## **Modernist Patterns In Literature And The Visual Arts:**

**Modernist Patterns** M. Roston, 1999-12-07 In this stimulating study the author explores how Conrad T S Eliot Woolf Joyce Faulkner Hemingway Huxley and others responded to the immediate challenges of their time to the implications of Freudian psychology molecular theory relativist theory and the general weakening of religious faith Assuming that artists and writers in coping with those problems would develop techniques in many ways comparable even where there was no direct contact he positions Modernist literature within the context of contemporary painting architecture and sculpture thereby providing some fascinating insights into the nature of the literary works themselves **The Search for Selfhood**

**in Modern Literature** M. Roston, 2001-09-05 The scientific achievements of the modern world failed to impress the leading writers of this century leaving them instead profoundly disturbed by a sense of lost values and of the insignificance of the individual in a universe seemingly indifferent to human concerns In *The Search for Selfhood in Modern Literature* Roston explores the strategies adopted by such mid century authors as Greene Salinger Osborne Baldwin and others in their attempt to cope with the spiritual vacuity strategies including the emergence of the anti hero and of literary existentialism and offer in the course of the investigation fascinatingly new insights into their work **Graham Greene's Narrative Strategies** M.

Roston, 2006-07-31 In *Narrative Strategies* Roston focuses upon the Greene s texts themselves and their manipulation of reader response highlighting the innovative strategies that Greene developed to cope with the mid century invalidation of the traditional hero The result is a stimulating new reading of the major novels Modernist Soundscapes Angela

Frattarola, 2018-11-12 This study questions how early twentieth century auditory technologies altered sound perception and how these developments shaped the modernist novel Without polarizing vision and audition this book reveals how modernists tend to use auditory perception to connect characters shifting the subject from a distanced judgmental observer to a reverberating body attuned to the moment *Cultures of Modernism* Cristanne Miller, 2007 Examines the influences of

location on the literary achievements of three modernist women writers **Sacred and Secular in Medieval and Early**

**Modern Cultures** L. Besserman, 2006-02-04 This book illuminates the pervasive interplay of sacred and secular phenomena in the literature history politics and religion of the Middle Ages and Early Modern periods The essays gathered here constitute a new way of applying a classic dichotomy to major cultural phenomena of the pre modern era **Angels of**

**Modernism** S. Hobson, 2011-10-26 The angel can be viewed as a signal reference to modernist attempts to accommodate religious languages to self consciously modern cultures This book uses the angel to explore the relations between modernist literature and early twentieth century debates over the secular and or religious character of the modern age *E.E.*

*Cummings: Poetry and Ecology* Etienne Terblanche, 2012-01-01 By employing the modernist devices of fragmentation recombination and accentuated blank space E E Cummings engages singularly with being on earth This ecological achievement was largely ignored by the New Critics and the subsequent semiotic spirit which has been holding that the sign

hardly has to do with concrete existence on earth ironically perpetuated the neglect In this book Etienne Terblanche shows that Cummings's ecology relocates his oeuvre and status in contemporary discourse For the poet follows mimes and connects with the unfolding changes of earthly existence and growth what he views as the Tao of being in his lyricism sex poems satire and visual verbal poems This is true especially of the elusive manner or how of his poetry overall Careful ecocritical reading of this active culture nature integrity in his poetry brings about an imperative new understanding and placement of his project It further serves to show that in their different ways T S Eliot and Ezra Pound engage with nature in a similar way thus again accentuating the importance of Cummings's poetic project to the neglected and vital ecocritical perception of modernism in poetry

**The Ethical Foundations of Postmodernity** Nina Michaela von Dahler, Nina Michaela Von Dahler, 2013-07 A return to ethics which began in the 1980s and 1990s and is still predominant today has been ascribed to literary studies and theory In this book theoretical issues within ethics are discussed based on the examples of literary analyses The authors examined are Margaret Atwood Jeffrey Eugenides and Robert M Pirsig The main questions concern the foundation on which ethical concepts are based and the way in which such concepts function These topics are evidently connected to matters of human concepts and human nature in general which are understood to be fundamentally communicative Contrary to popular conclusions of relativity the need for a realist foundation of ethics implying universal validity will be revealed It is not only possible but also necessary to develop such an idea of ethics within a postmodern relativist framework A communicative foundationalist ethics will thus be designed With regard to literature an increasing emergence of first person narrative can be witnessed in addition to a new focus on a realist and more mimetic style after a peak of pluralist conceptions at the end of the twentieth and the beginning of the twenty first centuries The analysis of such narrative situations will reveal the significance of the narrative generation of individual personalities for an understanding of ethical questions The conflict between relativist and realist points of view centers on the postmodern critique of the individual The study of the literary generation of individuals will elucidate means of confronting this critique The theoretical background includes the poststructuralist and communicative concepts of Judith Butler and Seyla Benhabib as well as Ernst Tugendhat's analytical approach Nina von Dahler studied English language and literature philosophy sociology and educational sciences at the Universities of Hamburg and Heidelberg This book is based on her Ph D thesis

