Ethics and Modern Thought: A Theory of Their Relations Rudolf Eucken, 2021-05-18 In *Ethics and Modern Thought* A Theory of Their Relations Rudolf Eucken navigates the intricate interplay between ethical principles and contemporary philosophical discourse Eucken's literary style is characterized by profound analytical rigor coupled with accessible prose allowing readers to grapple with complex ideas without succumbing to academic jargon The book is set against the backdrop of the late 19th and early 20th centuries a period marked by significant transformations in ethical thought and the emergence of modernity which Eucken effectively contextualizes through a critical examination of both traditional and innovative ethical frameworks Rudolf Eucken a noted philosopher and recipient of the Nobel Prize in Literature in 1908 was deeply influenced by the philosophical currents of his time including idealism and existential inquiry His personal experiences and scholarly endeavors within the realms of spirituality and ethics culminate in this work as Eucken sought to bridge the gap between philosophical inquiry and the moral imperatives of human existence responding to the challenges posed by modern thought This book is an essential read for anyone interested in the philosophical exploration of ethics particularly in how it interacts with contemporary challenges Eucken's insights offer valuable perspectives for scholars and general readers alike enriching our understanding of the moral fabric of modern society

Evil in Modern Thought Susan Neiman, 2015-08-25 A compelling look at the problem of evil in modern thought from the Inquisition to global terrorism Evil threatens human reason for it challenges our hope that the world makes sense For eighteenth century Europeans the Lisbon earthquake was manifest evil Today we view evil as a matter of human cruelty and Auschwitz as its extreme incarnation Examining our understanding of evil from the Inquisition to contemporary terrorism Susan Neiman explores who we have become in the three centuries that separate us from the early Enlightenment In the process she rewrites the history of modern thought and points philosophy back to the questions that originally animated it Whether expressed in theological or secular terms evil poses a problem about the world's intelligibility It confronts philosophy with fundamental questions Can there be meaning in a world where innocents suffer Can belief in divine power or human progress survive a cataloging of evil Is evil profound or banal Neiman argues that these questions impelled modern philosophy Traditional philosophers from Leibniz to Hegel sought to defend the Creator of a world containing evil Inevitably their efforts combined with those of more literary figures like Pope Voltaire and the Marquis de Sade eroded belief in God's benevolence power and relevance until Nietzsche claimed He had been murdered They also yielded the distinction between

natural and moral evil that we now take for granted Neiman turns to consider philosophy's response to the Holocaust as a final moral evil concluding that two basic stances run through modern thought One from Rousseau to Arendt insists that morality demands we make evil intelligible The other from Voltaire to Adorno insists that morality demands that we don't

The Christology of John Macquarrie Vernon L. Purdy, 2009 The Christology of John Macquarrie comprehensively scrutinizes the life and writings of Scottish born systematic theologian and philosopher John Macquarrie 1919 2007 in an attempt to comprehend and evaluate his Christology The author examines the people e g Heidegger Schleiermacher the philosophical and theological positions and the writings that formed Macquarrie s thinking One major influence was his commitment to modern critical theology including the premise that in the modern world the only acceptable Christological tenets are those that can stand up to the scrutiny of modern critical reasoning The work concludes that this commitment profoundly shaped Macquarrie s theology especially his Christology The book also discusses Macquarrie s evaluation and criticisms of the Christology of other theologians e g Kierkegaard Moltmann Pannenberg and others concluding that Macquarrie s understanding of the Christian faith and the person of Jesus Christ is consonant with modern liberal Anglo Catholicism This idea furthers the argument that Macquarrie s reluctance to accept traditional incarnational categories suggests that his Christology is a modern form of Adoptionism
