Confucianism for the Modern World Daniel A. Bell, Chae-bong Ham, 2003-09-08 While Confucian ideals continue to inspire thinkers and political actors discussions of concrete Confucian practices and institutions appropriate for the modern era have been conspicuously absent from the literature thus far This volume represents the most cutting edge effort to spell out in meticulous detail the relevance of Confucianism for the contemporary world The contributors to this book internationally renowned philosophers lawyers historians and social scientists argue for feasible and desirable Confucian policies and institutions as they attempt to draw out the political economic and legal implications of Confucianism for the modern world

The Illustrated Encyclopedia of Confucianism: A-M Rodney Leon Taylor, Howard Yuen Fung Choy, 2005 Covers topics related to the understanding of Chinese Confucianism Includes entries in the following categories arts architecture and iconography astrology cosmology and mythology biographical entries ceremonies practices and rituals concepts dynasties official titles and rulers geography and historical events groups and schools literature language and symbols and texts

Sainthood Richard Kieckhefer, George D. Bond, 1990-08-09 Every major religion exalts certain individuals who occupy a dual role On the one hand they serve as exemplars of virtue to be imitated and on the other hand they stand removed from other mortals privileged and unique Christianity knows them as saints and in the study of religion the term has been taken over and applied to similar figures in other traditions The essays in this volume analyze the role of the saint in Judaism Christianity Islam Hinduism Buddhism and Confucianism providing both a comparative and an interpretive view of sainthood The notion of sainthood is problematic in two ways First can the category be usefully applied to individuals in religious traditions other than Christianity How has it manifested itself and what differences are there in the various manifestations of sainthood Second where individuals are considered to have risen above the norms in these different traditions how is it possible to resolve the tension between the saint's imitability and his or her otherness between imitating

and venerating the saint The authors consider these questions in relation to a wide range of individuals in all the major traditions
