

REFLECTIONS ON
AMERICAN EXCEPTIONALISM

Edited by David K. Adams & Cornelis A. van Minnen

Reflections On American Exceptionalism

**Dallas Gingles, Joshua
Mauldin, Rebekah L. Miles**

Reflections On American Exceptionalism:

Reflections on American Exceptionalism David Keith Adams, Cornelis A. van Minnen, 1994 This selection has been shaped by the desire to provide internal cohesion around the theme of democratic republicanism as expressed domestically reflected externally and articulated in particular foreign policy exercises American Exceptionalism Hilde Eliassen Restad, 2014-12-17 How does American exceptionalism shape American foreign policy Conventional wisdom states that American exceptionalism comes in two variations the exemplary version and the missionary version Being exceptional experts in U S foreign policy argue means that you either withdraw from the world like an isolated but inspiring city upon a hill or that you are called upon to actively lead the rest of the world to a better future In her book Hilde Eliassen Restad challenges this assumption arguing that U S history has displayed a remarkably constant foreign policy tradition which she labels unilateral internationalism The United States Restad argues has not vacillated between an exemplary and a missionary identity Instead the United States developed an exceptionalist identity that while idealizing the United States as an exemplary city upon a hill more often than not errs on the side of the missionary crusade in its foreign policy Utilizing the latest historiography in the study of U S foreign relations the book updates political science scholarship and sheds new light on the role American exceptionalism has played and continues to play in shaping America's role in the world This work will be of great interest to students and scholars of US foreign policy security studies and American politics *American Exceptionalism Vol 1* Timothy Roberts, 2017-07-05 American exceptionalism the idea that America is fundamentally distinct from other nations is a philosophy that has dominated economics politics religion and culture for two centuries This collection of primary source material seeks to understand how this belief began how it developed and why it remains popular

American Exceptionalism Reconsidered David P. Forsythe, Patrice C. McMahon, 2016-11-25 Is the US really exceptional in terms of its willingness to take universal human rights seriously According to the rhetoric of American political leaders the United States has a unique and lasting commitment to human rights principles and to a liberal world order centered on rule of law and human dignity But when push comes to shove most recently in Libya and Syria the United States failed to stop atrocities and dithered as disorder spread in both places This book takes on the myths surrounding US foreign policy and the future of world order Weighing impulses toward parochial nationalism against the ideal of cosmopolitan internationalism the authors posit that what may be emerging is a new brand of American globalism or a foreign policy that gives primacy to national self interest but does so with considerable interest in and genuine attention to universal human rights and a willingness to suffer and pay for those outside its borders at least on occasion The occasions of exception such as Libya and Syria provide case studies for critical analysis and allow the authors to look to emerging dominant powers especially China for indicators of new challenges to the commitment to universal human rights and humanitarian affairs in the context of the ongoing clash between liberalism and realism The book is guided by four central questions 1 What is the

relationship between cosmopolitan international standards and narrow national self interest in US policy on human rights and humanitarian affairs 2 What is the role of American public opinion and does it play any significant role in shaping US policy in this dialectical clash 3 Beyond public opinion what other factors account for the shifting interplay of liberal and realist inclinations in Washington policy making 4 In the 21st century and as global power shifts what are the current views and policies of other countries when it comes to the application of human rights and humanitarian affairs

American Exceptionalism Nicole Kohlbacher, 2014

American Exceptionalism Ian Tyrrell, 2024-06-19 American exceptionalism has been a surprisingly resilient and divisive concept In this magisterial book Ian Tyrrell shows that while the term is a relatively new one the idea that American identity might be historically and globally distinctive emerged with the nation itself As the country grew the issue became the degree of exceptionality and how it was expressed And as the country became a part of the global order its exceptionalism came increasingly into question How did a purportedly unique nation explain its entanglement with persistent global topics like slavery and racial discrimination labor exploitation settler colonialism and more Today even as demands to honor America's exceptionalism have grown more strident Tyrrell argues that the material and moral evidence for it if there ever was any has withered away

