How to Live Forever Stephen R L Clark, 2008-01-28 Immortality is a subject which has long been explored and imagined by science fiction writers In his intriguing new study Stephen R L Clark argues that the genre of science fiction writing allows investigation of philosophical questions about immortality without the constraints of academic philosophy He reveals how fantasy accounts of issues such as resurrection disembodied survival reincarnation and devices or drugs for preserving life can be used as an important resource for philosophical inquiry and examines how a society of immortals might function through a reading of the vampire myth *How to Live Forever* is a compelling study which introduces students and professional philosophers to the possibilities of using science fiction in their work It includes extensive suggestions for further reading both fictional and philosophical and examines the work of such major science fiction authors as Arthur C Clarke Frank Herbert Larry Niven William Gibson and Colin Wilson

Antagonist Gordon R. Dickson, David W. Wixon, 2008-03-04 Gordon R Dickson's Childe Cycle of novels depicting the future of the human race has been one of the grand epics of science fiction At the time of his death in 2001 Dickson was writing *Antagonist* the tale of Bley's Ahrens turn toward darkness Now Dickson's assistant David W Wixon has brilliantly finished the long awaited book working from Dickson's copious notes *Antagonist* is a fitting capstone to one of the most ambitious series in SF history The Childe Cycle is the story of a new human evolution the development of a real hardwired sense of responsibility shared by all human beings Donal Graeme was a Dorsai a mercenary soldier and also a mutant gifted with insight into the path forward for the human race Through his gifts Donal would come to bend time and live three lifetimes and in the process run into problems he had not expected first his own flaws and second the existence of another mutant Bley's Ahrens Following Young Bley's and *Other Antagonist* advances the story of the formidably powerful Bley's Ahrens Bley's is a man with a clear vision of the struggle in which he's involved but an increasingly deficient sense of human values He and his organization the Others are tracking down an elusive interplanetary opposition Meanwhile Bley's own intricate conspiracies and devisings and his quest for power which began with the best of motives have become something darker and fiercer He's committed to his plans They may bring about the advent of Homo superior And they may destroy the human race
