Modern Russian Historiography Revised Edition:

Historiography of Imperial Russia: The Profession and Writing of History in a Multinational State Thomas

Sanders, 2015-02-12 This collection of the best new and recent work on historical consciousness and practice in late Imperial Russia assembles the building blocks for a fundamental reconceptualization of Russian history and history writing Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989 *Writing History in the Soviet Union* Arup Banerji, 2017-08-18 The history of the Soviet Union has been charted in several studies over the decades These depictions while combining accuracy elegance readability and imaginativeness have failed to draw attention to the political and academic environment within which these histories were composed *Writing History in the Soviet Union Making the Past Work* is aimed at understanding this environment The book seeks to identify the significant hallmarks of the production of Soviet history by Soviet as well as Western historians It traces how the Russian Revolution of 1917 triggered a shift in official policy towards historians and the publication of history textbooks for schools In 1985 the Soviet past was again summoned for polemical revision as part and parcel of an attitude of openness glasnost and in this literary figures joined their energies to those of historians The Communist regime sought to equate the history of the country with that of the Communist Party itself in 1938 and 1962 and this imposed a blanket of conformity on history writing in the Soviet Union The book also surveys the rich abundance of writing the Russian Revolution generated as well as the divergent approaches to the history of the period The conditions for research in Soviet archives are described as an aspect of official monitoring of history writing Another instance of this is the manner by which history textbooks have through the years been withdrawn from schools and others officially nursed into circulation This intervention occasioned in the present circumstance by statements by President Putin himself in the manner in which history is taught in Russian schools continues to this day In other words over the years the regime has always worked to make the past work Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh Sri Lanka *The Course of Russian History, 5th Edition* Melvin C. Wren, Taylor Stults, 2009-01-08 Now in its fifth edition this definitive history of the Russian land and people builds on its success as a fascinating survey of two thousand years of struggle to harness vast resources and talents into a powerful and cohesive nation From its beginning as a savage and exotic land Russia underwent a complex evolution of political social and religious forces the barbarism of its internal conflicts in seeming contradiction with its goals to advance in the realms of technology art education and high culture From the conflicts of the fantastically wealthy ruling class to the poor and oppressed masses emerged the Communist party and the enigmatic figures whose charismatic manipulation of political power reflected the myriad rulers before them Finally as the modern world watched this great entity collapsed in a devastatingly brief time millennia of precarious conflict proving too much for the tenuous coalescence of twentieth century politics Written in an engaging and accessible style this text presents students with a comprehensive look at the momentous events and legendary figures which helped shape Russia

s turbulent history *Reclaiming Byzantium* Pinar Üre, 2020-02-20 There is a long held feeling in Russia that Moscow is the true heir to the Christian Byzantine Empire In 1894 Imperial Russia opened one of the world's leading centres for Byzantine archaeology in Istanbul the Russian Archaeological Institute its purpose was to stake the claim that Russia was the correct heir to Tsargrad as Istanbul was referred to in Russian circles This then is the history of that institute and the history of Russia's efforts to reclaim its Middle East events since in the Crimea Syria and Georgia are all to some extent wrapped up in this historical framework Üre looks at the founding of the Russian Archaeological Institute its aims and its place in the digging race which characterised the late Imperial phase of modern history Above all she shows how the practise of history has been used as a political tool a form of soft power *The Decline of Imperial Russia* Hugh Seton-Watson, 2017-02-24 This book originally published in 1952 describes and explains the stage of the decline of the Russian Empire between the Crimean and First World Wars The book is divided up by period the reign of Alexander II 1855-81 the period of reaction 1881-1905 and the Revolution of 1905 and its aftermath 1905-14 and also into three sections the structure of state and society political movements and foreign relations **An Outline of Recent European History, 1815-1921** Clarence Perkins, 1921

Atlas of Islamic History Peter Sluglett, Andrew Currie, 2015-01-30 This Atlas provides the main outlines of Islamic history from the immediate pre Islamic period until the end of 1920 that is before most parts of the Muslim world became sovereign nation states Each map is accompanied by a text that contextualises explains and expands upon the map and are fully cross referenced All of the maps are in full colour 18 of them are double page spreads and 25 are single page layouts This is an atlas of Islamic not simply Arab or Middle Eastern history hence it covers the entire Muslim world including Spain North West and East Africa the Indian sub continent Central Asia and South East Asia The maps are not static in that they show transitions within the historical period to which they refer for instance the stages of the three contemporaneous Umayyad Fatimid and Abbasid caliphates on Map 10 or the progress of the Mongol invasions and the formation of the various separate Mongol khanates between 1200 and 1300 on Map 21 Using the most up to date cartographic and innovative design techniques the maps break new ground in illuminating the history of Islam Brought right up to date with the addition of a Postscript detailing The Islamic World since c 1900 a Chronology from 500 BCE to 2014 and additional endpaper maps illustrating The Spread of Islam through the Ages and The Islamic World in the 21st Century the Atlas of Islamic History is an essential reference work and an invaluable textbook for undergraduates studying Islamic history as well as those with an interest in Asian History Middle East History and World History more broadly *Approaches to Auschwitz, Revised Edition* Richard L. Rubenstein, John K. Roth, 2003-08-31 Distinctively coauthored by a Christian scholar and a Jewish scholar this monumental interdisciplinary study explores the various ways in which the Holocaust has been studied and assesses its continuing significance The authors develop an analysis of the Holocaust's historical roots its shattering impact on human civilization and its decisive importance in determining the fate of the world This revised edition takes into account
