Salt And Steel Reflections Of A Submariner:

Salt and Steel Edward Latimer Beach, 1999 The author of *Run Silent Run Deep* and *Around the World Submerged* relates the highlights of his career as a submariner beginning in World War II with the Battle of Midway and culminating with his role as a consultant on the nuclear power program 13 photos *Black Submariners in the United States Navy, 1940-1975* Glenn A. Knoblock, 2015-05-20 For as long as an American naval force has existed black sailors have served it with bravery distinction and little or no recognition They have since earned praise for service in the American Revolution the War of 1812 and the Civil War and more recently they were integral to the development of the U S Submarine Service Their roles limited by segregation black submariners nonetheless were a key element of the Silent Service throughout World War II With desegregation came expanded opportunities and black submariners witnessed the birth and evolution of the nuclear powered submarine and some of the tensest moments of the Cold War These men paved the way for those who followed their contributions deserve recognition and their stories deserve to be told This exploration of the role of African American submariners chronicles their service from World War II through the Cold War era An historical overview of black sailors and the evolution of the Steward s Branch to which black sailors were eventually restricted precede descriptions of becoming a steward and a submariner and of life as a submariner during World War II An account of black submariners in post war service during desegregation the development of the nuclear submarine and throughout the Cold War follows Oral histories of more than fifty black submariners who served in World War II and post war form the heart of the book Photographs of the men profiled including wartime photographs complement the text Appendices outline the naval steward rating system list all black submarine stewards serving in World War II top stewards by number of war patrols and those lost or killed during wartime service Rear Admiral Melvin G Williams Jr submarine fleet commander and son of one of the men profiled provides a foreword **The USS Swordfish** George J. Billy, 2019-10-23 Among the more than 260 American submarines that patrolled the Pacific during World War II the USS Swordfish in 1941 was the first to sink a Japanese armed merchant ship marking the beginning of the submarine s colorful history A series of seven commanders led Swordfish s 13 war patrols Each skipper had a distinct leadership style Some were successful in sinking enemy ships others returned to port empty handed Yet all patrols risked dangerously close encounters with the enemy and the unforgiving nature of the open sea Drawing on archival sources and interviews with veteran sailors this first full length history of the Swordfish provides detailed accounts of each patrol and covers the mysterious disappearance of the legendary submarine on its final mission *All Hands* , 1998 **Thunder in the Deep** Joe Buff, 2008-12-10 In his electrifying first novel Joe Buff instantly established himself as the ultimate chronicler of 21st century warfare by taking military fiction and submarine combat to a new level of authenticity vision and power Thunder in the Deep picks up where *Deep Sound Channel* left off bringing to life a frightening seascape where technology pushes warriors to new extremes and warriors push technology to the max This time the difference between victory and defeat

hinges on the two most advanced nuclear attack submarines in the world The Challenger is the weapon of the future a ceramic hulled nuclear attack submarine whose electronic eyes and ears are the most advanced ever created It is commanded by acting captain Jeffrey Fuller a former SEAL turned submariner whose aggressiveness has made him a rising star and sometimes scares the hell out of his crew Fuller s mission is to rescue the Virginia class fast attack sub Texas now lying on the bottom of the Atlantic just off the Azores But the enemy a newly resurrected and fanatically militaristic Germany knows where the Texas is too and knows the Challenger is coming It is Challenger the Germans want dispatching their own high tech supersub the Deutschland to destroy her In this war your enemy is a blip on a console hardwired into an integrated nuclear weapons system Ships are vaporized off the surface of the sea nuclear shock waves unleash deadly tsunami waves and smart submarines do battle with smart aircraft sent to hunt them down For Jeffrey Fuller and the Challenger for the men on board the Deutschland the race beneath the ocean s surface across a horrific underwater war zone will demand every bit of courage and skill they can muster just to survive Before it s over the Challenger s mission is radically redefined Fuller his SEALs and freedom fighter Ilse Reebeck are sent into Germany itself to plant a nuke right in the gut of the enemy s power structure Thunder in the Deep plunges the reader into the middle of some of the fiercest and most thrilling depictions of underwater warfare ever written It is an electrifying novel of military strategy and action a powerful tale of technology and humanity that will have you breathlessly turning pages until the explosive climax

