

Towards a theory of organized crime: some preliminary reflections¹

Letizia Paoli

University of Leuven

Published in Georgios A. Antonopoulos, ed., 2016. *Illegal Entrepreneurship, Organized Crime and Social Control: Essays in Honor of Professor Dick Hobbs*. New York: Springer: 3-18.

We owe Dick Hobbs some of the most insightful and lively analyses of professional and organized crime (e.g., 1988; 1995; 2013; Pearson and Hobbs, 2001). In his latest book *Lush Life*, Dick Hobbs (2013) has also magisterially shown how the term “organized crime” has since the 1990s been misused by skillful moral entrepreneurs and politicians to signify the growing popular concern for crime and the increasing insecurity of our late modern societies and to justify far-reaching legal and institutional reforms at both the national and international level.

Given the public concern about organized crime and the vast array of legal and institutional reforms adopted to control it, it is important to reflect upon the determinants of organized crime. Without a better understanding of these determinants and the causal models linking them to the different forms of organized crime, in fact, policy interventions risk selecting unrealistic goals or even obtaining counterproductive results. Yet this avenue has not been systematically pursued. Even though research on organized crime has greatly expanded over the past 25 years, most studies are descriptive, tend to focus on specific phenomena and/or are often circumscribed to single national or even sub-national contexts, reflecting the difficulties of the empirical data collection (see Hobbs and Antonopoulos, 2014, for a review of the research methods used). As a result, comparative research has remained very limited (see Fijnaut and Paoli, 2004 for an isolate case) and no systematic attention has so far been given to the causes of organized crime (for an overview of recent research, see Paoli, 2014).

¹ This chapter is to a large extent based on Paoli (2013) and (2014a).

Transnational Organised Crime in International Law Tom Obokata, 2010-08-17 There is extensive and detailed academic literature on the legal development of international crimes such as war crimes and crime against humanity However not much attention has been paid to other serious crimes including narcotics related offences human trafficking and money laundering which do not necessarily amount to international crimes in the traditional sense The purpose of this monograph is to fill this gap and offer a critical analysis of developments in the field of transnational organised crime under international law The book is divided into two parts Part I is entitled Norms Principles and Concepts It traces the history of organised crime and explores key concepts and norms relating to the practice from a multi disciplinary perspective It then looks at legal obligations imposed upon States as well as non State actors in relation to transnational organised crime Part II illustrates how these norms principles and obligations are translated and enforced in practice This will be done through case studies at the level of national law Thailand Serbia and the UK regional law European Union and international law United Nations A book of many parts its thematic coherence comes from its devotion to identifying the social threat posed by organised crime and the legal steps taken at the international and national levels against that threat Rich with example and illustration and written in a light direct style it will provide a lucid guide for practitioners policy makers and students to the largely untraversed territory of the international legal system set up to suppress transnational organised crime Professor Neil Bolster University of Canterbury New Zealand the international law governing organized crime is a close relative of the body of law applicable to the International Criminal Court and similar institutions It provides a forum to address issues of more general concern such as the scope of universal jurisdiction immunities statutory limitation and extradition Tom Obokata s study with its original and in some ways unique perspective enriches our knowledge of the field Professor William Schabas Irish Centre for Human Rights The book is well written its documentation is quite exhaustive and its thesis is timely and compelling Professor M Cherif Bassiouni DePaul University College of Law
