Modernity And The Problem Of Evil:

Modernity and the Problem of Cultural Identity A.P. Dubey, 2008 The question of modernity and the problem of cultural Identity have been intensively debated from various points of view. Three concepts of identity have been appreciated and emerged from lively deliberations during this discourse. First concept being essentialist concept of identity has been defined to be one which is generated through self experience as self evident. The second being post modern concept referred to as one which is independent of socio influences and likewise the third concept as realized in recent times is one that is based on realist view of identity. According to this view identity is fundamental element of social liberation and oppression. The book presents these three views of identity and their possible role in obviating and addressing the problems with possible alternatives. If so implemented how they could bring the social individual and eventual leads in the society this book will certainly present a number of new solutions to the existing current problems.

Modernity, the Environment, and the Christian Just War Tradition Mark Douglas, 2022-05-26 Explicates the way the Christian just war tradition shaped modernity and modernity's blindness to the interpenetration of nature and politics. This book sits uniquely at the intersection of just war thinking, environmental history and theological ethics.

Radical Secularization? Stijn Latré, Walter Van Herck, Guido Vanheeswijck, 2016-06-30 What does it mean for a society to be secular? Answering this question from a philosophical angle. Radical Secularization delves into the philosophical presuppositions of secularization. Which cultural evolutions made secularization possible? International scholars from different disciplines assess the answers given by many leading philosophers such as among others L. with Blumenberg and Habermas, Germany; Gauchet and Nancy, France; Taylor and Bellah, North America. They examine the theory that secularization cannot only be regarded as a cultural change that was forced upon religion from an external source e.g. science but should also be considered as a phenomenon triggered by motives internal to religion. If religions are indeed capable of inner transformations the question arises whether religions can persist in the secular societies they inadvertently helped to bring about and how secular societies may accommodate religion.

Suffering and Evil W. S. F. Pickering, Massimo Rosati, 2012 Until recently the subject of suffering and evil was neglected in the sociological world and was almost absent in Durkheimian studies as well. This book aims to fill the gap with particular reference to the Durkheimian tradition by exploring the different meanings that the concepts of evil and suffering have in Durkheim's works together with the general role they play in his sociology. It also examines the meanings and roles of these concepts in relation to suffering and evil in the work of other authors within the group of the *Année sociologique* up until the beginning of World War II. Finally the Durkheimian legacy in its wider aspects is assessed with particular reference to the importance of the Durkheimian categories in understanding and conceptualizing contemporary forms of evil and suffering.

Reforming the Church before Modernity Christopher M. Bellitto, 2016-04-08 **Reforming the Church before Modernity** considers the question of ecclesial reform from late antiquity to the 17th century and tackles this complex question from primarily cultural perspectives rather than the more usual institutional approaches The common themes are social change centres and peripheries of change monasticism and intellectuals and their relationship to reform This innovative approach opens up the question of how religious reform took place and challenges existing ecclesiological models that remains too focussed on structures in a manner artificial for pre modern Europe Several chapters specifically take issue with the problem of what constitutes reform reformations and historians notions of the periodization of reform while in others the relationship between personal transformation and its broader social political or ecclesial context emerges as a significant dynamic Presenting essays from a distinguished international cast of scholars the book makes an important contribution to the debates over ecclesiology and religious reform stimulated by the anniversary of Vatican II

I More than Others Eric R. Severson, 2009-12-14 Fyodor Dostoyevsky expressed a strange and surprising sentiment through one of the characters of *The Brothers Karamazov* A dying young man named Markel declares Every one of us has sinned against all men and I more than others He later says every one of us is answerable for everyone else and for everything Markel s absurd claims have engendered many reflections on the nature of suffering and what it means to be responsible for someone else s suffering The world has no shortage of pain and evil what exactly is the relationship between suffering and responsibility Markel s declarations press forward a question that drives this essay collection how responsible should we consider ourselves for the suffering of the world This volume is a collection of essays that struggle in various ways to understand and respond to several philosophical theological and practical problems In each case the authors grapple with issues surrounding suffering immorality evil exploitation and oppression The contributors share a clear concern for the ways that philosophers and theologians should respond to the problems of suffering and evil They also share a conviction that these remain intense and central problems for philosophy and theology Evil is an obstacle for belief for morality for hospitality and for hope This book struggles to address the particular and strong sense of responsibility that falls on Christians when it comes to understanding and more importantly responding to the problems of suffering and evil in the world

