The Feminism and Visual Culture Reader Amelia Jones, 2003 Challenging the notion of feminism as a unified discourse this book assembles writings that address art film architecture popular culture new media and other visual fields from a feminist perspective The book combines classic texts with six newly commissioned pieces Articles are grouped into thematic sections each introduced by the editor Providing a framework within which to understand the shifts in feminist thinking in visual studies as well as an overview of major

feminist theories of the visual this reader also explores how issues of race class nationality and sexuality enter into debates about feminism in the field of the visual book cover German Colonialism, Visual Culture, and Modern Memory Volker Langbehn, 2010-07-01 There is no overarching master narrative in understanding the history of German colonialism and over the past decade the study of Germany's colonial past has experienced a dramatic transformation in its scope of inquiry Influenced by new theoretical and methodological approaches to the study of race nationalism and globalization these new studies initiate a process of reevaluating and redefining the parameters within which German Colonialism is understood The role of visual materials in particular is ideal for exploring the porousness of disciplinary boundaries though visual culture studies pertaining to German history and especially German colonialism have previously been almost completely neglected Investigating visual communication and mass culture print culture and suggestive racial politics racial aesthetics racial politics and early German film racial continuity and German film and photography German Colonialism Visual Culture and Modern Memory offers compelling evidence of a German society between 1884 and 1919 that produced vibrant and heterogeneous and at times contradictory cultures of colonialism This collection of new essays illustrates the dramatic changes and vast array of perspectives that have recently emerged in the study of German colonialism In documenting the latest cutting edge research of German colonial history the contributors to this volume prove wrong the persistent assumptions that the creation of Germany's colonial empire did not have any lasting impact on German political and cultural life Their essays document how colonialism in its various forms was entwined with the inner workings of modern German life and society especially through the cultural and technical innovations of its time In contrast to existing research these studies show that colonial Germany played a significant role in shaping German perceptions of racial difference influenced German support for World War I and facilitated the construction of German nationalism German Colonialism Visual Culture and Modern Memory uniquely demonstrates that the visual culture of colonialism is closely linked to the fascination with new modes of seeing and the enigma of visual experience that have become trademarks of modernity Shakespeare, Film Studies, and the Visual Cultures of Modernity A. Guneratne, 2016-04-30 This book is the first in depth cultural history of cinema's polyvalent and often contradictory appropriations of Shakespearean drama and performance traditions The author argues that these adaptations have helped shape multiple aspects of film from cinematic style to genre and narrative construction **Encountering Choran Community** Emily Hinnov, 2009-07 Through a transnational perspective Emily M Hinnov's Encountering Choran Community Literary Modernism Visual Culture and Political Aesthetics in the Interwar Years identifies and describes modernist choran community as a previously understudied key counter narrative to Modernism's engagement with early twentieth century master narratives Hinnov uses the term choran community in order to emphasize the almost sacred nature of the experience represented in common by select modernist texts photographs and photo texts produced in the interwar period As Hinnov describes choran community comes about as a result of the choran moment or

textual instant when characters and or readers recognize their connection with a larger inherently unified whole Whether in a visual verbal or hybrid text the stasis of the choral moment contains the potent possibility of communal awareness or choral community in the future as well as the present The textual choral communities presented here consequently offset the sexist racist and classist solipsism of imperialist or fascist master narrative Emily N Hinnov is Assistant Professor of English at Bowling Green State University Firelands College

The Culture of Yellow Sabine Doran, 2013-09-26 This is the first book to explore the cultural significance of the color yellow showing how its psychological and aesthetic value marked and shaped many of the intellectual political and artistic currents of late modernity It contends that yellow functions during this period primarily as a color of stigma and scandal Yellow stigmatization has had a long history it goes back to the Middle Ages when Jews and prostitutes were forced to wear yellow signs to emphasize their marginal status Although scholars have commented on these associations in particular contexts Sabine Doran offers the first overarching account of how yellow connects disparate cultural phenomena such as turn of the century decadence the yellow nineties the rise of mass media yellow journalism mass immigration from Asia the yellow peril and mass stigmatization the yellow star that Jews were forced to wear in Nazi Germany The Culture of Yellow combines cultural history with innovative readings of literary texts and visual artworks providing a multilayered account of the unique role played by the color yellow in late nineteenth and twentieth century American and European culture

Desire and Time in Modern English Fiction: 1919-2017 Richard Dellamora, 2020-08-04 Beginning with Somerset Maugham's innovative sexually dissident South Seas novel and tales and Alfred Hitchcock's gay inflected revisiting of the Jack the Ripper sensation in silent film this book considers the continuing presence of the past in future oriented work of the 1930s and the Second World War by Sylvia Townsend Warner Virginia Woolf George Orwell and the playwright and novelist Patrick Hamilton The final three chapters carry the discussion to the present in analyses of works by lesbian postcolonial and gay authors such as Sarah Waters Amitav Ghosh and Alan Hollinghurst Focusing on questions about temporality and changes in gender and sexuality especially gay and lesbian straight and queer following the rejection of the Victorian patriarchal marriage model this study examines the continuing influence of late Victorian Aestheticist and Decadent culture in Modernist writing and its permutations in England

Gender, Space, and the Gaze in Post-Hausmann Visual Culture Temma Balducci, 2017-03-27 Charles Baudelaire's flâneur as described in his 1863 essay The Painter of Modern Life remains central to understandings of gender space and the gaze in late nineteenth century Paris despite misgivings by some scholars Baudelaire's privileged and leisurely figure at home on the boulevards underlies theorizations of bourgeois masculinity and by implication bourgeois femininity whereby men gaze and roam urban spaces unreservedly while women lacking the freedom to either gaze or roam are wedded to domesticity In challenging this tired paradigm and offering fresh ways to consider how gender space and the gaze were constructed this book attends to several neglected elements of visual and written culture the ubiquitous male beggar as the true denizen of the boulevard the abundant depictions of well to do women looking sometimes at men the popularity of windows and balconies as viewing perches and the overwhelming emphasis given by both male and female artists to domestic scenes The book's premise that gender space and the gaze have been too narrowly conceived by a scholarly embrace of Baudelaire's flâneur is supported across the cultural spectrum by period sources that include art criticism high and low visual culture newspapers novels prescriptive and travel literature architectural practices interior design trends and fashion journals
