Modernism Modernity And Arnold Bennett:

Modernism, Modernity, and Arnold Bennett Robert Squillace, 1997 This book delineates the unique role of Arnold Bennett in the transformation of the British novel from the aesthetic psychological and sociopolitical assumptions of modernity to those of modernism Early in his career Bennett believed that the rejection of inherited traditions and authorities that was promulgated by such champions of modernity as Darwin Marx and even Herbert Spencer would culminate in an assertion of personal autonomy Bennett eventually assimilated the modernist critique of modernity which discovered with the help of Freud and the First World War an intractable human irrationality that expressed itself in the most apparently A History of the Modernist Novel Gregory Castle, 2015-06-25 A History of reasonable schemes for human improvement the Modernist Novel reassesses the modernist canon and produces a wealth of new comparative analyses that radically revise the novel's history Drawing on American English Irish Russian French and German traditions leading scholars challenge existing attitudes about realism and modernism and draw new attention to everyday life and everyday objects In addition to its exploration of new forms such as the modernist genre novel and experimental historical novel this book considers the novel in postcolonial transnational and cosmopolitan contexts A History of the Modernist Novel also considers the novel s global reach while suggesting that the epoch of modernism is not yet finished Ford Madox Ford and the Misfit Moderns R. Hawkes, 2012-09-18 Ford Madox Ford is a major modernist writer vet many of his works do not conform to our assumptions about modernism Examining ways in which he alongside other misfit moderns undermines stabilities we expect from novels and memoirs this book poses guestions about the nature of narrative and the distinction between modernism and modernity The Oxford English Literary History: Volume 10: 1910-1940: The Modern Movement Chris Baldick, 2005-11-10 This exciting new volume provides a freshly inclusive account of literature in England in the period before during and after the First World War Chris Baldick places the modernist achievements of Virginia Woolf T S Eliot and James Joyce within the rich context of non modernist writings across all major genres allowing high literary art to be read against the background of low entertainment Looking well beyond the modernist vanguard Baldick highlights the survival and renewal of realist traditions in these decades of post Victorian disillusionment Ranging widely across psychological novels war poems detective stories satires and children's books The Modern Movement provides a unique survey of the literature of this turbulent time Mobility and the Hotel in Modern Literature Emma Short, 2019-07-30 This book considers the complex ways in which the hotel functions to express the shifting experiences of modernity in the works of such authors as Anthony Trollope Wilkie Collins Arnold Bennett H G Wells and Elizabeth Bowen The text contributes to the critical debates on nineteenth and twentieth century literature concerning space movement and mobility arguing that the hotel reconfigures boundaries of modernist middlebrow and popular fiction Drawing on a range of interdisciplinary theoretical and analytical perspectives the book provides a critical and cultural history of the hotel in British literature charting its changing

difficulty of knowing What comes to the fore in James's account as in so many is how the forms of realism are constituted by a relation to unknowing absence and ineffability Realism Form and Representation in the Edwardian Novel recovers a neglected literary history centred on the intricate relationship between fictional representation and philosophical commitment It asks how or if we can conceptualize realist novels when the objects of their representational intentions are realities that might exist beyond what is empirically verifiable by sense data or analytically verifiable by logic and are thus irreducible to conceptual schemes or linguistic practices a formulation Charlotte Jones refers to as synthetic realism In new readings of Edwardian novels including Conrad's Nostromo and The Secret Agent Wells's Tono Bungay and Ford's The Good Soldier this volume revises and reconsiders key elements of realist novel theory metaphor and metonymy character interiority the insignificant detail omniscient narration and free indirect discourse causal linearity to uncover the representational strategies by which realist writers grapple with the recalcitrance of reality as a referential anchor and seek to give form to the force opacity and uncertain scope of realities that may lie beyond the material In restoring a metaphysical dimension to the realist novel s imaginary Realism Form and Representation in the Edwardian Novel offers a new conceptualization of realism both within early twentieth century literary culture and as a transhistorical mode of The Novel and the Menagerie Kurt Koenigsberger, 2007 The first comprehensive account of the relation of representation collections of imperial beasts to narrative practices in England The Novel and the Menagerie explores an array of imaginative responses to the empire as a dominant shaping factor in English daily life Kurt Koenigsberger argues that domestic English novels and collections of zoological exotica especially zoos circuses traveling menageries and colonial and imperial exhibitions share important aesthetic strategies and cultural logics novels about English daily life and displays featuring collections of exotic animals both strive to relate Englishness to a larger empire conceived as an integrated whole Koenigsberger's investigations range from readings of novels by authors such as Charles Dickens Virginia Woolf Salman Rushdie and Angela Carter to analyses of ballads handbills broadsides and memoirs of showmen Attending closely to the collective English practices of imagining and delineating the empire as a whole The Novel and the Menagerie works at the juncture of literary criticism colonial discourse studies and cultural analysis to historicize the notion of totality in the theory and practice of the English novel In exploring the shapes of the novel in England and of the English institutions that collected exotic animals it offers fresh readings of familiar literary texts and opens up new ways of understanding the character of imperial Englishness across the nineteenth and twentieth centuries BOOK JACKET **English Novel Explication** Peter L. The Grand Babylon Hotel Arnold Bennett, 2016-08-15 Arnold Bennett's tale of murder intrigue and Abernethy, 1976 romance at a luxurious London hotel is now back in print in a Broadview Edition Place and the Scene of Literary Practice Angharad Saunders, 2017-07-28 The act of writing is intimately bound up with the flow and eddy of a writer s being within the world the everyday practices encounters and networks of social life Exploring the geographies of literary practice

in the period 1840 1910 this book takes as its focus the work or craft of authorship exploring novels not as objects awaiting interpretation but as spatial processes of making meaning As such it is interested in literary creation not only as something that takes place the situated nature of putting pen to paper but simultaneously as a process that escapes such placing Arguing that writing is a process of longue dur e the book explores the influence of family and friends in the creative process it draws attention to the role that travel and movement play in writing and it explores the wider commitments of authorial life not as indicators of intertextuality but as part of the creative process In taking this seventy year period as its focus this book moves beyond the traditional periodisations that have characterised literary studies such as the Victorian or Edwardian novel the nineteenth century or early twentieth century novel or Romanticism social realism and modernism It argues that the literary environment was not one of watershed moments there were continuities between writers separated by several decades or writing in different centuries At the same time it draws attention to a seventy year period in which the value of literary work and culture were being contested and transformed Place and the Scene of Literary Practice will be key reading for those working in Human Geography particularly Cultural and Historical Geography Literary Studies and Literary History

The Cosmic Time of Empire Adam Barrows, 2011 Combining original historical research with literary analysis Adam Barrows takes a provocative look at the creation of world standard time in 1884 and rethinks the significance of this remarkable moment in modernism for both the processes of imperialism and for modern literature As representatives from twenty four nations argued over adopting the Prime Meridian and thereby measuring time in relation to Greenwich England writers began experimenting with new ways of representing human temporality Barrows finds this experimentation in works as varied as Victorian adventure novels high modernist texts and South Asian novels including the work of James Joyce Virginia Woolf H Rider Haggard Bram Stoker Rudyard Kipling and Joseph Conrad Demonstrating the investment of modernist writing in the problems of geopolitics and in the public discourse of time Barrows argues that it is possible and productive to rethink the politics of modernism through the politics of time Law, Literature, and the Transmission of Culture in England, 1837-1925 Cathrine O.