American Exceptionalism Charles W. Dunn, 2013-04-04 American Exceptionalism provokes intense debates culturally economically politically and socially This collection edited by Charles W Dunn of Regent University's Robertson School of Government brings together analysis of the idea's origins history and future Contributors include Hadley Arkes Michael Barone James W Ceasar Charles W Dunn Daniel L Dreisbach T David Gordon Steven F Hayward Hugh Heclo Marvin J Folkertsma William Kristol and George H Nash While many now argue against the policies and ideology of American Exceptionalism as antiquated and expired the authors collected here make the bold claim that a closer reading of our own history reveals that there is still an exceptional aspect of American thought identity and government worth advancing and protecting It will be the challenge of the coming American generations to both refine and examine what we mean when we call America exceptional and this book provides readers a first step towards a necessary understanding of the exceptional purpose progress and promise of the United States of America

American Exceptionalism and Human Rights Michael Ignatieff, 2009-01-10 With the 2003 invasion and subsequent occupation of Iraq the most controversial question in world politics fast became whether the United States stands within the order of international law or outside it Does America still play by the rules it helped create American Exceptionalism and Human Rights addresses this question as it applies to U S behavior in relation to international human rights With essays by eleven leading experts in such fields as international relations and international law it seeks to show and explain how America's approach to human rights differs from that of most other Western nations In his introduction Michael Ignatieff identifies three main types of exceptionalism exemptionalism supporting treaties as long as Americans are exempt from them double standards criticizing others for not heeding the findings of international human rights bodies but

ignoring what these bodies say of the United States and legal isolationism the tendency of American judges to ignore other jurisdictions The contributors use Ignatieff's essay as a jumping off point to discuss specific types of exceptionalism America's approach to capital punishment and to free speech for example or to explore the social cultural and institutional roots of exceptionalism These essays most of which appear in print here for the first time and all of which have been revised or updated since being presented in a year long lecture series on American exceptionalism at Harvard University's John F Kennedy School of Government are by Stanley Hoffmann Paul Kahn Harold Koh Frank Michelman Andrew Moravcsik John Ruggie Frederick Schauer Anne Marie Slaughter Carol Steiker and Cass Sunstein

American Exceptionalism? Rick Halpern, Jonathan Morris, 1997-08-12 The idea that American historical development is different from that of other nations is an old one yet it shows no sign of losing its emotive power Exceptionalism continues to excite beguile and frustrate students of the American past The essays in this volume explore the ways in which the process of class formation in the United States can be said to be distinctive Focusing upon the impact of liberal political thought race and immigration and the role of the war time state they challenge particularist and nation centred modes of explanation Comparing American historical development with Italian South African and Australian examples the essays reinvigorate a tired debate

The American Colonial State in the Philippines Julian Go, Anne L. Foster, 2003-07-08 Interdisciplinary collection placing the U S imperial project in the Philippines within a global comparative framework

Richard Wright's Native Son, 2007-01-01 Coinciding with the preparations for the celebration in 2008 of Richard Wright's 100th birthday this new collection of critical essays on Native Son attests to the importance and endurance of Wright's controversial work The eleven essays collected in this volume engage the objective of Rodopi's Dialogue Series by creating multidirectional conversations in which senior and younger scholars interact with each other and with previous scholars who have weighed in on the novel's import Speaking from distant corners of the world the contributors to this book reflect an international interest in Wright's unique combination of literary strategies and social aims The wide range of approaches to Native Son is presented in five thematic sections The first three sections cover aspects such as the historical reception of Wright's novel the inscription of sex and gender both in Native Son and in other African American texts and the influence of Africa and of vortical symbolism on Wright's aesthetics following is the study of the novel from the point of view of its adoption and transformation of various literary genres the African American jeremiad the protest novel the crime novel and courtroom drama the Bildungsroman and the Biblical modes of narration The closing section analyzes the novel's lasting influence through its adaptation to other artistic fields such as the cinema and song in the form of hip hop The present volume may therefore be of interest for students who are not very familiar with Wright's classic text as well as for scholars and Richard Wright specialists

