms of mysticism What is particular to these thinkers Hollywood reveals is their attention to forms of mysticism associated with women They regard mystics such as Angela of Foligno Hadewijch and Teresa of Avila not as emotionally excessive or escapist but as unique in their ability to think outside of the restrictive oppositions that continue to afflict our understanding of subjectivity the body and sexual difference Mystics such as these like their twentieth century descendants bridge the gaps between action and contemplation emotion and reason and body and soul offering new ways of thinking about language and the limits of representation

Karl Rahner's Theological Aesthetics Peter Joseph Fritz, 2014 Rahner's aesthetics Rahner's sublime Rahner and the spirit of the age Rahner refounding theological language Rahner's apocalypse *After the Postsecular and the Postmodern* Anthony Paul Smith, Daniel Whistler, 2010-02-19 Continental philosophy of religion has been dominated for two decades by postsecular and postmodern thought This volume brings together a vanguard of scholars to ask what comes after the postsecular and the postmodern that is what is Continental philosophy of religion now Against the subjugation of philosophy to theology *After the Postsecular and the Postmodern* New Essays in Continental Philosophy of Religion argues that philosophy of religion must either liberate itself from theological norms or mutate into a new practice of thinking in order to confront the challenges religion presents for our time The essays do not propose a new orthodoxy but set the stage for new debates by reclaiming a practice of philosophy of religion that recovers and draws on the insights of a distinctly modern tradition of Continental philosophy confronts the challenge of rethinking the secular in the light of the postsecular event and calls for a move from strictly critical to speculative thought in order to experiment with what philosophy can do This

collection of essays is indispensable for anyone interested in the relationship between philosophy and theology political questions regarding religion and in what contemporary speculative Continental philosophy has to add to philosophy of religion

Freud's Converts Vicki Clifford, 2020-06-16 This work is an exploration of the relationship which psychotherapy has with religion Sigmund Freud and Carl Rogers were chosen for this exposition because they were each seduced by the high status given to science Freud and Rogers both founders of psychotherapies left a legacy which is not that of scientists whom they claimed they were Freud and Rogers each had a problematic relationship with religion This has had a lasting effect on the work and attitudes of their respective followers In order to explore effectively this relationship the work begins with a critical examination of the historical context in which both Freud and Rogers worked and how in their determination to be scientists both missed the importance of the religious The work continues with an exploration of the effects of this legacy on the work of contemporary psychotherapists The context in which their followers work relies on a relationship with the founder which goes beyond that of science and in addition each practitioner is influenced by socio economic circumstances which are peculiar to them The resistance from psychotherapists to embrace religion has been complex although as it will be illustrated today there are some who are acknowledging the importance of the spiritual That psychotherapy functions as a religious movement has been excluded by practitioners in their determination to reflect the wishes of their founder which was that their work should be regarded as science Psychotherapists have traditionally been considered the custodians of the real and that their clients are the ones suffering from delusions With respect to their attitudes to religion not least the spiritual the positions seem to be reversed

Upon This Rock Robert Lewis Fossett, 2013-06-19 Nearly thirty years ago George Lindbeck wrote his seminal and highly influential work *The Nature of Doctrine* Since that time there has been no serious attempt at moving beyond the problems he lays out in particular the problem of foundationalism *Upon This Rock* is not merely a response to George Lindbeck's important work it is an attempt to show how theology and religious discourse can truly move past the particular problems posed by foundationalism the assumption of and search for so called objective and universal standards by looking at just one important discussion within the field the modern discussion on the nature and function of doctrine *Upon This Rock* offers an account of doctrine an account that includes such topics as the authority of Scripture biblical interpretation and the role of the Church and the nature of her doctrine among others that moves the Church past the problems of foundationalism and back to her one true rock Jesus Christ her Lord

The Poverty of Radical Orthodoxy Lisa Isherwood, Marko Zlomislíć, 2012-09-21 Radical Orthodoxy whose founding father is John Milbank claims that God has been pushed to the margins in modernity and that a false and misleading neo theology has taken hold that needs to be revisited and contested It is this return to the premodern that often leads theologians to have reservations about Radical Orthodoxy when they might otherwise have some sympathy for many of its positions Radical Orthodoxy like most traditional theology claims that the power of God is in all creation and

that God sits everywhere for all to partake of But there appears to be a failure to see that the church and theology do not set in place systems that live out this basic assumption Liberation theology while sharing much of the same assumption that God is everywhere and to be shared at the same time engages in a critique of the structures that claim to facilitate this vision and finds them wanting From here then liberation theologians attempt to refigure our understanding of shared power in order to broaden the vision while it may be argued that Radical Orthodoxy simply restates the assumption with little political critique of the issues Perhaps this point explains why this book is titled The Poverty of Radical Orthodoxy rather than Radical Error

