Refrigerator Memory

Karin Nielsen-Saines

Refrigerator Memory:

The Refrigerator Memory Shannon Bramer, 2001-04-19 The Refrigerator Memory is an exuberant strangely funny celebration of sadness With fable like miniature stories and short lyric poems Shannon Bramer creates a world littered with stolen pears and prosthetic arms and inhabited by Kindness scientists and hot air balloon operators The poems invoke a world of childhood delights and demons in the context of grown up fears and appetites heartbreak loss jealousy and old fashioned sibling rivalry You ll find the hopelessly misunderstood Love the Clown never goes out without his red wig and Noni a forlorn young man who can t stop crying But while sadness plays a starring role the true hero of the collection is the imagination its transformative powers warm widows and drunken gods and designated mourners You won t forget The Refrigerator Memory the icebox cometh to warm your heart

Unchained Memories Lenore Terr, 2008-08-06 Can a long forgotten memory of a horrible event suddenly resurface years later How can we know whether a memory is true or false Seven spellbinding cases shed light on why it is rare for a reclaimed memory to be wholly false Here are unforgettable true stories of what happens when people remember what they ve tried to forget plus one case of genuine false memory In the best detective story fashion using her insights as a psychiatrist and the latest research on the mind and the brain Lenore Terr helps us separate truth from fiction

Corporation ,1946 **Explanatory Solutions to Skeptical Problems** Kevin McCain,2025-01-12 Phenomenal Explanationism is a powerful new theory of epistemic justification that combines an explanationist conception of evidential support with an appearance based or phenomenal conception of evidence According to PE epistemic justification is a matter of what best explains our evidence which ultimately consists of appearances It is a complete internalist theory of epistemic

justification that delivers on the promises of other appearance based theories while avoiding their pitfalls In Explanatory Solutions to Skeptical Problems Kevin McCain expands his previous work on the internalist dimension of the theory to cover external world skepticism He also demonstrates how PE offers solutions to a host of other perennial skeptical problems including the problem of the criterion the regress of justification memory skepticism and inductive skepticism The promise that PE displays in responding to these problems makes it plain that it is a viable conception of epistemic justification worthy of careful consideration and also that accepting internalism more generally doesn't leave one without reasonable responses to skeptical problems Psychological Foundations of Marketing ,2012-11-12 A CHOICE Outstanding Academic Title 2013 Are we influenced by ads even when we fast forward them Do brands extend our personalities Why do we spend more when we pay with a credit card Psychological Foundations of Marketing considers the impact of psychology on marketing practice and research and highlights the applied aspects of psychological research in the marketplace This book presents an introduction to both areas and provides a survey of the various contributions that psychology has made to the field of marketing Each chapter considers a key topic within psychology outlines the main theories and presents various practical applications of the research Topics covered include Motivation The human needs at the root of many consumer behaviors and marketing decisions Perception The nature of perceptual selection attention and organization and how these perceptual processes relate to the evolving marketing landscape Decision making How and under what circumstances it is possible to predict consumer choices attitudes and persuasion Personality and lifestyle How insight into consumer personality can be used to formulate marketing plans Social behavior The powerful role of social influence on consumption This book will be of great interest to a diverse audience of academics students and professionals and will be essential reading for courses in marketing psychology consumer behavior and advertising Portalism Jeffrey Laird,2022-11-25 The mind is not the brain The locus of our consciousness is in the world Portalism embraces radical phenomenal externalism and represents a contemporary form of dualism that rejects materialist assumptions of mind brain identity As a philosophy of mind Portalism breaks with traditional thinking in two significant ways first by holding that consciousness is in fact a fifth fundamental force of nature endowed with behavioural attributes not unlike that of gravity and second by arguing how consciousness inheres in all living organisms regardless of their biological sophistication Portalism compels us to reject traditional monist theories about the nature of consciousness and boldly enter into a new way of thinking about our own reality *Applied superconductivity* Vernon Newhouse,2012-12-02 Applied Superconductivity Volume 1 serves as a reference material to existing superconductivity techniques and a guide to future research This book deals with electronic application as well as radiation detection in superconducting films Organized into five chapters this volume begins with an overview of superconductivity particularly the superconducting elements that exhibit an intrinsic quantum electronic behavior This book then discusses the critical values of the parameters of all superconductive materials which include the magnetic field current

density and temperature Other chapters examine the dynamic and static characteristics of several bolometers This text also compares the sensitivity of the nonthermal current mode with other wavelength detectors The final chapter explores the practical thermodynamics of refrigeration and low temperature refrigeration techniques This book is intended for those seeking to enrich their background in the physics of superconductivity Students and researchers in any branch of physics and engineering will find this book extremely useful
