C. Ling,Yuan-li Wu,1969 [Implacable](#) Jack Campbell,2024-04-23 Admiral John Black Jack Geary fears the greatest threat to humanity may be itself in this gripping continuation of the New York Times bestselling series As far from explored space as any human has ever been Geary and the Alliance fleet are on their own protecting a diplomatic mission in territory belonging to an alien species with still unknown motives His already complex and dangerous mission is further imperiled by deadly challenges from other human factions seeking to harm or exploit the aliens When another alien species whose technology is far more advanced than humanity's

arrives the stakes are raised to the highest possible level Yet the most serious trouble comes from an unexpected source Presented with orders to carry out actions he believes not only are mistaken but would be contrary to the ideals of the Alliance Geary has to decide whether he must invoke the power that his long revered name holds even though this might endanger his entire fleet tear apart the Alliance and destroy everything he has fought for Mona Lisa Haneef Jackson, After witnessing the gruesome murder of her entire family then having to undergo years of pain and suffering while living with the foster family from hell Mona Lisa reluctantly accepted her awful fate in life as being the unluckiest human being alive She thought that she finally caught a major break after falling into the arms of Gator only to find out that he was a no good smooth talking pimp who would be sure to keep his foot deep in her ass for as long as time allowed him to It wasn't until she mustered up enough courage to break free from the mental shackles Gator placed upon her then linked up with a blood thirsty money hungry team of bandits that she finally realizes her true purpose in life Suck the world dry of all its riches and slaughter anyone who tried standing in her way That was until she met Shakeem her knight and shining armor Shakeem was just released from state Prison and he has only one thing on his mind Revenge After serving 3 years in one of Pennsylvania's most dangerous penitentiaries he realizes that the only way he'll ever obtain true success in life is if he takes his mentor Sonny Black's advice and contacts his Son Redz who just happens to be the biggest dope boy down in Memphis Everything seems to be finally looking up for Shakeem that is until he meets Mona Lisa If there was a such thing as soulmates Shakeem was convinced that Mona Lisa was most definitely made exclusively for him It's as if destiny grew a pair of hands and somehow pulled these two strangers together Come embark upon this twisted roller coaster filled with love lies betrayal trauma heartache death and survival Mona Lisa is an action packed fast paced urban thriller with tons of twists and turns that'll keep you guessing and holding onto your breath until the very last page The Grampian Quartet Nan Shepherd, 2009-05-01 The Quarry Wood although published well before Sunset Song inhabits a similar world the progress of its heroine could almost be the alternative story of a Chris Guthrie who did go to university Compassionate and humorous the grace and style of Shepherd's prose is heightened by a superb ear for the vigorous language of the north east The Weatherhouse Shepherd's masterpiece is an even more substantial achievement which belongs to the great line of Scottish fiction dealing with the complex interactions of small communities and especially the community of women a touching and hilarious network of mothers daughters spinsters and widows It is also a striking meditation on the nature of truth the power of human longing and the mystery of being The third and final novel A Pass in the Grampians describes Jenny Kilgour's coming of age as she has to choose between the kindly harshness of her grandfather's life on a remote hill farm and the vulgar and glorious energy of Bella Cassie a local girl who left the community to pursue success as a singer and has now returned to scandalise them all The Living Mountain is a lyrical testament in praise of the Cairngorms It is a work deeply rooted in Shepherd's knowledge of the natural world and a poetic and philosophical meditation on our longing for high and

holy places This is the first omnibus edition of Shepherd's prose works her sensitivity and powers of observation raise her work far above the status of regional literature and into the front rank of Scottish writing

The Middle Ages in Computer Games Robert Houghton, 2024-11-05 Offers the most comprehensive analysis and discussion of medievalist computer games to date Games with a medieval setting are commercially lucrative and reach a truly massive audience Moreover they can engage their players in a manner that is not only different but in certain aspects more profound than traditional literary or cinematic forms of medievalism However although it is important to understand the versions of the Middle Ages presented by these games how players engage with these medievalist worlds and why particular representational trends emerge in this most modern medium there has hitherto been little scholarship devoted to them This book explores the distinct nature of medievalism in digital games across a range of themes from the portrayal of grotesque yet romantic conflict to conflicting depictions of the Church and religion It likewise considers the distinctions between medievalist games and those of other periods underlining their emphasis on fantasy roleplay and hardcore elements and their consequences for depictions of morality race gender and sexuality Ultimately the book argues that while medievalist games are thoroughly influenced by medievalist and ludic tropes they are nonetheless representative of a distinct new form of medievalism It engages with the vast literature surrounding historical game studies game design and medievalism and considers hundreds of games from across genres from Assassin's Creed and Baldur's Gate to Crusader

Kings and The Witcher series In doing so it provides a vital illustration of the state of the field and a cornerstone for future research and teaching
