Long Rope:

Rope Tim Queeney, 2025-08-14 **Kashmiri** Omkar N. Koul, Kashi Wali, 2002-09-11 Kashmir boasts a language which challenges every field of linguistics Kashmiri is spoken by approximately 3 000 000 people Its syntax similar to Germanic and other verb second languages has raised many significant issues within current generative theories proposed by Chomsky and other prominent linguists **Beyond the Torrent** Jack McGarr, John McGarr, 2000-06 When Donal the eighteen year old crown prince of Topal finds on the river bank an object with a cryptic message he knows that somehow it has come from across the wide raging river that separates his kingdom from the land on the other side He devises an ingenious and dangerous way to cross the torrent and discovers a culture opposite to his own The women hunt farm herd and rule while the men must care for children keep house and prepare meals He also meets Lacia the most beautiful girl he has ever seen who detests his immodest outfit of doublet and hose the type of costume she wears and insists that he wear a gown while in Lona Donal persuades her to visit Topal but she is so disturbed by what she perceives as injustice that she soon returns to her own country However the brief contact between the two countries leads to social revolution on both sides of the torrent as the members of each oppressed sex resolve to better themselves *Concrete* ,1920 **Rope-driving: a Treatise on the**

Transmission of Power by Means of Fibrous Ropes John Joseph Flather, 1907 **Beyond the Seven Seas** Parshotam Dhaliwal, 2013-12-01 **Star People, Sky Gods and Other Tales of the Native American Indians** G.W.

Mullins, 2018-02-05 In Native American history there are many legends about UFOs gods and aliens There has always been a connection between Native Americans and beings from other parts of the universe referred to as Star People Perhaps due to familiarity with celestial fixtures it has been easier for Native Americans to relate events they have experienced on earth with things such as the formation of the Pleiades The experience of tribal individuals with the Pleiades is featured quite prominently in legends across many tribes including Cherokee Onondaga Lakota and others It is not hard to believe they would identify an event with a star being the nature and history of tribes was to exist outdoors The night sky would be paid much more attention by one who did not live indoors Regardless of the tribe or the whether the interaction is through a god or star people there is proof that the ancient people of North America believed they have been visited by unexplainable beings from the heavens The stories in the collection tell of many different tribes and their experiences and the outcome of walking with these beings **Experimental Archaeology and Neolithic Architecture** John Hill, 2024-03-04 Our understanding of the construction processes involved with British Neolithic architecture needs further investigation The people were preliterate and there is no archaeological evidence of written or pictorial information regarding construction So how could they build complex monuments like Stonehenge without a plan This book argues that the Neolithic builders used rudimentary techniques to plan before building their monuments circa 4000 2500 BC essentially using ropes to set out the physical design of any structure they intended to build whilst finger reckoning numeracy dictated how their measured ropes

were folded to position the monument's features. Finally, they used the sun's shadow at midday to achieve orientation. To support this premise, the book offers both the results of the author's rope experiments and instructions for repeating them. Importantly, this form of experimental archaeology delivers a unique approach for understanding the nature of complex Neolithic architecture. Essentially, the book explains the mental processes involved between design and construction.
