Positive Pupil Management and Motivation Eddie McNamara,2014-03-05 First Published in 2000 In 1988 a major inquiry into the difficulties in managing adolescent behaviour was instigated by the Government under the chairmanship of Lord Elton The report known as the Elton Report on Discipline in Schools was published in 1989 At dissemination conferences the view was put forward that to aim to totally eliminate problematic pupils was unrealistic a more realistic aim was to marginalise the problem s i e to have effective school systems in place to respond to pupil misbehaviour so that problems of pupil discipline could be handled comfortably and not dominate the school s agenda Starting with the findings of the Elton Report this book explores the identified causes of problem behaviour emotional disturbance home background classroom factors and school system factors and then offers practical advice on how to manage them The International Handbook on Innovation Larisa V Shavinina,2003-10-16 The breadth of this work will allow the reader to acquire a comprehensive and panoramic picture of the nature of innovation within a single handbook Symbolic Management James Westphal,Sun Hyun Park,2020-03-17 The theory of symbolic management reveals a pervasive pattern of symbolic decoupling a separation between appearances and reality at every level of the governance system At each level the processes of governance are less efficient or effective than they appear from interpersonal relations within organizations such as those between CEOs and directors top managers and lower level employees to relations between firm leaders and external stakeholders such as journalists and security analysts There is even a separation between appearances and reality at the level of the governance system itself In this book James Westphal and Sun Hyun Park develop symbolic management into a major theoretical perspective on governance Not only does symbolic management provide a compelling behavioral alternative to economic perspectives such as agency theory but it subsumes economic theory Agency theory is reconceived as a historically contingent institutional logic that became taken for granted among corporate stakeholders for a period of time and eventually replaced by a new logic of governance Through a body of extensive empirical research Westphal and Park

demonstrate how the symbolic management activities of firm leaders have contributed to this historical shift in prevailing logics of governance and present a warning to regulators investors and the general public Research Handbook of Critical Management Education Clare Rigg,Kiran Trehan,2025-04-09 This incisive Research Handbook provides a comprehensive overview of the opportunities and challenges presented by the burgeoning field of critical management education CME Expert authors reflect on core principles to suggest innovative strategies for CME educators across the globe
