Photography and Germany Andrés Mario Zervigón, 2017-05-15 The idea of photography in Germany evokes everything from the pioneering modernist pictures of the Weimar era to the colossal digital prints that define art photography today But it also recalls horrifying documents of wartime atrocities and the relentless surveillance of East German citizens Photography and Germany broadens these perceptions by examining the medium's multi faceted relationship with Germany's turbulent cultural political and social history while rethinking the notion of German photography with fresh insights on its historical context Andr s Mario Zervig n covers this history from the region's pre photographic experiments with light sensitive chemicals to today's tension between analog and digital technologies Rather than simply providing a survey of German photography however he focuses on how the medium as a product of the

Theories in Digital Composite Photographs Yihui

Huang, 2018-10-26 **Theories in Digital Composite Photographs** 12 Artists and Their Work presents a theoretical investigation of digital composite photographs through philosophical exploration of artists' concepts of reality. With an international cohort of contemporary digital composite artists, this book presents twelve case studies on artists' motivation, production process, and the relation of their worldview to theoretical interpretation. Author Yihui Huang situates each artist's work in the context of photographic theory and western aesthetics including realism, expressionism, formalism, and postmodernism. As creation of digital composites grows in popularity and influence, this is the first to integrate a philosophical and theoretical understanding of this unique art form. Featuring a wide range of international artists, this volume is both insightful and inspirational for student and seasoned professional alike.

Photography as Fiction Erin C. Garcia, 2010

From as early as 1839, artists began exploring photography's enormous potential for storytelling and often went to great lengths to create pictures for the camera. Here, a short introductory essay summarizes the history of staged photography, highlighting key debates on the medium's blunt factuality and its capacity for deception.

Van Gogh on Demand Winnie Wong, 2022-12-22 Unsettles contemporary art's unspoken hierarchies and topples modernist and postmodernist assumptions about originality, authenticity, and authorship. **caa Reviews** In a metropolis in south China lies Dafen, an urban village that houses thousands of workers who paint van Goghs, Da Vincis, Warhols, and other Western masterpieces for the world market, producing an astonishing five million paintings a year. Winnie Wong infiltrated this world first, investigating the work of conceptual artists, then working as a dealer, apprenticing as a painter, surveying wholesalers and retailers in Europe, East Asia, and North America, establishing relationships with local leaders, and organizing a conceptual art exhibition for the Shanghai World Expo. The result is **Van Gogh on Demand**, a fascinating book about a little-known aspect of the global art world, one that sheds surprising light on the workings of art, artists, and individual genius. Wong describes an art world in which migrant workers, propaganda makers, dealers, and international artists make up a global supply chain of art. She examines how Berlin-based conceptual artist Christian Jankowski, who collaborated with Dafen's painters, to reimagine the Dafen Art Museum, unwittingly appropriated the work of a Hong Kong-based photographer, Michael Wolf. She recounts how Liu Ding, a Beijing-based conceptual artist, asked Dafen assembly line painters to perform at the Guangzhou Triennial, styling himself into a Dafen boss. Through such cases, Wong shows how Dafen's painters force us to reexamine our preconceptions about the role of Chinese workers in redefining global art. A fantastically detailed exploration of a topic which touches the heart of many of the issues surrounding China's economic rise. *South China Morning Post*
