## **Shadow Over China:**

China's India War Bertil Lintner, 2018-01-25 The Sino Indian War of 1962 delivered a crushing defeat to India not only did the country suffer a loss of lives and a heavy blow to its pride the world began to see India as the provocateur of the war with China merely defending its territory This perception that China was largely the innocent victim of Nehru's hostile policies was put forth by journalist Neville Maxwell in his book *India's China War* which found readers in many opinion makers including Henry Kissinger and Richard Nixon For far too long Maxwell's narrative which sees India as the aggressor and China as the victim has held court Nearly 50 years after Maxwell's book Bertil Lintner's *China's India War* puts the border dispute into its rightful perspective Lintner argues that China began planning the war as early as 1959 and proposes that it was merely a small move in the larger strategic game that China was playing to become a world player one that it continues to play even today

Korea Naval War College (U.S.). Asia-Pacific Studies Group. Asia-Pacific Forum,2006 This book is a collection of 16 essays by international authors who participated in an academic conference on Korea sponsored by the U S Naval War College Papers were originally presented at the Naval War College s Asia Pacific Forum the annual conference of the college s Asia Pacific Studies Group held in Newport R I on 26 27 August 2004      Politics of China's Environmental Protection Gang Chen,2009 As the dazzling economic and social changes in China have imposed substantial impact upon the quality of environmental governance it is time to review the problems and progress in the politics of China s environmental protection This book analyzes the factors in China s governance and political process that affect and restrain its capacity to handle the mounting environmental problems It argues that solutions to China s ecological woes to a larger extent lie in the political and institutional changes rather than in engineering technological and investment input The book talks about new policies and reform measures in the green area taken by the government since 2007 arguing that some of them may be quite effective in the long run as long as they alter institutional factors and the OC growth firstOCO mindset that obstruct the green effort The book also includes discussion of China s climate change policy not only because global warming has come under the limelight of the international community in recent years but also because it offers a unique dimension to analyze the country s environmental diplomacy and domestic bureaucratic structure on emissions cutting and related energy issues China is currently at the crossroads of further political and economic reform and the intensified public attention to environmental pollution may help the Chinese Communist Party to decisively push forward the long sluggish political reforms
