1 Henry IV Stephen Longstaffe,2011-08-18 An introduction to Shakespeare s I Henry IV introducing its critical and performance history current critical landscape and new directions in research on the play **The Cambridge Introduction to Shakespeare's Poetry** Michael

Schoenfeldt,2010-10-07 Shakespeare s poems aside from the enduring appeal of the Sonnets are much less familiar today than his plays despite being enormously popular in his lifetime This Introduction celebrates the achievement of Shakespeare as a poet providing students with ways of understanding and enjoying his remarkable poems It honours the aesthetic and intellectual complexity of the poems without making them seem unapproachably complicated outlining their exquisite pleasures and absorbing enigmas Schoenfeldt suggests that today s readers are better able to analyze aspects of the poems that were formerly ignored or the source of scandal the articulation of a fervent same sex love for example or the incipient racism inherent in a hierarchy of light and dark By engaging closely with Shakespeare s major poems Venus and Adonis Lucrece The Phoenix and the Turtle the Sonnets and A Lover s Complaint the Introduction demonstrates how much these extraordinary poems still have to say to us **Essays in Memory of Richard Helgerson** Roze Hentschell,Kathy

Lavezzo,2012 Essays in Memory of Richard Helgerson Laureations brings together new essays by leading literary scholars of the British and European middle ages and early modern period who have been influenced by the groundbreaking scholarship of Richard Helgerson The contributors evince the ongoing impact of Helgerson s work in critical debates including those of nationalism formal analysis and literary careerism **Adulterous Alliances** Richard Helgerson,2000-11 The result is an unexpected prehistory of the nineteenth and twentieth century cult of domesticity

planning anthropology and sociology urban studies and cultural studies the book provides a rich interdisciplinary view into the conflicts over memory and belonging which are spatially expressed and mediated through the official planning apparatus

John Norden's The Surveyor's Dialogue (1618) Mark Netzloff, 2016-05-06 This edition provides the first complete modern version of John Norden's *The Surveyor's Dialogue*. Norden's text a series of dialogues between a fictional surveyor and several interlocutors including a tenant farmer an aristocrat landowner a manorial officer and a socially mobile land buyer is remarkable for its unique commentary on the agrarian roots of English capitalism. In his extensive introduction Mark Netzloff situates the text in relation to a number of early modern contexts. He discusses the use of dialogue and other literary forms in proto scientific writing and the role of print in the increasing professionalism of early surveyors. Netzloff also examines the impact of capital formation on agrarian and manorial class relations discussing topics such as popular protest and revolt cottagers and the rural poor regionalism and urbanization and the transformation of the natural environment through deforestation enclosure and the appropriation of commons. Alongside a thorough annotation of technical and historical terms the edition provides a list of textual variants among early modern versions of the text. This critical edition of *The Surveyor's Dialogue* constitutes an important contribution to early modern scholarship and it will be invaluable to scholars from a range of fields including the history of science economic and agrarian history and literary and cultural studies.

Childhood, Education and the Stage in Early Modern England Richard Preiss, Deanne Williams, 2017-05-02 What did childhood mean in early modern England? To answer this question this book examines two key contemporary institutions the school and the stage. The rise of grammar schools and universities and of the professional stage featuring boy actors reflect the culture's massive investment in children. In this collection an international group of well respected scholars examines how the representation of children by major playwrights and poets reflected the period's educational and cultural values. This book contains chapters that range from Shakespeare and Ben Jonson to the contemporary plays of Tom Stoppard and that explore childhood in relation to classical humanism medicine art and psychology revealing how early modern performance and educational practices produced attitudes to childhood that still resonate to this day.

Andrew Marvell A. D. Cousins, 2016-03-02 This monograph studies how across the Folio of 1681 Marvell's poems engage not merely with different kinds of loss and aspiration but with experiences of both that were in mid seventeenth century England disturbingly new and unfamiliar. It particularly examines Marvell's preoccupation with the search for home and with redefining the homeland in times of civil upheaval. In doing so it traces his progression from being a poet who plays sophisticatedly with received myth to being one who is a national mythmaker in rivalry with his poetic contemporaries such as Waller and Davenant. Although focusing primarily on poems in the Folio of 1681 this book considers those poems in relation to others from the Marvell canon including the Latin poems and the satires from the reign of Charles II. It closely considers them as well in relation to verse by poets from the classical past and the European especially English present.

Service and Dependency in

Shakespeare's Plays Judith Weil, 2005-06-09 This is an unusual study of the nature of service and other types of dependency and patronage in Shakespeare's drama By considering the close associations of service with childhood or youth marriage and friendship Judith Weil sheds light on social practice and dramatic action Approached as dynamic explorations of a familiar custom the plays are shown to demonstrate a surprising consciousness of obligations and a fascination with how dependants actively change each other They help us understand why early modern people may have found service both frightening and enabling Attentive to a range of historical sources and social and cultural issues Weil also emphasises the linguistic ambiguities created by service relationships and their rich potential for interpretation on the stage The book includes close readings of dramatic sequences in twelve plays including Hamlet Macbeth The Taming of the Shrew and King Lear

Imagining Adoption Marianne Novy, 2011-05-06 Imagining Adoption looks at representations of adoption in an array of literary genres by diverse authors including George Eliot Edward Albee and Barbara Kingsolver as well as ordinary adoptive mothers and adoptee activists exploring what these writings share and what they debate Marianne Novy is Professor of English and Women's Studies University of Pittsburgh

Re-Visioning Lear's Daughters L. Kordecki, K. Koskinen, 2010-08-16 King Lear is believed by many feminists to be irretrievably sexist Through detailed line readings supported by a wealth of critical commentary Re-Visioning Lear's Daughters reconceives Goneril Regan and Cordelia as full characters not stereotypes of good and evil These new feminist interpretations are tested with specific renderings placing the reader in precise theatrical moments Through multiple representations this unique approach demonstrates the elasticity of Shakespeare's text

Cures for Chance Erin Ellerbeck, 2021-11-01 Adoption allows families to modify either overtly or covertly what is considered to be the natural order Cures for Chance explores how early modern English theatre questioned the inevitability of the biological family and proposed new models of familial structure financial inheritance and gendered familial authority Because the practice of adoption circumvents sexual reproduction its portrayal obliges audiences to reconsider ideas of nature and kinship This study elucidates the ways in which adoptive familial relations were defined described and envisioned on stage particularly in the works of Shakespeare and Middleton In the plays in question families and individual characters create alter and manage familial relations Throughout Cures for Chance adoption is considered in the broader socioeconomic and political climate of the period Literary works and a wide range of other early modern texts including treatises on horticulture and natural history and household and conduct manuals are analysed in their historical and cultural contexts Erin Ellerbeck argues that dramatic representations of adoption test conventional notions of family by rendering the family unit a social construction rather than a biological certainty and that in doing so they evoke the alteration of nature by human hands that was already pervasive at the time
