Lost City Of The Incas The Story Of Machu Picchu And Its Builders:

Lost City of the Incas Hiram Bingham, 2010-12-16 First published in the 1950s this is a classic account of the discovery in 1911 of the lost city of Machu Picchu In 1911 Hiram Bingham a pre historian with a love of exotic destinations set out to Peru in search of the legendary city of Vilcabamba capital city of the last Inca ruler Manco Inca With a combination of doggedness and good fortune he stumbled on the perfectly preserved ruins of Machu Picchu perched on a cloud capped ledge 2000 feet above the torrent of the Urubamba River The buildings were of white granite exquisitely carved blocks each higher than a man Bingham had not as it turned out found Vilcabamba but he had nevertheless made an astonishing and memorable discovery which he describes in his bestselling book **LOST CITY OF THE INCAS** **Lost City of the Incas** Hiram Bingham, 1975 *Lost City of the Incas. The Story of Machu Picchu and Its Builders. With ... Plates and a Map* Hiram Bingham, 1951 **Lost City of the Incas** Hiram Bingham (Archäologe, Poltiker, USA), 1963 **Lost City of the Incas, the Story of Machu Picchu and Its Builders. Hiram Bingham** Hiram Bingham, 1948 Lost City of the Incas Hiram Bingham, 2004 **Lost City of the Incas ... The Story of Machu Picchu and Its Builders. With 59 Plates and a Map** Hiram BINGHAM (Third of the Name.), 1951 **Machu Picchu** Richard L. Burger, C J MacCurdy Professor and Current Chairman of the Council on Archaeological Studies Richard L Burger, Lucy C. Salazar, 2004-01-01 Details the status of contemporary research on Incan civilization and addresses mysteries of the founding and abandonment of Machu Picchu charting its archaeological history from 1911 to the present **The Incas' Sky** Émile Biémont, 2024-07-12 This book introduces readers to the astonishing civilisation of the Incas Its novelty lies in its general but highly informative synthesis of their history and astronomy through the accounts of contemporary chronicles and recent archaeological findings Richly illustrated with the author's own photographs it will attract the attention of seasoned travellers interested in ancient civilisations and keen to discover what people were capable of achieving so long ago but also any reader interested in the history and prehistory of South American peoples including students or university researchers wanting to know more about the pre Columbian civilizations of Peru The Inca civilisation was in fact the culmination of cultural contributions from a dozen or so complex pre Columbian civilizations such as those of Chavín Nazca Wari or Tiwanaku Intensely spiritual the Inca people attributed metaphysical powers to all manner of objects and places they considered sacred but at the same time the numerous alignments in their buildings show that they result from careful observations of the Sun the Moon and the stars at different times of the year Indeed the Incas were an essentially agrarian people so time measurement and calendar devices were essential for the purely pragmatic problem of planning agricultural tasks during the tropical year The book sets out to describe the Incas in their historical and geographical context avoiding specialization or excessive technicality but retaining a certain scientific rigor and including a detailed consideration of their interest in the sky and astronomy *Imprints of Revolution* Lisa B. Y. Calvente, Guadalupe García, 2016-05-02 What is the significance of the visual representation of

revolution How is history articulated through public images How can these images communicate new histories of struggle Imprints of Revolution highlights how revolutions and revolutionary moments are historically constructed and locally contextualized through the visual It explores a range of spatial and temporal formations to illustrate how movements are articulated reconstituted and communicated The collective work illustrates how the visual serves as both a mobilizing and demobilizing force in the wake of globalization Radical performances cultural artefacts architectural and fashion design as well as social and print media are examples of the visual mediums analysed as alternative archives that propose new understandings of revolution The volume illustrates how revolution remains significant in visually communicating and articulating social change with the ability to transform our contemporary understanding of local national and transnational spaces and processes
