Los Meses Del Ano Sonf:

The Tragic Myth Edward F. Stanton, 2014-10-17 With literature music constituted the most important activity of poet and playwright Federico Garcia Lorca's life The two arts were closely related to each other throughout his career As a child Lorca imbibed traditional Andalusian songs from the lips of the family maids whom he would remember with affection years later At a very early age he began to study piano and during his adolescence music and poetry competed for primacy among his interests His first book was dedicated to his music teacher who instilled in him a love for the world of art and creation In part I of this study Edward F Stanton examines Lorca's theoretical and practical approach to cante jondo the traditional music of Andalusia as seen in his lectures on the subject and in the 1922 concurso In part II he searches for direct and far more important indirect echoes of this music in his work Part III explores the mythic quality of Lorca's art in relation to cante jondo Throughout Stanton illuminates a new dimension of the poet's work

Amplifications of Black Sound from Colonial Mexico Sarah Finley, 2024-08-15 Thinkers like W E B Du Bois and Paul Gilroy have long championed sound as an affective register of Black subjectivity particularly in the African Atlantic Prior studies in this vein focus on Anglophone or Caribbean contexts a tendency that furthers Mexico s marginalization within narratives of the Black and African diaspora and mutes Afro descendant traditions that date back to the sixteenth century Indeed the New Spanish archive contains whispers of the region s Black sound cultures including monetary records for the voices of enslaved singers and representations of Black music in casta paintings Despite such evidence it is difficult to attend fully to these subaltern voices for the cultural filters of the lettered elite often mute or misinterpret non European sounds Amplifications of Black Sound from Colonial Mexico is the first extensive study of Afro descendant sonorities in New Spain or elsewhere in colonial Latin America In this context it attends to Black sounds through a framework that remixes Jacques Derrida s reading of the ear s anatomy with theories like Gilroy s lower frequencies or Fred Moten s phonic materiality Sarah Finley s aim is to unsettle the divide between self and other so the auditory archive might emerge as a polyphonic record that exceeds dichotomies of sounding object listening subject Through sampling the Afro descendant sounds of this archive this book recovers and rearticulates Black voices and auditory practices in New Spain *Dance and Instrumental Diferencias in Spain During the 17th and Early 18th Centuries: History and background, music and dance* Maurice Esses, 1992 V 1 History and