Marion and Theology Christina M. Gschwandtner, 2016-07-28 Jean Luc Marion's early work on Descartes and his more recent writings in phenomenology have not only elicited huge interest in France and the US but also created huge potential in the field of theology This book is organised around central questions about the divine raised by Marion's work how to speak of God how to approach God how to experience God how to receive God how to believe in God how to worship God Within that context it deals with the important aspects of his philosophical work the inspiration of his writings in what he calls Descartes white theology and its late medieval context as well as the apophatic theology associated with Dionysius the Areopagite his important claims about idolatrous and iconic ways of speaking of the divine his notion of the saturated phenomenon or a phenomenology of revelation and givenness and his extensive writings on love Christina M Gschwandtner also considers Marion's explicitly theological writings and establishes their relationship to his larger phenomenological oeuvre Overall it approaches Marion's work not only as a philosophy of religion but with specifically theological questions in mind It hence shows how Marion's extensive historical and phenomenological work can be profitable and inspiring for theology today for both systematic questions and for concerns of spirituality in a way that holds the theoretical and the practical together

Theology in the Present Age Christopher Ben Simpson, Steven D. Cone, 2013-08-23 This volume of essays centers on the theme of doing Christian theology in the present postmodern context a consistent theme of the teaching of John D Castelein The work will celebrate and honor John's years of service by representing reflections of his teaching in the thought of his students and colleagues The essays range over such topics as theological reflections on the postmodern philosophical themes the relations between Christian theology and culture the contributions of philosophical hermeneutics for Christian theology and the challenges of engaging in ministry in a postmodern context The seventeen contributors to the volume are former students and both present and former colleagues involved in various ministries be they in a college setting or in a local church

Emerging Geographies of Belief Catherine Brace, 2010-10-12 This interdisciplinary book presents new research from international scholars that explores questions of belief faith and religion Focusing on theoretically informed cultural geographical and historical analyses of faith belief religion society and space the book presents new and revised theoretical approaches and methodologies grounded in rigorous empirical research both contemporary and historical The volume takes a deliberately eclectic approach reflecting the complex interactions of the

political and poetic dimensions of sacredness in contemporary societies Taking this research agenda forward this book explores how religious beliefs inform and construct social identities public knowledge and modes of governance In particular the book meets an urgent need for a critical understanding of how terms such as religion faith fundamentalism and secularism for example inform public debates and foster constructive engagements both between faith groups and between people of faith and people of no faith The essays in *Emerging Geographies of Belief* also show that religion cannot be mapped neatly onto faith or belief We attempt to tease out the different circumstances in which for example belief can operate without religious adherence or faith can inspire social action in geographies of hope The geography of the title relates to an overarching concern with space and spatiality rather than describing a single disciplinary approach Our concern with belief faith and religion operates at different temporal and spatial scales in different localities from the contemporary appeal to a more global sense of responsibility to a historically situated account of faith led educational practices This reflects more generally the so called spatial turn in the social sciences and humanities But despite this wide historical and geographical sweep the authors share some key concerns This collection is unique in combining theoretical conceptual and discursive approaches to the emerging geographies of belief with substantive examples of the intersection of belief faith and religion with aspects of everyday life Discussions of the potential subversive and prophetic capacities of faith belief and religion sit alongside consideration of how these have become implicated in the spaces and performances of hope It provides a critique of the situationist and substantive approaches to religion along with insights into the role of faith in education community and social work It considers the practices of remembrance representation and pilgrimage and the place of religion in contemporary identity politics In sum the book problematises the seemingly simple categories of faith religion and belief calling attention to how these are mobilised and implicated differently in different circumstances In addressing these themes the book provides a key theoretical resource but crucially goes on to show how multiple perspectives on belief however defined can be applied in practice Whilst there has been much contemporary work on the individual areas covered by the book they have not been brought together before to provide a dynamic insight into issues of the most pressing relevance

Beyond Belief Ronald R. Bernier, 2010-06-01 *Beyond Belief* Theoaesthetics or Just Old Time Religion explores the possible reemergence of a theological dimension to contemporary art Long estranged from symbol and sacrament contemporary artists and those who think and write about them seem to have turned once again to a vision rooted in the sacred In an era marked culturally by world weary cynicism and self conscious irony a new humanism may be emerging one which aims to move beyond fragmentation and opposition to integration and unification The aim of this book is not to propose a resurgence of religious iconography but rather to give voice to long suppressed often maligned and certainly professionally risky positions informed by and reverberating with themes of the sacred The essays included here by a range of scholars working on these issues today originated as a lively and spirited session of the 2008 College Art Association annual
