First Readers of Shakespeare's Sonnets, 1590-1790 Faith D. Acker, 2020-09-22 For more than four centuries cultural preferences literary values critical contexts and personal tastes have governed readers responses to Shakespeare's sonnets Early private readers often considered these poems in light of the religious political and humanist values by which they lived Other seventeenth and eighteenth century readers such as stationers and editors balanced their personal literary preferences against the imagined or actual interests of the literate public to whom they marketed carefully curated editions of the sonnets often successfully Whether public or private however many disparate sonnet interpretations from the sonnets first two centuries in print have been overlooked by modern sonnet scholarship with its emphasis on narrative and amorous readings of the 1609 sequence First Readers of Shakespeare's Sonnets reintroduces many early readings of Shakespeare's sonnets arguing that studying the priorities and interpretations of these previous readers expands the modern critical applications of these poems thereby affording them numerous future applications This volume draws upon book history manuscript studies and editorial theory to recover four lost critical approaches to the sonnets highlighting early readers interests in Shakespeare's classical adaptations political applicability religious themes and rhetorical skill during the seventeenth and eighteenth centuries *Bibliotheca Stanleiana* Thomas Stanley, 1813

Shakespeare British Museum. Department of Printed Books, 1964 **King Henry VIII, Or, All is True** William Shakespeare, John Fletcher, 1999 This is the first fully annotated and comprehensive modern spelling edition of King Henry VIII to appear for over a decade The editor concludes that Shakespeare and his younger colleague John Fletcher worked on the script together but that Shakespeare was probably the guiding spirit **Catalogue of some ... books and manuscripts of a nobleman [the earl of Charlemont] ... which will be sold by auction** James Caulfeild (1st earl of Charlemont.), 1865 **Catalogues of Items for Auction by Messrs. King Henry VIII William Shakespeare, 2014-09-25 King Henry VIII has one of the fullest theatrical histories of any play in the Shakespeare canon yet has been consistently misrepresented both in performance and in criticism This edition offers a new perspective on this ironic multi-layered collaborative play revealing it as a complex meditation on the progress of Reformation which sees English life since Henry VIII's day as a series of bewildering changes in national and personal allegiance and represents history as the product of varied and contradictory testimony McMullan makes a powerful claim for the rehabilitation of Henry VIII providing the fullest performance history of any edition to date and reading the work not as a marginal late Shakespeare play but as a play which is paradigmatic of the achievement of Renaissance drama as a whole This is a staggeringly brilliant captivating edition that will undoubtedly occasion a huge surge of critical interest in this neglected play For those of use who have never taken Henry VIII very seriously perhaps dismissing it as a late collaborative play of no consequence or as conservative propaganda McMullan's introduction is genuinely revelatory Eric Rasmussen University of Nevada at Reno Shakespeare Survey **Catalogue of books belonging to sir William Heathcote, bart., at Hursley**

Park James Darling, 1834 **The Shakespeare-secret** Edwin Bormann, 1895 The Making of the National Poet : Shakespeare, Adaptation and Authorship, 1660-1769 Michael Dobson, 1992-10-22 The first full length study since the 1920s of the Restoration and eighteenth century's revisions and revaluations of Shakespeare and the first to consider the period's much reviled stage adaptations in the context of the profound cultural changes of their times Drawing on a wide range of evidence Dobson examines how and why Shakespeare was retrospectively claimed as both a respectable Enlightenment

author and a crucial and contested symbol of British national identity The book provides thorough analysis both engaging and informative the definitive account of the theatre s role in establishing Shakespeare as Britain s National Poet The century between the Restoration and David Garrick s Stratford Jubilee saw William Shakespeare s promotion from the status of archaic rustic playwright to that of England s timeless Bard and with it the complete transformation of the ways in which his plays were staged published and read But why Shakespeare and what different interests did this process serve The Making of the National Poet is the first full length study since the 1920s of the Restoration and eighteenth century s revisions and revaluations of Shakespeare and the first to consider the period s much reviled stage adaptations in the context of the profound cultural changes in which they participate Drawing on a wide range of evidence including engravings prompt books diaries statutory and previously unpublished poems among them traces of the hitherto mysterious Shakespeare Ladies Club it examines how and why Shakespeare was retrospectively claimed as both a respectable Enlightenment author and a crucial and contested symbol of British national identity It shows in particular how the deification of Shakespeare co existed with and even demanded the drastic and sometimes bizarre rewriting of his plays for which the period is notorious The book provides thorough analysis both engaging and informative the definitive account of the theatre s role in establishing Shakespeare as Britain s National Poet
