began to shift in the last part of the 20th century. Back then, congregations became confused about why so many Americans had become indifferent toward church going. They became anxious about their shrinking numbers and aging membership. How would they survive? They could not see the way forward. But now a few ordinary congregations are finding their way into the future by cultivating certain spiritual habits which transform them so that they in turn can transform the world. Dr. Ruth A. Fletcher shares her pastoral experience, judicatory work, consulting ministry, and personal research in which she has discerned some spiritual practices that characterize congregations that are thriving. This is an excellent read whether you are a pastor, church leader, or concerned member of a fellowship groaning in the labor of reaching out to the disenfranchised others. *Thrive* is the third volume in the Academy of Parish Clergy's Guides to Practical Ministry series. **Working with Families: A Guide for Health and Human Services Professionals, Second Edition** Patricia Spindel, 2020-04-28. Covering a wide range of topics, the author draws special attention to LGBTQ and military families, the effects of violence and trauma, and professional ethics and self-care. An indispensable resource for students and practitioners of social services, child and youth work, and early childhood education, the revised edition of *Working with Families, Second Edition* reflects current research and practices in the field and features updated statistics and accessible language. **Differentiated Assessment** Evangeline Harris Stefanakis, Deborah Meier, 2010-11-29. A comprehensive assessment system for working with underperforming students. This book describes a comprehensive assessment system especially appropriate for multilingual and differentiated classrooms with large numbers of underperforming students. Drawing from Multiple Intelligences theory, the approach is specifically aimed at helping teachers understand how each student learns and how best to tailor instruction to serve individual students' needs. Although the program makes use of conventional standardized tests and disability screenings, it places special importance on two approaches in particular: Student Portfolio Assessments and Personalized Learning Profiles. Provides detailed guidance and practical tools, including a DVD for implementing successful portfolio and profile practices in the classroom. Includes real-world examples of model assessment programs from five schools. Explains how to integrate assessment into the instructional process as well as how the portfolio program can be used. Formal profiles provide vital information about each student's cultural background, interests, strengths, and capabilities, as well as their individual learning and language needs. *Step into Your Place* C.
