Shadow's Talent Tommy Muncie, 2014-06-23 Shadow Hatcher is determined to change his life Despite his unusually high aptitude for his dream career as an astronaut Shadow's lowly status in 23rd century England makes it nearly impossible to attain This changes when Shadow witnesses a murder near his family's farm His daring witness testimony earns him the attention and respect of society's most powerful people the Talented whose links to the ruling class can make Shadow's dream come true When his testimony results in the collapse of an illegal Dream Morphine racket Shadow is thrown into a strange new world with dangers that he can barely begin to fathom As he becomes more deeply involved in the world of the Talented he must live with dark secrets and face constant dangers to prevent his family from paying the ultimate price for his success A price someone now seems intent on making them pay

Understanding Primary Science Martin Wenham, 2004-12-08 This is a useful and interesting resource book for primary teachers and would help to develop their knowledge and teaching of science I will certainly be using it to inform my planning and teaching of the subject Juliette Green Primary School Teacher Environmental Education This book clearly goes some way to achieving its goal of enabling the effective teaching of science at primary level Primary Science Review Every teacher however well trained in science will have areas of uncertain understanding This book is a prime resource for primary teachers of readable accurate and relevant explanations of scientific phenomena supported by impressively clear drawings It has been revised to include recent scientific developments such as DNA and environmental issues and continues to give sound advice about likely misconceptions whilst maintaining its focus on explaining the science for teachers Wynne Harlen Professor in Education University of Bristol In a thoroughly revised and updated version this standard reference book provides the background knowledge teachers need in order to plan effective programmes of work and answer children's questions with confidence It is based on the belief that children learn most effectively when they can interpret their own experiences and investigation in scientific terms The content of this book has been guided but not limited by the National Curriculum NC and the detailed requirements for teacher knowledge of the Teacher Training Agency TTA It sets out the facts develops the concepts and explains the theories which pupils at primary level including older and very able children are likely to need in order to understand the observations and investigations they undertake For this edition some new topics have been added in response not only to TTA requirements and ongoing developments in science and technology but also to the queries of children and teachers about observations they find

relevant and puzzling Throughout topics are developed in ways which teachers and children can relate to their own experience The text does not assume specialised scientific knowledge and wherever possible explanations and the development of ideas begin and remain firmly in contact with everyday events and observations What is assumed is that readers will be willing to try things out for themselves and think afresh in scientific terms about experiences they and their pupils now take for granted As a work of reference to answer specific questions and clarify ideas or as a resource for planning an effective primary science programme this is an essential book for teachers student teachers and anyone interested in the roots and growth of science education
