Shakedown And The Whistleblower:

Shakedown Ezra Levant, 2009-05-08 Winner of the Writer's Trust of Canada Samara's Best Canadian Political Book of the Last 25 Years Part memoir part investigative journalism this is a shocking and controversial look at the corruption of Canada's human rights commissions On January 11 2008 I was summoned to a 90 minute government interrogation My crime As the publisher of Western Standard magazine I had reprinted the Danish cartoons of Mohammed to illustrate a news story I was charged with the offence of discrimination and made to appear before Alberta's human rights commission for questioning As crazy as it sounds I became the only person in the world to face legal sanction for printing those cartoons As a result of this highly publicized event Ezra Levant began investigating other instances in which innocent people have had their freedoms compromised by bureaucrats presuming to protect Canadians human rights He discovered some disturbing and even bizarre cases such as the tribunal ruling that an employee at a McDonald's restaurant in Vancouver did not have to wash her hands at work And the human rights complaint filed by a Calgary hair stylist against the women at a salon school who called him a loser In another case that seemed stranger than fiction an emotionally unstable transvestite fought for and won the right to counsel female rape victims despite the anguished pleas of those same traumatized victims Human rights commissions now monitor political opinions fine people for expressing politically incorrect viewpoints censor websites and even ban people permanently from saying certain things The book is a result of Levant's ordeal and the research it inspired It shows how our concept of human rights has morphed into something dangerous and drastically different from its original meaning Shakedown is a convincing plea to Canadians to reclaim their basic liberties Chicago Shakedown John F.

Drama, Politics, and Evolution Bruce McConachie, 2021-10-25 This book outlines the evolution of our political nature over two million years and explores many of the rituals plays films and other performances that gave voice and legitimacy to various political regimes in our species history Our genetic and cultural evolution during the Pleistocene Epoch bestowed a wide range of predispositions on our species that continue to shape the politics we support and the performances we enjoy The book s case studies range from an initiation ritual in the Mbendjela tribe in the Congo to a 1947 drama by Bertolt Brecht and include a popular puppet play in Tokugawa Japan A final section examines the gradual disintegration of social cohesion underlying the rise of polarized politics in the USA after 1965 as such films as *The Godfather* *Independence Day* *The Dark Knight Rises* and *Joker* accelerated the nation s slide toward authoritarian Trumpism

[The Courage to Do Nothing](#) Bill Flax, 2010-09 Are you fed up with Washington politicizing our economy and bureaucrats more focused on aggrandizing their power than aiding commerce For many of us the rhetoric emanating from our government doesn t reflect reality In *The Courage to do Nothing* Bill Flax gives a voice to the angry taxpayer articulating our concerns and offering cogent advice to our political leaders Socialism is inherently flawed but instead of allowing the free market to function our politicians employ socialism concealed as compassion Our cultural elites in Washington Academia Media and Hollywood have built a modern Tower of Babel based on progressive fantasies Their idealistic pursuit of Utopia is funded by your tax dollars Socialism is but one pillar in this faulty tower but it is the pillar du jour and America s future if we don t restore the traditional Christian values and limited government our nation was built upon At eighteen Bill Flax enlisted in the Marine Corps to defend the Constitution against all enemies foreign and domestic It s now clear the gravest threat to our liberty comes from Washington itself In *The Courage to do Nothing* Bill interweaves faith economics and patriotism through

Challenges in the Field of Economic and Financial Crime in Europe and the US Katalin Ligeti, Vanessa

Franssen, 2017-02-23 In the past few years criminal justice systems have faced important global challenges in the field of economic and financial crime The 2008 financial crisis revealed how strongly financial markets and economies are interconnected and illustrated that misconduct in the economic and financial sectors is often of a systemic nature with wide spread consequences for a large number of victims The prevention control and punishment of such crimes is thus confronted with a strong globalisation Moreover continuous technological evolutions and socio economic developments make the distinction between socially desirable and undesirable behaviour more problematic Besides economic and financial misconduct is notoriously difficult to detect and investigate In light of these challenges legislators and law enforcers have been searching for adequate responses to combat economic and financial crime by adapting existing policies norms and practices and by creating new enforcement mechanisms The purpose of this volume is to analyse those challenges in the field of economic and financial crime from different perspectives and to examine which particular solutions criminal justice systems across Europe give to those challenges The volume has four parts The first part focuses on a number of key questions with respect to substantive criminal law whereas the second part will address issues affecting the administration of justice and criminal procedure Part three then explores particular challenges concerning multi agency cooperation and multi disciplinary investigations Finally part four will concentrate on issues regarding shared or integrated enforcement models

