Inquisitorial Justice Peter J. van Koppen, Steven D. Penrod, 2012-12-06 This is the first volume that directly compares the practices of adversarial and inquisitorial systems of law from a psychological perspective. It aims at understanding why American and European continental systems differ so much while both systems entertain much support in their communities. In the chapters, it is demonstrated how the different systems chose different solutions for many of the same problems and how the solutions are related to the typical characteristics of the adversarial and the inquisitorial systems of criminal law. Particular emphasis is placed on problems addressed by psychological researchers and practitioners in the two systems. Chapters cover topics including police investigative techniques, risk assessment, the death penalty, recovered memories, child witnesses, line up practices, expert witnesses, trial procedures, and lay versus judge decision making. The book is written for advanced audiences in psychology and law. **The Army Lawyer**, 2002 **Searching the Law, 3d Edition** Frank

Bae, Edward Bander, Francis Doyle, Joel Fishman, Paul Richert, 2021-12-13 *Advocacy* The City Law School, 2016-08-18 This

title offers systematic coverage of the skills that make a good advocate. It explains common tasks such as addressing the court and questioning witnesses illustrating to students the techniques that underpin advocacy. **Lawyers on Trial**

Christopher Whelan, 2024-11-14 Whelan has written a book that anyone interested in the law should queue to buy. The Times of the 1st edition. A classic work. Michael Beloff KC, Former President Trinity College Oxford, Treasurer Gray's Inn. Lawyers are universally unpopular but is that justified? Aren't lawyers necessary for justice? This book uses real world examples, case studies and commentary from practitioners to answer this question and to reveal the many and varied strategies American and English lawyers use to protect clients. It shows how lawyers tackle their conflicting duties and highlights the choices lawyers everywhere routinely make through their power of decision. What emerges are new ways of understanding the critical role lawyers play in society and their professional responsibilities. This new edition considers the litigation surrounding Donald Trump and the role played by his lawyers. It includes a new chapter on SLAPPs and the way the law is used to advance clients' interests. This book presents a unique and fascinating account of what happens when lawyers' duties to clients conflict with their duties to the legal system and looks in detail at the ethical codes and laws that regulate their conduct. *Interrogating Ethnography*

Steven Lubet, 2018 In this comprehensive review of urban ethnography, Steven Lubet encountered a field that relies heavily on anonymous sources, often as reported by a single investigator whose underlying data remain unseen. Upon digging into the details, he discovered too many ethnographic assertions that were dubious, exaggerated, tendentious, or just plain wrong. Employing the tools and techniques of a trial lawyer, Lubet uses original sources and contemporaneous documentation to explore the stories behind ethnographic narratives. Many turn out to be accurate, but others are revealed to be based on rumors, folklore, and unreliable hearsay. *Interrogating Ethnography* explains how qualitative social science would benefit from greater attention to the quality of evidence and provides recommendations for bringing the field more closely in line with other fact-based disciplines such as law and journalism. **Brief-Writing Master**

Plan Chinua Asuzu, 2022-08-23 As much a sword as a shield, *Brief Writing Master Plan* offers an unparalleled and unprecedented curriculum of written advocacy. It's a sparkling alchemical blend of doctrine, ethics, and skills. It recruits linguistics, logic, psychology, rhetoric, and semantics into the arsenal of learned advocacy. It contains the rhetorical wisdom of ages, pages, and sages. An advocate files a brief to persuade the judge to decide the lawsuit in favor of the advocate's client. The keyword is persuade. Too often, advocates forget this and write to please themselves. They address themselves instead of the court. They write in chest-thumping prose and style. Advocates will do well to keep in mind that in advocacy, all that counts is persuading the judiciary. Hence, *Brief Writing Master Plan* responds to the judicial wish list for advocates' writing style and substance. This book is a transformative resource with the potential to accelerate court proceedings by easing judicial burdens and caseloads. A sober reflection on the advocate's duty to the court, *Brief Writing Master Plan* encourages professional candor, decency, and honesty. Writing as taught in this book will surely propel you to the top 1% of the global

legal profession and secure your legacy
