Commitment, Character, and Citizenship Hanan A. Alexander, Ayman K. Agbaria, 2012-05-31 As liberal democracies include increasingly diverse and multifaceted populations the longstanding debate about the role of the state in religious education and the place of religion in public life seems imperative now more than ever The maintenance of religious schools and the planning of religious education curricula raise a profound challenge Too much state supervision can be conceived as interference in religious freedom and as a confinement of the right to cultural liberty Too little supervision can be seen as neglecting the development of the liberal values required to live and work in a democratic society and as abandoning those who within their communities wish to attain a more rigorous education for citizenship and democracy This book draws together leading educationalists philosophers theologians and social scientists to explore issues problems and tensions concerning religious education in a variety of international

Fitzpatrick,2006-06-15 In the aftermath of the terrorist attacks of September 11 2001 the philosophy of John Stuart Mill has never been more relevant Can we reconcile individual liberty with the demands of the common good John Fitzpatrick argues that properly understood Mill s liberal utilitarianism can indeed support a system of rights rich enough to guarantee individual liberty Combining fresh interpretations of Mill s writings on ethics politics and political economy with the historical Mill that can found in his autobiography the book will be of substantial interest to a wide audience Practicing the Application of Health Education Skills and Competencies Marilyn Morrow,Bette B. Different but Equal Kay Payne,2001-02-28 This study presents a theoretical and practical discussion of the changes that have occurred between men and women and how the sexes relate to one another from social political and ethical perspectives Not only do men and women reflect different gender roles through communication but they are also impacted by communication about gender especially from the media Gender differences in communication have gained political importance due to the increasingly relevant issues of sexual harassment and political correctness These social and political changes have influenced our value systems and have given the study of gendered communication an ethical importance Payne argues that religious ideology is an important aspect of gendered development and that biological psychological social and cultural phenomena also affect sex roles This volume will appeal to scholars and students in the communications disciplines as well as psychologists and sociologists Organized around three major themes the construction of the gendered self the differences between men and women as they relate to one another through language power and nonverbal communication and the effects of gendered communication in leadership and the media this work covers much ground on the topic of communication between the sexes **Diversity, Social Justice, and Inclusive Excellence** Seth N. Asumah,Mechthild Nagel,2014-05-19 Winner of the 2016 NYASA Book Award presented by the New York African Studies Association When students are introduced to the study of diversity and social justice it is usually from sociological and psychological perspectives The scholars and activists featured in this anthology reject this approach as too limiting insisting that we adopt a view that is both transdisciplinary and multiperspectival Their essays focus on the components of diversity social justice and inclusive excellence not just within the United States but in other parts of the world They examine diversity

in the contexts of culture race class gender learned ability and dis ability religion sexual orientation and citizenship and explore how these concepts and identities interrelate The result is a book that will provide readers with a better theoretical understanding of diversity studies and will enable them to see and think critically about oppression and how systems of oppression may be challenged **Senior High Core Collection** Raymond W. Superka, 1976 **Crime & Criminals** David L. Bender, Gary E. McCuen, 1977 Embodiment James B. Nelson, Few would doubt that this is a time of transition in our understanding of human sexuality The confusion about sexual morals and mores is the more obvious evidence of this But there is something else For too long the bulk of Christian reflection about sexuality has asked an essentially one directional question what does Christian faith have to say about our lives as sexual beings
