Moderniser Ladministration Comment Font Les Autres:

New Forms of Labour Administration Normand Lécuyer, Jean Courdouan, 2002 This comprehensive study examines how labour administrations are coping with globalization modernization and political and financial constraints while also contributing to the economic and social development of their countries

Social Dialogue and Poverty Reduction Strategies International Labour Office, 2006

Public Management Reform Christopher Pollitt, Geert Bouckaert, 2004 This is a comprehensive integrated analysis of the wave of management reforms which have swept through many countries including Australia Belgium Canada Finland France Germany Italy the Netherlands New Zealand Sweden the UK the USA and the European Commission

Public Management Reform and Modernization Edoardo Ongaro, 2009 Ongaro has made a major contribution to understanding the political and administrative systems of Southern Europe The work goes beyond that however by providing an excellent example of comparative analysis in general This book should be read by all students of comparative administration B Guy Peters University of Pittsburgh US and City University of Hong Kong This is an important book for several reasons Public sector reform debates and policies have been heavily perhaps too heavily influenced by Anglo Saxon models and literature on reforms in the Latin part of Europe has until now only been available in a fragmented way However this unique new book offers a coherent vision across Southern Europe It refers to important parts of our history and how these still influence current times It also shows that culture does make a difference and that contingencies are important European public sector reform is as diverse as the range of its administrative histories and this book is therefore crucial in our understanding of the future in relation to the past Geert Bouckaert Public Management Institute Katholieke Universiteit Leuven Belgium and European Group for Public Administration This systematic thorough and insightful book offers one of the very rare comparative studies of public management reform in Italy France Greece Portugal and Spain A unique and most valuable study Walter Kickert Erasmus University Rotterdam the Netherlands Scholars of public management reform have been at it for many years but there was always a gap little was really known about southern Europe those countries that come from the Napoleonic tradition Now Professor Edoardo Ongaro of Bocconi University has filled that gap and we will all profit from his diligent and insightful work Jeffrey D Straussman Nelson A Rockefeller College of Public Affairs and Policy University at Albany US Theoretically eclectic and empirically rich this is a much needed volume on the dark side of the moon that is public management reform outside the Anglo Saxon world Edoardo Ongaro sheds light on Italy and four other Napoleonic systems by producing a far reaching comparative analysis that also captures the effects of Europeanization and multi level governance on public management reforms Ambitious yet ultimately accessible this book is a must read for those who want to explain and understand the trajectories of reform in their historical context Claudio Radaelli University of Exeter UK The reader will find in Professor Ongaro s book a clear and thorough discussion of the public sector reform process both in Italy and southern European countries based upon a systematic

comparative framework This is a very useful and original work that any student in comparative politics or public administration will highly appreciate Luc Rouban CNRS Centre de Recherches Politiques de Science Po CEVIPOF Paris France This scholarly volume makes an interesting and distinctive contribution to the global public management reform debate by offering an analysis of reform trajectories in an important but rather neglected group of Southern European countries Ewan Ferlie King s College London UK Since the 1980s a wave of reforms of public management has swept the world The investigation into the effects of such major transformations has however been unbalanced important countries have received only limited attention This timely book fills the gap by investigating the dynamics of contemporary public management reform in five European countries that gave shape to the Napoleonic administrative tradition France Greece Italy Portugal Spain Edoardo Ongaro presents an in depth investigation of the reform of public management in these countries revisiting major topics of theoretical interest in the study of public administration He addresses key issues regarding the influence of the past on the transformation of the public se **Taking Stock** Canadian Centre for Management Development,1998 In the last tow decades governments have invested a great deal of time money and political capital in reforms to make the public sector more efficient They have however invested little in evaluating the effectiveness of their efforts accepting many of the reforms because of a belief in a particular approach to governing or an ideological commitment on the part of politicians This collection of essays takes stock of these reform measures and their impact on public administration **Schooling for Tomorrow Networks of Innovation Towards New Models for Managing Schools and Systems** OECD,2003-06-04 This report analyses examples of innovative educational networks and policy programmes and brings together related research from different countries and disciplines **Public Management Reform : A Comparative Analysis** Christopher Pollitt,Geert Bouckaert,1999-12-09 In this major new contribution to a rapidly expanding field the authors offer an integrated analysis of the wave of management reforms which have swept through so many countries in the last twenty years The reform trajectories of ten countries are compared and key differences of approach discussed Unlike some previous works this volume affords balanced coverage to the New Public Management NPM and the non NPM or reluctant NPM countries since it covers Australia Canada Finland France Germany the Netherlands New Zealand Sweden the UK and the USA Unusually it also includes a preliminary analysis of attempts to improve management within the European Commission ***New Public Management*** Kathleen McLaughlin,Ewan Ferlie,Stephen Osborne P,2005-07-08 In this original comprehensive and multidisciplinary analysis of the impact of New Public Management in the UK leading international authorities present evaluations of current thinking and highlight the challenges for the future **La déconcentration : l'administration territoriale dans la réforme de l'État** Jean-Benoît Albertini,1997-01-01T00:00:00+01:00 Met en perspective d un point de vue historique politique et administratif un vaste mouvement de r forme favorable la d concentration en soulignant la place qu elle occupe dans la modernisation de l Etat
