Looking at Giacometti Owl, Sylvester, 1997-04 Memory and Narrative James Olney, 1998 At a time when the memoir has never been more popular Memory and Narrative presents an account of how the weave of life writing has altered over time to arrive at its present form James Olney tells the story of an evolving literary form that originated in the autobiographical writings of St Augustine underwent profound and disruptive changes in Jean Jacques Rousseau's life writing trilogy and found its momentary conclusion in the body of Samuel Beckett's work Among other issues Olney considers the rejection of the pronoun I by many post Rousseau writers the uses of narrative in the works of Beckett Franz Kafka and the sculptor Alberto Giacometti and the role of literary memory in light of recent memory work from a variety of scientific disciplines Giambattista Vico Henry Adams Gertrude Stein Richard Wright and Christa Wolf are some of the many writers examined in this monumental study

About Modern Art David Sylvester, 2001-01-01 Internationally renowned art critic David Sylvester here muses on key artists of the twentieth century and their nineteenth century forebears In the process he offers profound insights into their practice of art and how we look at modern art Focusing on the spectator's instinctive emotional and physical response to paintings by such artists as Picasso Matisse de Kooning Newman and Warhol Sylvester brings an inspiring sense of the relevance and importance of art to life Essays on Pollock Twombly and Serra among others were selected by Sylvester to be added to this updated edition Book jacket

Giacometti James Lord, 1985-09 Traces the life of artist Alberto Giacometti from his Swiss family home to prominence in the modern art world

Innovators David W. Galenson, 2025-01-21 Some innovators are luminous shooting stars think Pablo Picasso Albert Einstein Sylvia Plath Bob Dylan Steve Jobs who make bold leaps early and suddenly then lose their creativity Others are late bloomers Paul Cezanne Charles Darwin Virginia Woolf Alfred Hitchcock Warren Buffett who show little early promise but spend long periods doggedly pursuing distant goals and attain greatness in old age By analyzing the careers of scores of great innovators this book reveals systematic differences in the motivations and methods of these two types and their very different patterns of creativity over the life cycle The result is a new and deeper unified understanding of the sources of human creativity

Alberto Giacometti Alberto Giacometti, 2008 Presents a collection of essays that explore the works of the Swiss sculptor along with a section of plates showcasing the artist's sculptures and paintings

Alberto Giacometti Timothy Mathews, 2013-11-28 Alberto Giacometti's attenuated figures of the human form are among the most significant artistic images of the twentieth century

Jean Paul Sartre and Andre Breton are just two of the great thinkers whose thought has been nurtured by the graceful harrowing work of Giacometti which continues to resonate with artists writers and audiences Timothy Mathews explores fragility trauma space and relationality in Giacometti s art and writing and the capacity to relate that emerges In doing so he draws upon the novels of W G Sebald Samuel Beckett and Cees Nooteboom and the theories of Maurice Blanchot and Bertolt Brecht and recasts Giacometti s Le Chariot as Walter Benjamin s angel of history This book invites readers on a voyage of discovery through Giacometti s deep concerns with memory attachment and humanity Both a critical study of Giacometti s work and an immersion in its affective power it asks what encounters with Giacometti s pieces can tell us about our own time and our own ways of looking and about the humility of relating to art *About Looking* John Berger,2011-07-13 As a novelist art critic and cultural historian Booker Prize winning author John Berger is a writer of dazzling eloquence and arresting insight whose work amounts to a subtle powerful critique of the canons of our civilization In *About Looking* he explores our role as observers to reveal new layers of meaning in what we see How do the animals we look at in zoos remind us of a relationship between man and beast all but lost in the twentieth century What is it about looking at war photographs that doubles their already potent violence How do the nudes of Rodin betray the threats to his authority and potency posed by clay and flesh And how does solitude inform the art of Giacometti In asking these and other questions Berger quietly but fundamentally alters the vision of anyone who reads his work
