Looking Into Primary Headship A Research Based Interpretation:

Looking Into Primary Headship Geoff Southworth, 2002-11-01 This is both a study of leadership and a research methods text. It offers an analytical description of a primary headteacher at work over the course of one school year. Using a mix of participant observation and interviews, the book provides a portrait of this head's approach to his work, his background, beliefs, the school as a context, what he did, how he dealt with change and development, power, and the personal dimension of headship. The portrait is matched to the contemporary literature and an hypothesis is formulated about primary headship and is then used to critique existing ideas about school leadership. The book also suggests ways of developing heads and school teachers. *School Leadership and Administration* Allan Walker, Clive Dimmock, 2012-11-12 This text calls for a broader approach to comparative educational administration, one which uses culture as the principle means of analysis. The articles collected by Allan Walker and Clive Dimmock detail the educational practices and outcomes of other systems while taking into account the mediating influence of culture. In this way, these essays stress the specific aspects of the cultures studied and map out common ground for the study of administrators' values, beliefs, and actions.

Primary School Leadership in Context Geoff Southworth, 2004 In this important new book, Geoff Southworth, a leading researcher in headship, specifically addresses how school size impacts on the role of the headteacher. **Register of Educational Research in the United Kingdom, 1992-1995** National Foundation For Educational Research, 1995 This latest volume of the Register of Educational Research in the United Kingdom lists all the major research projects being undertaken in Britain during the latter months of 1992, the whole of 1993 and 1994, and the early months of 1995. Each entry provides names and addresses of the researchers, a detailed abstract, the source and amount of the grant, where applicable, the length of the project, and details of published material about the research.

Educational Management Harry Tomlinson, 2013-10-30 Education management and leadership is a key area of study in education. *Educational Management: Major Themes in Education* brings together the most important literature in the field, exploring the historical context, the training and development of leaders, and their roles in leading people and managing resources in education. The collection provides a focus on the major issues which are current in educational management throughout the world. The four volumes are arranged thematically as follows: Volume 1: Educational Values, Values and Religion, Emotions and Gender, Politics and Micropolitics; Volume 2: Educational Theory, Theory of School Effectiveness and School Improvement, Financial Management and LSM, Further Education; Volume 3: Educational Leadership, Leadership and Headteachers, Learning, Leadership, Middle Leadership; Volume 4: Educational Change, History and Research, Strategy, Marketing, Change and Culture. A new introduction by the editor provides an overview of the field and guides the reader through this wealth of material. Titles also available in this series include: *Literacy* (June 2004, 4 Volumes, £495), *Special Educational Needs and Inclusive Education* (August 2004, 4 Volumes, £495), and the forthcoming *Early Years Education* (2005, 4 Volumes, £475). **School Leadership - Heads on the Block?** Pat Thomson, 2009-05-07 Most teachers become heads for

idealistic reasons but heads are leaving work and there is a shortage of applicants for school leadership roles Arguing that pressure needs to be lifted from heads if this is to be redressed this book considers initial moves that could precipitate such change Senior Management Teams in Primary Schools Lynda Huckman,Michael Wallace,2005-08-17 Senior Management Teams in Primary Schools looks at how positive team work can be achieved within your school and illustrates the benefits it brings **Towards Effective Subject Leadership In The Primary School** Bell, Derek,Ritchie, Ron,1999-07-01 Examining the post of subject leader in primary schools in the light of the key areas defined by the National Standards for Subject Leadership this book combines existing research data and new material *Handbook of Research on Educational Leadership for Equity and Diversity* Linda C. Tillman,James Joseph Scheurich,2013-08-21 The rapid growth of diversity within U S schooling and the heightened attention to the lack of equity in student achievement school completion and postsecondary attendance has made equity and diversity two of the principle issues in education educational leadership and educational leadership research The Handbook of Research on Educational Leadership for Equity and Diversity is the first research based handbook that comprehensively addresses the broad diversity in U S schools by race ethnicity culture language gender disability sexual identity and class The Handbook both highly values the critically important strengths and assets that diversity brings to the United States and its schools yet at the same time candidly critiques the destructive deficit thinking biases and prejudices that undermine school success for many groups of students Well known chapter authors explore diversity and related inequities in schools and the achievement problems these issues present to school leaders Each chapter reviews theoretical and empirical evidence of these inequities and provides research based recommendations for practice and for future research Celebrating the broad diversity in U S schools the Handbook of Research on Educational Leadership for Equity and Diversity critiques the inequities connected to that diversity and provides evidence based practices to promote student success for all children Policy, Leadership and Professional Knowledge in Education Michael Strain,Dr William F Dennison,Dr Janet Ouston,Dr Valerie Hall,1998-11-25 For those who want to wallow in the past this is a comfortable book that sets one s own experiences in context For those who will still be working into the next century here are the issues we must face as leaders For those PhD and EdD students seeking topics to research there are all the controversial issues here that still need investigation and it has a stunning list of references a roll call of all the great and the good in the last 25 years of educational administration International Studies in Educational Administration The book is a challenge to everyone concerned with the present and future state of public education in the UK and the rest of the developed world The issues are of special concern to those who are expected to provide leadership in schools and colleges and for those with public and political responsibilities How should our conception of learning and its contribution to a Learning Society be defined How can education and other aspects of social care and nurturing enhance our lives as people irrespective of our performance capabilities What is the role of teachers who also manage learning This book contributes formatively to current debate What

can educationists do about the discontinuous changes which threaten parents and professionals alike Must education submit to the stranglehold of economic rationalism It is hoped that this book will assist all those working to promote education s humane and learning aspirations in society