Reflecting All of Us Robert Richie, 1999-01-14 A lively dialogue on the power of electoral reform to strengthen our democratic institutions Scholars critics reformers politicians and activists have for years asked why Americans are so

uninvolved in the political process Minority underrepresentation the marginalization of progressive voices the exclusion of the poor these and other serious problems appear everywhere from the pages of national newspapers to MTV Robert Richie and Steven Hill offer a powerful solution one currently in practice in many parts of the world including places in the U S proportional representation They demonstrate that unlike the winner takes all system which always leaves the losers completely unrepresented proportional representation gives all points of view a political voice it works by giving citizens multiple votes or the right to vote for more than one candidate or by giving political parties power according to percentages of votes received Esteemed thinkers Cynthia McKinney John Ferejohn E Joshua Rosenkrantz Gary W Cox Daniel Cantor Ross Mirkarimi Anthony Thig penn and Pamela S Karlan respond in essays discussing the forms proportional representation could take to operate best in the U S Their contributions underscore the concept at the heart of this book the more people invested in the political process the more democratic and reflective of all of us our system becomes

NEW DEMOCRACY FORUM A series of short paperback originals exploring creative solutions to our most urgent national concerns The series editors for Boston Review Joshua Cohen and Joel Rogers aim to foster politically engaged intellectually honest and morally serious debate about fundamental issues both on and off the agenda of conventional politics

Sport and National Identity in the Post-War World Dilwyn Porter, Adrian Smith, 2013-04-15 What is the relationship between sport and national identity What can sport tell us about changing perceptions of national identity Bringing together the work of established historians and younger commentators this illuminating text surveys the last half century giving due attention to the place of sport in our social and political history It Includes studies of English football and British decline Englishness and sport Ethnicity and nationalism in Scotland Social change and national pride in Wales Irish international football and Irishness Sport and identity in South Africa Cricket and identity crisis in the Caribbean Baseball exceptionalism and American Sport Popular mythology surrounding the sporting rivalry between New Zealand and Australia Sport and National Identity in the Post War World presents a wealth of original research into contemporary social history and provides illuminating material for historians and sociologists alike

Reflections Of An American Political Prisoner Michael O. Billington, 2015-09-04 Michael Billington the author of this autobiographical memoir is one of a dozen individuals who were sent to prison in 1989 with America s foremost statesman Lyndon H LaRouche Jr Sentenced to 77 years by George Bush s Get LaRouche Task Force he spent his imprisonment in study and writing to bridge the divide between East and West Empire is based upon the ancient principle of divide and rule by clearing up misunderstandings among cultures he was able to play a leading role in putting together the combination of forces today oriented around the BRICS Brazil Russia India China and South Africa which have in large measure now adopted the The New Silk Road policies of LaRouche EIR and the Schiller Institute for Hamiltonian scientific progress for the benefit of all mankind Included in this book are 2 very important studies by Billington which every literate person should read to be able to understand Asia China and the path to bring America into the win win paradigm of a better

