Lordship And Landscape In Norfolk 1250 1350 The Early Records Of Holkham:

Lordship and Landscape in Norfolk, 1250-1350 Jacques Beauroy, William Owen Hassall, 1993 **The English manor c.1200-c.1500** , 2013-01-01 Provides a comprehensive introduction and essential guide to one of the most important institutions in medieval England and to its substantial archive This is the first book to offer a detailed explanation of the form structure and evolution of the manor and its records Offers translations of and commentaries upon each category of document to illustrate their main features Examples of each category of record are provided in translation followed by shorter extracts selected to illustrate interesting commonly occurring or complex features A valuable source of reference for undergraduates wishing to understand the sources which underpin the majority of research on the medieval economy and society The Heads of Religious Houses David M. Smith, Vera C. M. London, 2001-08-09 This book is a continuation of The Heads of Religious Houses England and Wales 940 1216 edited by David Knowles C N L Brooke and Vera London which itself is reissued with substantial addenda by Professor Brooke This present volume continues the lists from 1216 to 1377 In this period further record sources have been provided by episcopal registers governmental enrolments court records and so on Full references are given for establishing the dates and outline of the career of each abbot or prior abbeess or prioress when known The lists are arranged by order the Benedictine houses independent dependencies and alien priories the Cluniacs the Grandmontines the Cistercians the Carthusians the Augustinian canons the Premonstratensians the Gilbertine order the Trinitarian houses the Bonhommes and the nuns An introduction discusses the nature use and history of the lists and examines critically the sources on which they are based Lordship and Landscape in Norfolk William Hassall, 1993

Medieval Society and the Manor Court Zvi Razi, Richard Michael Smith, 1996 The records of manorial courts have been used increasingly as the principal source for the reconstruction of rural and small town society in medieval England They offer a unique source with which to investigate peasant demography family patterns the village community and economy the characteristics and instruments of customary law and the ways in which that law was perceived and exploited by landlords and tenants The essays in this collection provide novel approaches to all of these themes and are written by many of the historians who have pioneered the use of this source category in the last two decades In two introductory chapters the editors review the historiography of manorial court rolls and account for their origins as a distinctive record of customary law within the broad context of medieval European society A valuable appendix contains an inventory of the most comprehensive unprinted manorial court roll series arranged systematically on a county to county basis detailing the repository in which they are located This book will serve as an essential reference tool for any serious study of medieval English rural society **Landscapes of Monastic Foundation** Tim Pestell, 2004 Pre Conquest monastic foundations in the present day counties of Norfolk and Suffolk in their topographical social economic and political environment evolution of religious devotion in East Anglia since the 7th century Conversion the influence of the Anglo Saxon past on the post Conquest

monastic landscape **A Second Domesday?** Sandra Raban, 2004-09-02 The 1279 80 hundred rolls are one of the most important sources for later thirteenth century England yet this is the first comprehensive study of the inquiry which brought them into being A Second Domesday will be an indispensable working tool for historians and is based on the latest knowledge of the returns More of these are being discovered all the time and one of the aims of this book is to stimulate the recognition of other surviving texts The book places the inquiry in its historical context continental as well as English This is followed by an examination of its purpose and whether or not it was conceived deliberately as a second Domesday Book Central to the study is a consideration of the geographical range of the inquiry how it was conducted and the way in which the returns were compiled The way in which the inquiry was used by historians as well as contemporaries along with the introductory chapters will be particularly helpful to students The book concludes with a description of all known returns which together with the appendices are designed to assist future users *Land and People in Late Medieval England* Bruce M.S.

Campbell, 2024-10-28 This is the third collection of articles by Bruce Campbell to appear in the Variorum series Late medieval England was an overwhelmingly rural society Never since has such a large proportion of the population lived in the countryside or relied so directly for its livelihood upon agriculture The lot of a majority of that population was always a hard one and never more so than during the first half of the 14th century when peasants competed with each other for ever scarcer land and work and a succession of major harvest failures jeopardised the survival of many Nevertheless experience varied considerably both during this era of mounting population pressure and the century and more of population decline and stagnation that followed the demographic disaster of the Black Death How well individual communities coped during these contrasting conditions of expansion and contraction owed much to the quality and composition of their natural resource endowment a good deal to their ability to take advantage of changing commercial opportunities and sometimes almost everything to how exposed they were to military conflict Always however much hinged upon how the twin feudal institutions of lordship and serfdom were mapped onto land and people via the manorial system These are the themes variously explored by the eight essays assembled in this volume which range from a case study of a single crowded Norfolk manor to a consideration of the broad and towards the end of the Middle Ages widening contrasts that persisted between North and South Field Systems and Farming Systems in Late Medieval England Bruce M.S. Campbell, 2023-05-31

The later Middle Ages was an overwhelmingly rural world with probably three out of four households reliant upon farming for a living Yet conventional accounts of the period rarely do justice to the variety of ways in which the land was managed and worked The thirteen essays collected in this volume draw upon the abundant documentary evidence of the period to explore that diversity In the process they engage with the issue of classification without which effective generalisation is impossible and offer a series of solutions to that particularly thorny methodological challenge Only through systematic and objective classification is it possible to differentiate between and map different field systems husbandry types and land use categories That in turn

makes it possible to consider and evaluate the relative roles of soils and topography institutional structures and commercialised market demand in shaping farm enterprise both during the period of mounting population before the Black Death and the long era of demographic decline that followed it What emerges is an agrarian world more commercialised differentiated and complex than is usually appreciated whose institutional and agronomic contours shaped the course of agricultural development for centuries to come

Serfdom and Slavery M. L. Bush, 2014-01-09 Serfdom and Slavery compares the two forms of legal servitude in cultures in Western civilization in Europe and the New World from ancient times to the modern period Within a tightly controlled framework of general contextual chapters followed by specific case studies a distinguished team of scholars offers 17 specially written essays that illuminate the nature development impact and termination of serfdom and slavery in European society While the case studies range from classical Greece to early modern Brandenburg and from medieval England to nineteenth century Russia the volume as a whole is closely integrated It makes an important contribution to a topic of increasing international interest
