Presented Before the Library Institute ... June 29 to July 10, 1942 University of Chicago. Graduate Library School. Library Institutes, 1943

Maple V Library Reference Manual Bruce W. Char, Keith O. Geddes, Gaston H. Gonnet, Benton L. Leong, Michael B. Monagan, Stephen Watt, 2013-12-01 The design and implementation of the Maple system is an on going project of the Symbolic Com putation Group at the University of Waterloo in Ontario Canada This manual corresponds with version V roman numeral five of the Maple system The on line help subsystem can be invoked from within a Maple session to view documentation on specific topics In particular the command updates points the user to documentation updates for each new version of Maple The Maple project was first conceived in the autumn of 1980 growing out of discussions on the state of symbolic computation at the University of Waterloo The authors wish to acknowledge many fruitful discussions with colleagues at the University of Waterloo particularly Morven Gen tleman Michael Malcolm and Frank Tompa It was recognized in these discussions that none of the locally available systems for symbolic computation provided the facilities that should be expected for symbolic computation in modern computing environments We concluded that since the basic design decisions for the then current symbolic systems such as ALTRAN CAMAL REDUCE and MACSYMA were based on 1960 s computing technology it would be wise to design a new system from scratch Thus we could take advantage of the software engineering technology which had become available in recent years as well as drawing from the lessons of experience Maple s basic features elementary data structures Input output arithmetic with numbers and elementary simplification are coded in a systems programming language for efficiency

Introduction to Reference and Information Services in Today's School Library Lesley S.J. Farmer, 2014-03-27 Students come to the school library every day with questions ranging from How many people live in China to I need to find out how the Sun began for my science paper Helping students find the answers to their questions is one of the most important responsibilities school librarians have In Introduction to Reference and Information Services in Today s School Library one of

America's premier school library educators covers the A-Z of both reference and information services for today's library. Everything from teaching students how to use sources to both in person and virtual reference service is covered. A key feature of the text is an annotated bibliography of core print and electronic sources for elementary, middle, and high school collections. Yes, reference and information services are vital library functions in the digital age. Even students who appear to be tech-savvy have trouble finding the right information efficiently and knowing what to do with it. This book examines information needs and behaviors and provides strategies for assessing and meeting the informational needs of the school community. The book also addresses the conditions for optimum service: physical access, including virtual access, effective interaction and collaboration, instructional design, and systematic planning. Newer issues such as embedded librarianship, curation, collective intelligence, and web 2.0 intellectual property are also addressed. This book introduces the entering professional and updates practitioners to current standards and useful strategies.