European Intertexts Patsy Stoneman, Ana María Sánchez-Arce, Angela Leighton, 2005 European Intertexts is the first fruit of an ongoing collaborative study aiming to challenge the isolationism of much critical work on English literature by exploring the interdependence of English and continental European literatures in writing by women While later volumes will deal with specific texts this introductory volume provides a descriptive framework and a theoretical basis for studies in the field Covering issues such as the role of English as a world language the definition of Europe and the current state of Translation Studies the book also surveys theories of intertextuality and demonstrates intertextual links between written and visual and

film texts This book is itself pioneering in making a systematic approach to women's writings in English in the context of other European cultures Although Europe is a political reality this cultural interpenetration remains largely unexamined and these essays represent an important first step towards revealing that unexplored richness **Iconotropism** Ellen Spolsky, 2004 The essays in this collection expand the boundaries of inter art studies claiming that human beings have evolved to draw nourishment from pictures Ellen Spolsky argues in a polemical introduction that the recognition of our embodied need for pictures that is our human iconotropism provides a fresh way of understanding the relationship of works of art to their historical contexts Jacket Virginia Woolf and Motherhood Charlotte Taylor Suppe, 2024-11-30 Motherhood is a recurrent theme in Virginia Woolf's writing yet Woolf scholarship has often overlooked this dynamic subject Exploring how Woolf engaged with themes of motherhood as a socially and politically motivated writer and a woman this book grounds her work in the maternal discourses of her time By reading Woolf's texts in dialogue with contemporary writing socio political events and medical and scientific advances Virginia Woolf and Motherhood establishes the significance of maternity across Woolf's oeuvre and exposes how public and personal matters of motherhood informed the links she drew between maternity femininity self worth and artistry With novel analysis of Woolf's writing on war eugenics food and psychoanalysis Charlotte Taylor Suppe demonstrates the substantive influence maternal discourses had on shaping Woolf's feminism political beliefs and creative practices **A Theory of Minimalism** Marc Botha, 2017-10-19 The explosion of minimalism into the worlds of visual arts music and literature in the mid to late twentieth century presents one of the most radical and decisive revolutions in aesthetic history Detested by some embraced by others minimalism's influence was immediate pervasive and lasting significantly changing the way we hear music see art and read literature In *The Theory of Minimalism* Marc Botha offers the first general theory of minimalism equally applicable to literature the visual arts and music He argues that minimalism establishes an aesthetic paradigm for rethinking realism in genuinely radical terms In dialogue with thinkers from both the analytic and continental traditions including Kant Danto Agamben Badiou and Meillassoux Botha develops a constellation of concepts which together encapsulate the transhistorical and transdisciplinary reach of minimalism Illustrated by a range of historical canonical and contemporary minimalist works of different media from the caves of early Christian ascetics to Samuel Beckett's late prose Botha offers a bold and provocative argument which will equip readers with the tools to engage critically with past present and future minimalism and to recognize how in a culture caught between the poles of excess and austerity minimalism still matters *Machines for Living* Victoria Rosner, 2020 *Machines for Living* shows how the modernization of the home led to profound changes in domestic life and relied on a set of emergent concepts including standardization scientific method functionalism and efficiency science that form the basis of literary modernism and stand at the confluence of modernism and modernity *The Cambridge Companion to Modernism* Michael Levenson, 2011-09-15 Including chapters on the major literary genres intellectual political and institutional contexts film and the visual arts this

text provides both close analyses of individual works of modernism and a broader set of interpretive narratives Roman Jakobson Richard Bradford,1994 In Roman Jakobson Richard Bradford reasserts the value of Jakobson s work arguing that he has a great deal to offer contemporary critical theory and providing a critical appraisal the sweep of Jakobson s career Bradford re establishes Jakobson s work as vital to our understanding of the relationship between language and poetry By exploring Jakobson s thesis that poetry is the primary object language Roman Jakobson Life Language Art offers a new reading of his work which includes the most radical elements of modernism This book will be invaluable to students of Jakobson and to anyone interested in the development of critical theory linguistics and stylistics The Modern Revival of Gnosticism and Thomas Mann's Doktor Faustus Kirsten J. Grimstad,2002 This study explores the reappearance of Gnostic themes across the landscape of European literature and thought and in major works by Thomas Mann **T.S. Eliot's Orchestra** John Xiros Cooper,2020-04-13 First Published in 2000 Nearly everyone who addresses T S Eliot s imaginative and critical work must acknowledge the importance of music in thematic and formal terms This collection of original essays thoroughly explores this aspect of his work from a number of perspectives Black Orpheus Saadi A. Simawe,2002-05-03 The legendary Greek figure Orpheus was said to have possessed magical powers capable of moving all living and inanimate things through the sound of his lyre and voice Over time the Orphic theme has come to indicate the power of music to unsettle subvert and ultimately bring down oppressive realities in order to liberate the soul and expand human life without limits The liberating effect of music has been a particularly important theme in twentieth century African American literature The nine original essays in Black Orpheus examines the Orphic theme in the fiction of such African American writers as Jean Toomer Langston Hughes Claude McKay James Baldwin Nathaniel Mackey Sherley Anne Williams Ann Petry Ntozake Shange Alice Walker Gayl Jones and Toni Morrison The authors discussed in this volume depict music as a mystical shamanistic and spiritual power that can miraculously transform the realities of the soul and of the world Here the musician uses his or her music as a weapon to shield and protect his or her spirituality Written by scholars of English music women s studies American studies cultural theory and black and Africana studies the essays in this interdisciplinary collection ultimately explore the thematic linguistic structural presence of music in twentieth century African American fiction **Music and Modern Art** James Leggio,2014-07-16 Music and Modern Art adopts an interdisciplinary approach to the relationship between these two fields of creative endeavor
