Long Polar Watch:

The Emerging Shield Kenneth Schaffel, 1991 **North American Strategic Defense in the 21st Century:** Christian Leuprecht, Joel J. Sokolsky, Thomas Hughes, 2018-04-25 The protection of the homeland is the top priority for U S national security strategy Strategic defense however has been an overlooked dimension in the vast literature on the U S strategic posture with even less attention given to the necessity and dynamics of security collaboration within North America Drawing on the expertise of scholars from the U S Canada and Mexico the book offers a wide range of perspectives on recent trends in and future prospects for the military and political evolution of North American strategic defense North American strategic defense is a topic too often taken for granted as this excellent book shows that is a mistake In the 21st century perhaps even more than the 20th it will be an issue of cardinal importance to both the United States and Canada Eliot A Cohen Robert E Osgood Professor of Strategic Studies Johns Hopkins School of Advanced International Studies NORAD s binational command is unique and this timely and ambitious book examines its continued relevance to North American defense against a host of new global threats It broadens the focus of what we mean by North American defense contemplates how we might include Mexico in various regional security arrangements and considers the dynamics of expanded North American interdependence in the Trump era Laura Dawson Director of the Canada Institute Woodrow Wilson International Center for Scholars North American Strategic Defense in the 21st Century is an important book This edited volume brings together a galaxy of stars both rising and established with outstanding credentials regarding NORAD and associated matter in the study of security This original and well written volume is the first of its kind since the Cold War long overdue and impressive in contents The chapters cover both panoramic issues and more specific matters and the collection is essential reading for academics policy makers and the general public Patrick James Dornis Dean s Professor School of International Relations University of Southern California FEA Nomination United States. Essence of Indecision Patricia I. McMahon, 2009-04 The nuclear issue was a minor political matter when John Diefenbaker became prime minister in 1957 By 1963 it served as a catalyst for his defeat with many attributing his demise to the indecision with which he handled it Patricia McMahon tells a more nuanced story in *Essence of Indecision* Defense Policy Formation Clark A. Murdock, 1974-01-01 When Robert McNamara became U S Secretary of Defense he introduced a new mode of making policy decisions systems analysis In *Defense Policy Formation* Clark Murdock examines what effects this systems analysis had on policy making process both in theory and the actual practice of military innovation *Beyond "Understanding Canada"* Melissa Tanti, Jeremy Haynes, Daniel Coleman, Lorraine York, 2017-04-21 The dismantling of *Understanding Canada* an international program eliminated by Canada s Conservative government in 2012 posed a tremendous potential setback for Canadianists Yet Canadian writers continue to be celebrated globally by popular and academic audiences alike Twenty scholars speak to the government s diplomatic and economic about face and its

implications for representations of Canadian writing within and outside Canada's borders. The contributors to this volume remind us of the obstacles facing transnational intellectual exchange but also salute scholars' persistence despite these obstacles. *Beyond Understanding Canada* is a timely trenchant volume for students and scholars of Canadian literature and anyone seeking to understand how Canadian literature circulates in a transnational world. Contributors: Michael A. Bucknor, Daniel Coleman, Anne Collett, Pilar Cuder Domínguez, Ana María Fraile, Marcos Jeremy Haynes, Cristina Ivanovici, Milena Kalin, Smaro Kamboureli, Katalin Kertész, Vesna Lopič, Belinda Martin, Lucas Claire Omhovsky, Lucia Otrsalov, Don Sparling, Melissa Tanti, Christl Verduyn, Elizabeth Yeoman, Lorraine York.

National Security Seminar: Outlines and Reading Lists Joint Chiefs of Staff, **Makers of the United States Air Force** John L. Frisbee, 1987. This volume commemorates the contributions of twelve officers who played important roles in the building of our Air Force.

Dependent America? Stephen Clarkson, Matto Mildemberger, 2011-09-30. Following the acclaimed *Uncle Sam and Us* and the influential *Does North America Exist?* Stephen Clarkson, the preeminent analyst of North America's political economy, and Matto Mildemberger turn continental scholarship on its head by showing how Canada and Mexico contribute to the United States' wealth, security, and global power. This provocative work documents how Canada and Mexico offer the United States open markets for its investments and exports, massive flows of skilled and unskilled labour, and vast resource inputs, all of which boost its size and competitiveness more than does any other US partner. They are also Uncle Sam's most important allies in supporting its anti-terrorist and anti-narcotics security. Clarkson and Mildemberger explain the paradox of these two countries' simultaneous importance and powerlessness by showing how the US government has systematically neutralized their potential influence. Detailing the dynamics of North America's power relations, *Dependent America* is a fitting conclusion to Clarkson's celebrated trilogy on the contradictory qualities of its regionalism: asymmetrical economic integration, thickened borders, and emasculated governance.

Diplomacy and its Discontents James Eayrs, 1971-01-01. James Eayrs is a keen and articulate observer of international politics. His incisive critiques of the moral turpitude and inefficiency of the diplomatic profession in *Right and Wrong in Foreign Policy* and *Fate and Will in Foreign Policy* provoked unflattering attention and attempts at rebuttal by the statesmen and politicians who shape our foreign policy. This volume makes these two controversial studies available once more, bringing them up to date with discussions of the October crisis in Quebec and other recent events, and incorporating the author's selection of his recent writings on the irrelevance or deliquescence of modern diplomacy. All three parts of the book hold to a single theme: the decay of diplomatic method. In the incisive prose characteristic of all Eayrs' writing, these discourses present a convincing view of the tragic comedy of foreign affairs. The general reader and the student of politics and international affairs will find this a perceptive analysis of statecraft, full of insights into the workings of government.
