Modern Satiric Stories:

Modern Satiric Stories Gregory Fitz Gerald, 1971 **The Modern Satiric Grotesque and Its Traditions** John R. Clark, 2014-07-15 Thomas Mann predicted that no manner or mode in literature would be so typical or so pervasive in the twentieth century as the grotesque. Assuredly he was correct. The subjects and methods of our comic literature and much of our other literature are regularly disturbing and often repulsive no laughing matter. In this ambitious study John R. Clark seeks to elucidate the major tactics and topics deployed in modern literary dark humor. In Part I he explores the satiric strategies of authors of the grotesque strategies that undercut conventional usage and form the de basement of heroes the denigration of language and style the disruption of normative narrative technique and even the debunking of authors themselves. Part II surveys major recurrent themes of grotesquerie tedium scatology cannibalism dystopia and Armageddon or the end of the world. Clearly the literature of the grotesque is obtrusive and ugly its effect morbid and disquieting and deliberately meant to be so. Grotesque literature may be unpleasant but it is patently insightful. Indeed as Clark shows all of the strategies and topics employed by this literature stem from age old and spirited traditions. Critics have complained about this grim satiric literature asserting that it is dank cheerless unsavory and negative. But such an interpretation is far too simplistic. On the contrary as Clark demonstrates such grotesque writing in its power and its prevalence in the past and present is in fact conventional controlled imaginative and vigorous no mean achievements for any body of art. **The Satiric Worlds of William Boyd** Juan Francisco Elices Agudo, 2006 This study explores five major narratives of Ghanaian born novelist William Boyd from a satiric point of view. Boyd's novels and short stories take up some of the particular traits of satire a genre which has gradually lost the impact it had in the eighteenth century. This book analyses the satiric spirit of four novels and one short story. A Good Man in Africa An Ice Cream War Stars and Bars Armadillo and The Destiny of Nathalie X. It looks at the way Boyd approaches crucial events in twentieth century history and how he unmasks the follies that underlay most of them. It also deals with issues such as the effects of British colonialism in Africa the superficiality of Hollywood's film industry and the shortcomings of modern urban civilisation. The theoretical framework of this study is based on the analysis of recent satire criticism. Literary and cultural critic Kirk Combe calls this new form of satire the Rant. The Rant is grim highly imaginative and complex in its blending of genres. It mixes facets of satire science fiction and monster tale to produce widely consumed

spectacles major studio movies popular television streaming series bestselling novels designed to disturb and to provoke The Rant targets what Combe calls the Regime Simply put the Regime is the sum of the dangerous social economic and political orthodoxies spurred on by neoliberal and neoconservative polity Such practices include free market capitalism corporatism militarism religiosity imperialism racism patriarchy and so on In the Rant then we have a unique and wholly contemporary genre of political expression and protest speculative satire Chapters 1 and 5 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Lord Dunsany, H.P. Lovecraft, and Ray Bradbury William F. Touponce, 2013-10-10 In his classic study *Supernatural Horror in Literature* H. P. Lovecraft discusses the emergence of what he called spectral literature literature that involves the gothic themes of the supernatural found in the past but also considers modern society and humanity Beyond indicating how authors of such works derived pleasure from a sense of cosmic atmosphere Lovecraft did not elaborate on what he meant by the term spectral as a form of haunted literature concerned with modernity In *Lord Dunsany H. P. Lovecraft and Ray Bradbury Spectral Journeys* William F. Touponce examines what these three masters of weird fiction reveal about modernity and the condition of being modern in their tales In this study Touponce confirms that these three authors viewed storytelling as a kind of journey into the spectral Furthermore he explains how each identifies modernity with capitalism in various ways and shows a concern with surpassing the limits of realism which they see as tied to the representation of bourgeois society The collected writings of Lord Dunsany H. P. Lovecraft and Ray Bradbury span the length of the tumultuous twentieth century with hundreds of stories By comparing these authors Touponce also traces the development of supernatural fiction since the early 1900s Reading about how these works were tied to various stages of capitalism one can see the connection between supernatural literature and society This study will appeal to fans of the three authors discussed here as well as to scholars and others interested in the connection between literature and society criticism of supernatural fiction the nature of storytelling and the meaning and experience of modernity
