Accessories After the Fact Sylvia Meagher,2013-09-01 Originally published in 1967 Meagher s masterful dissection of the Warren Report based on the Warren Commission s own evidence has stood the test of time In some cases declassifications of government records have corroborated the author s suspicions and analyses such as her amazing assertion that Oswald had never actually been charged with Kennedy s murder despite sworn testimony to the contrary Meagher s book raises serious questions not only about Oswald s guilt in the JFK assassination and related crimes such as the Tippit murder and the Walker shooting but also about the methods and honesty of the Warren Commission the FBI and various Dallas police and other officials When the Church Committee first began to re examine the Warren Commission and its relationship with intelligence agencies in 1975 investigators were shocked by what they discovered In Accessories After the Fact Sylvia Meagher delivers a blistering blow to the credibility of the Warren Report and decades after its original publication researchers and readers are still discovering what made her work so important
