20,000 LEAGUES UNDER THE SEA Jules Verne,2017-04-23 A SHIFTING REEF The year 1866 was signalised by a remarkable incident a mysterious and puzzling phenomenon which doubtless no one has yet forgotten Not to mention rumours which agitated the maritime population and excited the public mind even in the interior of continents seafaring men were particularly excited Merchants common sailors captains of vessels skippers both of Europe and America naval officers of all countries and the Governments of several States on the two continents were deeply interested in the matter For some time past vessels had been met by an enormous thing a long object spindle shaped occasionally phosphorescent and infinitely larger and more rapid in its movements than a whale The facts relating to this apparition entered in various log books agreed in most respects as to the shape of the object or creature in question the untiring rapidity of its movements its surprising power of locomotion and the peculiar life with which it seemed endowed If it was a whale it surpassed in size all those hitherto classified in science Taking into consideration the mean of observations made at divers times rejecting the timid estimate of those who assigned to this object a length of two hundred feet equally with the