future *White Liberal Identity, Literary Pedagogy, and Classic American Realism* Phillip Barrish, 2005 *White Liberal Identity Literary Pedagogy and Classic American Realism* brings literary works from the turn of the last century face to face with some of the dilemmas and paradoxes that currently define white liberal identity in the United States Phillip Barrish develops fresh analytic and pedagogical tools for probing contemporary white liberalism while also offering new critical insights and classroom approaches to American literary realism New ground is broken by using bold close analysis of works by canonical American realist writers such as Henry James Edith Wharton Mark Twain and Kate Chopin These contexts include an affirmative action court case the liberal arts classroom and the war on drugs as well as current debates about the United States role on the international scene Invoking a methodology that he calls critical presentism Barrish's book offers a fresh response to that perennial classroom question often posed most forcefully by students committed to progressive political agendas why devote so much time and effort to detailed analyses of canonical American literature This book makes specific contributions not only to American literary and cultural studies but also to critical race theory masculinity studies and critical pedagogy from back cover **The Future of Christian Realism** Dallas Gingles, Joshua Mauldin, Rebekah L. Miles, 2023-04-15 In the world's most developed democracies anxiety about the future of democracy is palpable The tension between moral aspiration and moral despair has reached a point of crisis Christian realism arose during a similar time of crisis when Reinhold Niebuhr used the insights of the Christian tradition to interpret the clash between democracy and totalitarianism Beginning with Robin Lovin's account of Christian realism as a nuanced blend of theological moral and political realisms *The Future of Christian Realism* addresses fundamental topics in theology ethics and politics The contributors come from different traditions span five continents and together present a case for the continuing relevance of Christian realism By paying close attention to many of the most pressing moral challenges facing societies today the authors illustrate and evaluate the enduring relevance of Christian realism **Governing Asia: Reflections On A Research Journey** Lee Kuan Yew School Of Public Policy, 2014-10-07 These thirty eight essays by the professors and research fellows of the Lee Kuan Yew School of Public Policy is dedicated to the tenth anniversary of the School The core theme of the essays is governance in Asia and what its governments and peoples are doing for the public good As Asia rises its policymakers and citizens and indeed the rest of the world are increasingly asking how this dynamic region is making public policy what we can learn from that exciting often turbulent process and how Asians can do better The School's diverse and international group of scholars have written a set of informal provocative and passionate essays about governance in Asia its past present and future and why they study it The volume a candid engaging act of transparency and disclosure is also an invitation to join the conversation on the problems and promise of Asia and the larger dialogue on public policy and policy research in a globalized world Religious Ideology in American Politics Nicole Guétin, 2014-01-10 The connections between religion and political discourse in the arena of American politics are profound and longstanding By looking at the writings of American

thinkers from colonial times to the present this work argues for the consistency and permanence of the American religious vision as it relates to political life Ideas including Manifest Destiny America as God s Country and Americans as God s People are explored within this framework as is how these ideals of American exceptionalism and the City on the Hill have survived and mutated into the current U S political climate Instructors considering this book for use in a course may request an examination copy here [Reflection On A Revolution](#) Shahid Al-Bilali,2019-03-21 REFLECTION ON A REVOLUTION THE EVOLUTION OF OUR MINDS seeks to bring the knowledge of a turbulent era in Louisville Kentucky and America in the late 1960s and 70s Drawing from my own participation in that movement hoping with this book will bring a greater understanding of the people and struggle of that era that fought to eradicate racial inequality in America **Barack Obama and the Future of American Politics** Paul Street,2015-12-22 Many Americans believe Barak Obama represents a hopeful future for America But does he also reflect the American politics of the past This book offers the broadest and best informed understanding on the meaning of the Obama phenomenon to date Paul Street was on the ground throughout the Iowa campaign and his stories of the rising Obama phenomenon are poignant Yet the author s background in American political history allows him to explore the deeper meanings of Obama s remarkable political career He looks at Obama in relation to contemporary issues of class race war and empire He considers Obama in the context of our nation s political history with comparisons to FDR JFK Bill Clinton and other leaders Street finds that the Obama persona crafted by campaign consultants and filtered through dominant media trends masks the change candidate s adherence to long prevailing power structures and party doctrines He shows how American political culture has produced misperceptions by the electorate of Obama s positions and values Obama is no magical exception to the narrow spectrum electoral system and ideological culture that have done so much to define and limit the American political tradition Yet the author suggests key ways in which Obama potentially advances democratic transformation Street makes recommendations on how citizens can productively respond to and act upon Obama s influence and the broader historical and social forces that have produced his celebrity and relevance He also lays out a real agenda for change for the new presidential administration one that addresses the recent failures of democratic politics
