## **Modern Sculpture:**

*Passages in Modern Sculpture* Rosalind E. Krauss, 1981-02-26 Studies major works by important sculptors since Rodin in the light of different approaches to general sculptural issues to reveal the logical progressions from nineteenth century figurative works to the conceptual work of the present

**Modern Sculpture** Douglas Dreishpoon, 2022-10-25 Artists of any ilk can be extremely opinionated when it comes to what they do how they do it and what it might mean Sculptors are no exception *Modern Sculpture Artists in Their Own Words* presents a selection of manifestos documents statements articles and interviews from more than ninety subjects including an ample selection of contemporary sculptors With this book editor Douglas Dreishpoon defers to sculptors whose varied points of view illuminate the medium's perpetual transformation from object to action concept to phenomenon over the course of two centuries Each chapter progresses in chronological sequence to highlight the dominant stylistic philosophical and thematic threads that unite each kindred group The result is a distinctive artist centric history and survey of sculpture that showcases the expansive dimensions and malleability of the medium

**A Moment's Monument** Sharon Hecker, 2017-06-13 Medardo Rosso 1858 1928 is one of the most original and influential figures in the history of modern art and this book is the first historically substantiated critical account of his life and work An innovative sculptor photographer and draftsman Rosso was vital in paving the way for the transition from the academic forms of sculpture that persisted in the nineteenth century to the development of new and experimental forms in the twentieth His antimonumental antiheroic work reflected alienation in the modern experience yet also showed deep feeling for interactions between self and other Rosso's art was also transnational he refused allegiance to a single culture or artistic heritage and declared himself both a citizen of the world and a maker of art without national limits In this book Sharon Hecker develops a narrative that is an alternative to the dominant Franco centered perspective on the origin of modern sculpture in which Rodin plays the role of lone heroic innovator Offering an original way to comprehend Rosso *A Moment's Monument* negotiates the competing cultural imperatives of nationalism and internationalism that shaped the European art world at the fin de siècle

*The Meaning of Modern Sculpture* Reginald Howard Wilenski, 1961

**Birth of Modern Sculpture** Felicity Moreau, 2025-02-26 *Birth of Modern Sculpture* delves into the revolutionary period when artists redefined sculpture breaking from classical traditions to embrace innovation The book explores this transformation highlighting how sculptors responded to societal shifts and technological advancements leading to the birth of entirely new forms of artistic expression Notably the rise of steel production and welding provided unprecedented possibilities and the decline of traditional patronage challenged established norms The book examines the rejection of academic conventions the embrace of new materials and the exploration of abstraction Beginning with 19th century traditions it progresses through the influence of early modern sculptors like Auguste Rodin and avant garde movements such as Cubism and Futurism Ultimately the book analyzes the rise of constructivism and non representational forms revealing how sculptors moved beyond mere imitation

This exploration provides a comprehensive overview of a pivotal period in art history offering new insights into the forces that shaped modern sculpture

**Modern Sculpture Reader** Jon Wood, David Hulks, Alex Potts, 2012-08-21 In many anthologies of art sculpture is given short shrift in relation to other media if it is treated at all Modern Sculpture Reader aims to rectify this situation by presenting a collection of important texts that have defined sculpture's radically changing status and role since the end of the nineteenth century a time marked by a general reappraisal of the forms and functions of art From the rigorously theoretical to the experimental and poetic Modern Sculpture Reader offers a lively discourse on the medium by a range of artists writers critics and poets Marcel Duchamp Louise Bourgeois Claes Oldenburg Andr Breton Ezra Pound and Clement Greenberg in a variety of genres poems lectures transcribed interviews newspaper and magazine articles and artists statements These diverse text selections offer valuable insight into the development of the critical language of sculpture and its connections to other media in an era of increasingly conceptual artistic practice Many of the essays highlight key ongoing concerns such as sculpture's physical properties and conditions of display both of which have important implications for the viewer's tactile and emotional interaction with sculptural works

**The Sculpture of this Century** Michel Seuphor, 1960 A World perspective including 400 illustrations and biographical dictionary of 400 sculptors

After Modern Sculpture Richard J. Williams, 2000 Stars are central to the cinema experience and this collection offers a variety of fresh and informed perspectives on this important but sometimes neglected area of film studies This book takes as its focus film stars from the past and present from Hollywood its margins and beyond and analyses them through a close consideration of their films and the variety of contexts in which they worked The book spreads the net wide looking at past stars from Rosalind Russell and Charlton Heston to present day stars including Sandra Bullock Jackie Chan and Jim Carrey as well as those figures who have earned themselves a certain film star cachet such as Prince and the martial artist Cynthia Rothrock The collection will be essential reading for students and lecturers of film studies as well as to those with a general interest in the cinema

**The Experience of Modern Sculpture** Philip F. Palmedo, 2015 Engagingly written and colorfully illustrated The Experience of Modern Sculpture leads us to understand and take pleasure in the sculpture of the 20th and 21st centuries It helps us see the different facets of modernism the evolution of the figure abstraction and art the new materials used in sculpture and more It shows us how modern sculpture has fascinating links to ancient art to science and to the world around us Using more than 100 examples by artists ranging from Picasso and Giacometti to Oldenburg Hesse and Serra the guide focuses on how these pieces of art communicate This new approach brings fresh insights to an important area of art and it deepens the pleasure we can get from the last hundred years of sculptural creativity

**What is Modern Sculpture?** Robert Goldwater, 1969 Designed as an introduction to modern sculpture this book illustrates a representative selection of sculpture produced from the late nineteenth century to the present Emphasizing direct enjoyment of individual works rather than historical sequence it presents the sculptures in related groupings accompanied by texts that explain their

formal character and the intentions that prompted their creation Each section discusses diverse sculptures within a unifying theme such as the torso the portrait cubism assemblage relief and monuments *What Is Modern Sculpture?* ,1998

Materials and Processes of Contemporary Sculpture Mahmoud Farag,2020-01-17 Creating a successful sculpture requires an imaginative concept and a sound design that utilize the potential and avoid the limitations of the material and the process used in making it Prior to a few decades ago most sculptors were restricted to carving stone and wood or casting plaster ceramics and bronze for their creations Contemporary sculptors however are no longer bound by the limitations of these traditional materials and processes and can now create works in sizes forms and textures that could not have been achieved previously Many modern sculptures are now made from materials ranging from steel and aluminum to plastics and composites using processes ranging from welding and adhesive bonding to molding and 3D printing To fully utilize the full potential of such new materials the sculptor needs to understand their points of strength their limitations and the most effective way of shaping them to achieve a given design Although this book is written by a materials engineer the subject matter is presented from the point of view of the sculptor with emphasis on the strengths and weaknesses of different materials their resistance to weather conditions natural color and possible surface textures possible methods of shaping and joining tools and equipment needed and safety measures to take Whenever possible case studies are used to illustrate the sequence of processes and the cost elements involved in shaping a given material to create an actual work of sculpture
