Los Angeles The Ultimate City:

Los Angeles Christopher Rand, 1967 **Through the Lens of the City** , During the 1970s the National Endowment for the Arts Photography Surveys granted money to photograph American cities at the bicentennial and years that followed In Through the Lens of the City NEA Photography Surveys of the 1970s Mark Rice brings to light this long neglected photographic endeavor From 1976 to 1981 the NEA supported more than seventy projects that examined a wide range of people and places in America Artists involved included such well known photographers as Bruce Davidson Lee Friedlander and Joel Meyerowitz and many photographers who became widely known after their work with the surveys such as Robert Adams Joe Deal Terry Evans and Wendy Ewald Rice argues that the NEA Photographic Surveys drew from two wells a widespread sense of nostalgia and an intense public interest in photography Looking at the works from eight key cities Atlanta Buffalo Durham East Baltimore Galveston Long Beach Los Angeles and Venice the book uncovers marked differences as well as startling similarities in the concerns manifested by different photographers in far flung places Although the surveys are interesting both for their artistic merits and for their place in the history of American photography they are equally important as a documentation of bicentennial era America and a close examination of American cities A major shift in the ideals of civil engineering and urban planning was underway in the 1970s At the same time ideas and theories about photography were changing along with our notions of what the city could and should be These surveys capturing American cities in a fascinating period of flux show us American photographers matching artistry to subject matter in new and exciting ways Mark Rice is chair of the American studies department at St John Fisher College His work has been published in such periodicals as Exposure Explore and Reviews in American History California's Spiritual Frontiers Sandra Sizer Frankiel, 2023-04-28 California s Spiritual Frontiers Religious Alternatives in Anglo Protestantism 1850 1910 offers a profound exploration of how Anglo Protestantism evolved and adapted in California during a period of rapid cultural and societal transformation In a region where evangelical Protestantism initially sought to dominate the book reveals how traditional religious norms were challenged by liberal ideologies and metaphysical movements including Christian Science New Thought and Theosophy These alternative spiritual frameworks reshaped the religious landscape emphasizing individual spirituality mysticism and openness to non traditional beliefs The book vividly illustrates how California s unique social dynamics and cultural diversity fostered a distinctive blend of spiritual experimentation and adaptation Focusing on key regions such as the mining districts San Francisco Bay Area and early Los Angeles California s Spiritual Frontiers examines the interplay between traditional denominations emerging liberal thought and new metaphysical religions It details the challenges faced by Protestant leaders to maintain their influence amidst a largely unchurched population and the growing popularity of alternative spiritual paths This meticulously researched work not only provides a window into California s unique religious evolution but also contributes significantly to the broader study of American religious history highlighting