Cold War Submarines Norman Polmar, Kenneth J. Moore, 2004 Submarines had a vital if often unheralded role in the superpower navies during the Cold War Their crews carried out intelligence collection operations sought out and stood ready to destroy opposing submarines and from the early 1960s threatened missile attacks on their adversary s homeland providing in many respects the most survivable nuclear deterrent of the Cold War For both East and West the modern submarine originated in German U boat designs obtained at the end of World War II Although enjoying a similar technology base by the 1990s the superpowers had created submarine fleets of radically different designs and capabilities Written in collaboration with the former Soviet submarine design bureaus Norman Polmar and K J Moore authoritatively demonstrate in this landmark study how differing submarine missions antisubmarine priorities levels of technical competence and approaches to submarine design organizations and management caused the divergence

The War for the Seas Evan Mawdsley, 2019-09-24 A bold and authoritative maritime history of World War II which takes a fully international perspective and challenges our existing understanding Command of the oceans was crucial to winning World War II By the start of 1942 Nazi Germany had conquered mainland Europe and Imperial Japan had overrun Southeast Asia and much of the Pacific How could Britain and distant America prevail in what had become a war of continents In this definitive account Evan Mawdsley traces events at sea from the first U boat operations in 1939 to the surrender of Japan He argues that the Allied counterattack involved not just decisive sea battles but a long struggle to control shipping arteries and move armies across the sea Covering all the

major actions in the Atlantic and Pacific oceans as well as those in the narrow seas this book interweaves for the first time the endeavors of the maritime forces of the British Empire the United States Germany and Japan as well as those of France Italy and Russia

Rickover: The Struggle for Excellence Francis Duncan, 2021-06-17 Admiral Hyman G Rickover 1900-1986 the Father of the Nuclear Navy was born Chaim Godalia Rickover in eastern Poland to Jewish parents Fleeing Russian antisemitic pogroms in 1906 with his mother and sister he joined his father who had traveled to America since 1897 in New York City The family soon moved to Chicago where Rickover's father worked as a tailor Congressman Adolph Sabath a Czech Jewish immigrant nominated Rickover for appointment to the US Naval Academy Rickover passed the entrance exams and entered the Academy in 1918 After sea duty on several ships and submarines he served as head of the Electrical Section in the Bureau of Ships and in 1946 was sent to Oak Ridge to start working on nuclear naval propulsion reactors a program he would lead for the rest of his career He became a four star admiral in 1973 Rickover's work on nuclear propulsion had a profound effect on the post World War II world and on the development of civilian nuclear reactors for electricity generation His demand for excellence and accountability was felt far beyond the naval community yet few other flag officers in the US Navy have been so controversial Drawing on the admiral's private papers and the personal insights of friends and family members this biography examines Rickover's extraordinary naval career and his private life Francis Duncan in his long awaited full biography of Hyman Rickover achieves that difficult dual goal of close personal insight and honesty of distance Duncan details Rickover's many controversies his towering rages and his contempt for tradition bureaucracy and stupidity a very readable cruise through the life of a notorious curmudgeon who after all served his country well and had a major impact on the ships of the U S Navy on the engineering profession and on the development of nuclear power in the United States Rodney Carlisle *The Journal of American History* This fine treatment of a remarkable man is highly recommended Malcolm Muir Jr *Technology and Culture* Francis Duncan is uniquely qualified to write the biography of Admiral Hyman G Rickover He is the only person to whom Admiral Rickover ever made himself available for interviews and allowed use of his personal papers including the letters between himself and his first wife Ruth This is an enjoyable book especially for the thousands who served or serve now in the nuclear programs civilian or military It is also an important addition to the history of a man who was one of the giants of the twentieth century United States Robert Loewenthal *The Journal of Military History* Victorious in his struggle for excellence Rickover's personal baton of highly disciplined professionalism was passed without a hitch to those he had selected educated and trained to run nuclear power plants safely and efficiently We still feel his presence his legacy endures This book does him long awaited justice Admiral James D Watkins USN Ret Chief of Naval Operations 1982-86 Impressively researched insightful and readable Duncan captures the Rickover behind the myths and sea stories This account of his remarkable life an only in America story will appeal to a wide audience midshipman to CEO Admiral Bruce DeMars USN Ret Director Navy Nuclear Propulsion 1988-96 This excellent book offers insights not available

