Tangled Roots Sarah Mittlefehldt, 2013-11-01 The Appalachian Trail a thin ribbon of wilderness running through the densely populated eastern United States offers a refuge from modern society and a place apart from human ideas and institutions But as environmental historian and thru hiker Sarah Mittlefehldt argues the trail is also a conduit for community engagement and a model for public private cooperation and environmental stewardship In Tangled Roots Mittlefehldt tells the story of the trail s creation The project was one of the first in which the National Park Service attempted to create public wilderness space within heavily populated privately owned lands Originally a regional grassroots endeavor under federal leadership the trail project retained unprecedented levels of community involvement As citizen volunteers came together and entered into conversation with the National Parks Service boundaries between local and nonlocal public and private amateur and expert frequently broke down Today as Mittlefehldt tells us the Appalachian Trail remains an unusual hybrid of public and private efforts and an inspiring success story of environmental protection Watch the trailer <http://www.youtube.com/watch?v=AFyhuGqbCGc>

Shenandoah Sue Eisenfeld, 2015-02 For fifteen years Sue Eisenfeld hiked in Shenandoah National Park in the Virginia Blue Ridge Mountains unaware of the tragic history behind the creation of the park In this travel narrative she tells the story of her on the ground discovery of the relics and memories a few thousand mountain residents left behind when the government used eminent domain to kick the people off their land to create the park With historic maps and notes from hikers who explored before her Eisenfeld and her husband hike backpack and bushwhack the hills and the hollows of this beloved but misbegotten place searching for stories Descendants recount memories of their ancestors grieving themselves to death and they continue to speak of their people s displacement from the land as an untold national tragedy Shenandoah A Story of Conservation and Betrayal is Eisenfeld s personal journey into the park s hidden past based on her off trail explorations She describes the turmoil of residents removal as well as the human face of the government officials behind the formation of the park In this conflict between conservation for the benefit of a nation and private land ownership she explores her own complicated personal relationship with the park a relationship she would not have without the heartbreak of the thousands of people removed from their homes
