Graham, 2001 **The Scales of Success** Sheelagh O'Donovan-Polten, 2001-01-01 An unprecedented window into the most private thinking about success of four male and four female middle aged lawyers each of whom is widely recognised to be at the apex of the legal profession in Canada **This Side of Philosophy** Stephen Gingerich, 2023-02-01 Struck by the contrast between the prestige of their literary tradition and their apparent philosophical insignificance modern writers from Spain have devoted themselves to exploring the relation between literature and philosophy This Side of Philosophy focuses on four major authors Miguel de Unamuno Jos Ortega y Gasset Antonio Machado and Mar a Zambrano who engage literary resources in order to reach beyond philosophy to the essential sources of life Connecting their work to that of other European thinkers dedicated to illuminating the fertile interaction of literature and philosophy especially Plato Schlegel Heidegger and Derrida Stephen Gingerich makes a case for the relevance of Spanish thought to contemporary efforts to expand the ethical and theoretical powers of thinking through literature At the same time Gingerich challenges the conventional view that contemporary Spanish thought fuses or reconciles literature and philosophy instead discerning a call to appreciate their difference in relation For these writers literature and philosophy are repulsed by each other as inexorably as they are drawn together The Gold Coast Transformed Tor Hundloe, Bridgette McDougall, Craig Page, 2015-03-23 The Gold Coast is one of Australia s premier tourism destinations a city cut out of coastal vegetation including paperbark swamps mangroves and rainforests of worldwide significance The Gold Coast Transformed is a collection of integrated chapters identifying and assessing the environmental impacts of the building of Australia s sixth largest city From the time of the first timber getters through to the present the book traces the cumulative impacts of humans on the now World Heritage listed rainforest and surrounding ecosystems The city s natural and engineered environments are both fascinating and vulnerable The construction of massive high rise apartment blocks on what were frontal beach dunes is one of the fundamental mistakes not to be repeated The book illustrates how and why major environmentally destructive development took place and discusses the impacts of such development on the Gold Coast s beaches wildlife and terrestrial and marine environments such as the destruction of riparian mangrove forest The Gold Coast Transformed also shows the possibility of sustaining natural populations and reducing the city s ecological footprint It will be of interest to ecologists environmental scientists and managers town planners economists policymakers and the general public **Gothic Literary Travel and Tourism** Alex Bevan, 2023-05-15

Gothic tourism is a growing phenomenon and a medium through which Gothic fictions and folkloric tales are re imagined and generated This book examines the complex relationship between contemporary English Gothic attractions and storytelling uncovering how works of Gothic fiction can both inspire Gothic tourism and emerge from the spaces of Gothic tourism contending that Gothic tourist attractions are multi layered storytelling experiences Contributing to the study of literature and place Gothic Literary Travel and Tourism draws together the study of literary Gothic tourism and spatial philosophy offering interdisciplinary analysis into the interface between Gothic narrative s and the spaces in which the tourist navigates The storytelling practices taking place in Gothic caves theme parks ghost tours and rural walks serve to reflect contemporary fears and anxieties This book situates the act of touring a Gothic site as a process of literary and social discovery *Hegel and the Logical Structure of Love* Toula Nicolacopoulos, George Vassilacopoulos, 2018-12-21 First published in 1999 this is an interesting and significantly valuable example of how Hegel s Logic can be applied to his own interpretation of his time to produce a contemporary Hegelian view of our world and its problems The authors show that by the logic of the family as conceived by Hegel contemporary views about same sex and single parent families can be justified and defunded The male dominance and heterosexual orientation taken for granted by Hegel s own world is not mandated by the Logic I find their argument completely convincing They demonstrate beyond dispute that Hegel s speculative philosophy remains relevant for us a very fruitful in its applications *Modernity And Postmodern Culture* McGuigan, Jim, 2006-07-01 Modernity and Postmodern Culture critically assesses claims made about the postmodernization of culture and society and explores the complex interplay between the modern and the postmodern in an increasingly globalized world The author argues that although culture may be postmodern in terms of art entertainment and everyday life modernity still exists and is pervasive The second edition is revised throughout updating the literature and viewing international events through a modernist postmodernist gaze The theories of Baudrillard Beck Castells Giddens Jameson Lyotard and others are discussed and specific issues concerning architecture theme parks screen culture science technology and the environment are examined Topics include Postmodern architecture and the hyperreality of Disney How poststructuralist theory questions modern rationality and reason The relations between postmodern culture global capitalism and the technological changes brought about by electronics and computing The network society The book is key reading for students on courses in cultural politics cultural theory popular culture and sociology **Essential XUL Programming** Vaughn Bullard, Kevin T. Smith, Michael C. extend it into Java and other non Netscape interfaces *Rural Imaginations for a Globalized World* ,2025-07-17 This volume explores what aspects of contemporary rural life as deeply globalized and thus implicated in the ongoing destructive unfolding of colonialism and capitalism are highlighted and obscured in social political economic and cultural imaginations It asks how this shapes the ways in which rurality is politically mobilized affectively encountered and artistically mediated Coming from the humanities the social sciences and the art world the contributors bring into focus the persistence of romanticizing imaginations of the rural such as for example the idyll that position it as a wholesome escape from globalization and its excesses including looming environmental collapse In addition they detail attempts at deromanticization designed to disassociate the rural from whiteness rugged masculinity heteronormativity anthropocentrism and agrilogistics