to previous authors who did not enjoy Francis Duncan's close association with Rickover and his family. Particularly useful are early chapters that define the character of the man Admiral Kinnard R. McKee, USN, Ret., Director, Navy Nuclear Propulsion, 1982-88. This is the authentic biography of Hyman Rickover, one of the most influential persons in naval history and in the creation of an international civilian nuclear power industry. Duncan has given us a national treasure that is both authoritative and enjoyably readable. There's something in it for everyone. Dr. Theodore Rockwell, former technical director of Rickover's naval reactors program, *Rickover: The Struggle for Excellence* is an original and absolutely fundamental contribution both to naval history and to a general understanding of nuclear power development. It is very objective and accessible. There is no comparable book. Dr. Gary Weir, Naval Historical Center, I believe *Rickover: The Struggle for Excellence* by Francis Duncan is the best biography of Admiral Rickover. Robert Rickover, son of Admiral Rickover, *Beneath the Waves*, Edward Finch, 2010-04-15. Capt. Edward Ned Latimer Beach, Jr., USN, is known primarily for his bestselling novel *Run Silent, Run Deep*, which was made into a film in 1958 with Clark Gable and Burt Lancaster, and his record-setting voyage as commanding officer of USS Triton (SSN-586) that was the first submarine to circumnavigate the globe while submerged. A highly decorated United States Navy submarine officer during World War II, he participated in the Battle of Midway as well as other 12 combat patrols, earning 10 decorations for gallantry, including the Navy Cross. His career also offers insights into the inner workings of power from inside the Pentagon in the years right after World War II to inside of the Eisenhower White House to the politics of the Republican Party in the United States Senate in the 1970s. In addition to serving as an officer aboard U.S. submarines in the Pacific during World War II, he was a prolific author, publishing two novels in addition to *Run Silent, Run Deep*, as well as numerous works on naval history. Ned Beach is a biography that weaves together the personal, professional, and writing life of a man who for many was the public face of the submarine community in the years after the Second World War. With a father who was a naval officer and the author of thirteen published novels in the 1910s-20s as the eldest son, Ned Beach was greatly influenced to follow in his father's footsteps and to become both an officer and a writer. From his youth in Palo Alto, California, during the Great Depression to his service in the Pacific in the war against Japan to the epic submerged circumnavigation of the globe in early 1960, commanding one of the early nuclear-powered submarines, Ned Beach's career encompasses a revolutionary period in American naval history. Not only did he experience it, he wrote about it. This book tells the story of his remarkable life, career, and writing. **The Silent Service's First Hero**, Ryan C. Walker, 2024-11-30. A comprehensive microhistorical exploration of Henry Breault's life, celebrating his legacy as the first submariner to receive the Congressional Medal of Honor. Celebrating 100 years since the first submariner received the Congressional Medal of Honor, this book dives into pre-World War II submarine history through the first comprehensive analytical investigation into the life and times of Henry Breault. From 1900-41, Breault's life is reconstructed as lived through his Official Military Personnel File, census records, newspaper clippings, and connecting previous research. Breault's childhood, his enlistments in the Royal Navy,

Canadian Volunteer Reserve and the United States Navy are carefully reconstructed From there the conditions aboard the submarines he served on his relationship with friends and family his relationship to the women in his life and his concept of masculinity and material identity allow us to better understand his life in the context he likely understood them This book provides a new template for microhistorical observations into subjects whose primary sources are official military documentation to help better understand enlisted submariners