Independent View of the Donald J. Trump Presidency William Smith, 2023-04-26 This book continues the chronological look at the inner workings of our government in the last two years of Donald Trump s administration and the resulting insurrection He has lost the investigative power of the House of Representatives in the midterm election but still controls the Senate under the compliant leadership of Mitch McConnell Now he needs to find a willing Attorney General in order to control the Judiciary Branch He finds that in William Barr President Trump has been emboldened by newly appointed A G Barr with his dismissal of the Special Counsel Robert Mueller investigation With the help of compliant Republicans in Congress he believes that he can do no wrong Unfortunately our deep division in American thinking has been created by individuals and organizations that are using our beloved internet for their own selfish purposes Across this communication highway we have mainstream conservative and social media all vying for our attention Good intentions seem to be overwrought by predatory ambitions This constant stream of sensationalized misinformation has created a storm of hateful division Wayward focus groups are urged to gather together and fight for the causes that they have been directed to believe in the truth be damned What is most frightening about this change in American lifestyle is that the President of the United States is primarily responsible for this deep division Donald Trump is a master manipulator He will do whatever is necessary to obtain control using whomever he can to succeed and punishing all who oppose his ambitions Trump has forever made elaborate and baseless claims about election fraud even after the Electoral College confirmed Joe Biden s victory on December 14 Five days later he tweeted Big protest in DC on January 6th Be there will be wild He then tweeted seven more times calling attention to the event including one on January 1 that included the phrase Stop the Steal In this book I continue my conversations with die hard Trump supporters Unlike his bigoted and brutal MAGA insurrectionists these people are our everyday friends and family What I have learned with these debates is that their beliefs and expressive language mimic those of the numerous hosts of Fox News programming They steadfastly cling to outrageously unbelievable conspiracy theories that are promoted by guests on Fox News and other far right conservative media Read what they have to say and my response then decide for yourself where and why this misinformation is so destructive **Illegal** Elizabeth F. Cohen, 2020-01-28 A political scientist explains how the American immigration system ran off the rails and proposes a bold plan for reform Under the Trump administration US immigration agencies terrorize the undocumented target people who are here legally and even threaten

the constitutional rights of American citizens How did we get to this point In *Illegal* Elizabeth F Cohen reveals that our current crisis has roots in early twentieth century white nationalist politics which began to reemerge in the 1980s Since then ICE and CBP have acquired bigger budgets and more power than any other law enforcement agency Now Trump has unleashed them If we want to reverse the rising tide of abuse Cohen argues that we must act quickly to rein in the powers of the current immigration regime and revive saner approaches based on existing law Going beyond the headlines *Illegal* makes clear that if we don't act now all of us citizens and not are at risk

Midnight in Washington Adam Schiff, 2022-08-16 1 NEW YORK TIMES BESTSELLER The vital inside account of American democracy in its darkest hour from the rise of autocracy unleashed by Trump to the January 6 insurrection and a warning that those forces remain as potent as ever from the congressman who led the first impeachment of Donald J Trump Engaging and informative a manual for how to probe and question power how to hold leaders accountable in a time of diminishing responsibility The Washington Post With a new afterword by the author In the years leading up to the election of Donald Trump Congressman Adam Schiff had already been sounding the alarm over the resurgence of autocracy around the world and the threat this posed to the United States But as he led the probe into Donald Trump's Russia and Ukraine related abuses of presidential power Schiff came to the terrible conclusion that the principal threat to American democracy now came from within In *Midnight in Washington* Schiff argues that the Trump presidency has so weakened our institutions and compromised the Republican Party that the peril will last for years requiring unprecedented vigilance against the growing and dangerous appeal of authoritarianism The congressman chronicles step by step just how our democracy was put at such risk and traces his own path to meeting the crisis from serious prosecutor to congressman with an expertise in national security and a reputation for bipartisanship to liberal lightning rod scourge of the right and archenemy of a president Schiff takes us inside his team of impeachment managers and their desperate defense of the Constitution amid the rise of a distinctly American brand of autocracy Deepening our understanding of prominent public moments Schiff reveals the private struggles the internal conflicts and the triumphs of courage that came with defending the republic against a lawless president but also the slow surrender of people that he had worked with and admired to the dangerous immorality of a president engaged in an historic betrayal of his office Schiff's fight for democracy is one of the great dramas of our time told by the man who became the president's principal antagonist It is a story that began with Trump but does not end with him taking us through the disastrous culmination of the presidency and Schiff's account of January 6 2021 and how the antidemocratic forces Trump unleashed continue to define his party making the future of democracy in America more uncertain than ever