The Palgrave Handbook on the Problem of Animal Suffering in the Philosophy of Religion B. Kyle Keltz, 2025-07-28 Atheists argue that animal pain disease suffering and death cause a problem for theism because they believe that an all knowing all powerful and all good God would not use millions of years of animal suffering just to make a world suitable for humans Animal suffering was not a concern for theism through the medieval period but it has been increasingly discussed in philosophy of religion since modern times and there is especially a large and growing amount of literature on this subject that has been published in the last few decades

This handbook serves as a guide for those interested in the literature on the problem by bringing together experts in the philosophy of religion theology environmental ethics and the philosophy of animal minds It not only presents major formulations of the problem of animal suffering and major theodicies but it also discusses metaethical issues regarding animal suffering the question of animal consciousness and self awareness and their implications for animal suffering and what implications available theodicies might have for animal ethics

Perfect Will Theology J. Martin Bac, 2010-04-16 This book revisits four early modern debates of Reformed theology concerning the will of God Reformed scholasticism advocated a particular relationship between divine knowledge will and power which was altered by Jesuits Remonstrants Descartes and Spinoza In all these debates modal categories like contingency and necessity play a prominent part Therefore these positions are evaluated with the help of modern modal logic including possible world semantics The final part of this study presents a systematic defense of the Reformed position which has been charged of theological determinism and of making God the author of sin In modern terms therefore the relation of divine and human freedom and the problem of evil are discussed

Narrative of Suffering: Meaning and Experience in a Transcultural Approach Lolita Guimarães Guerra, Jose A. Nicdao, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 This volume explores how people come to terms with suffering how they experience the mystery of this human condition and how future studies can shed some further light on the topic Various perspectives are represented here such as the use of narratives to delve into the reality of suffering the emotional trauma that suffering brings the narrative process which manifests phenomenology and intersubjectivity and the emergence of gendered models of suffering These approaches derive from multiple fields of research creating a multi perspectival view of suffering that transcend long held disciplinary boundaries and stimulate a

broader dialogue within contemporary scholarship on suffering related themes Such plurality points out that in the end despite its negative connotations suffering positively affects individuals and society as it enables recognition of common bonds that link all people from all nations and all races Compassion and sympathy leads to a transcendence that this book seeks to highlight

Reasonable Faith for a Post-secular Age William Greenway, 2020 Our global community desperately needs overt awakening to an age of reason and faith Reasonable Faith for a Post Secular Age meets this need by interpreting faith not in terms of belief in propositions but in terms of living surrender to having been seized by agape for every Face including one's own Virtually all faith traditions from Buddhism to Humanism to Wiccan are rooted in agape and therefore share considerable spiritual and ethical common ground a truth long veiled In contrast to ethically feckless secular rationality over which a devastating global social Darwinism currently runs roughshod faith qua living surrender to agape grounds moral realism awakens us to love for all creatures and inspires struggles for justice Inspired by the philosophy of Emmanuel Levinas and Christian spirituality Greenway engages on the one hand intellectuals like Stanley Hauerwas Richard Rorty Gayatri Chakravorty Spivak Jeffery Stout Charles Taylor and Bernard Williams and on the other contemporary debates over consciousness free will evil and metaethics He details the character of secular rationality's devastating scission from moral reality and clarifies the promise of understanding faith and spirituality in terms of agape

The History of Evil in the Early Twentieth Century Victoria Harrison, 2018-06-14 The fifth volume of The History of Evil covers the twentieth century from 1900 through 1950 The period saw the maturation of intellectual movements such as Pragmatism and Phenomenology and the full emergence of several new academic disciplines all these provided novel intellectual tools that were used to shed light on a human capacity for evil that was becoming increasingly hard to ignore An underlying theme of this volume is the effort to reconstruct an understanding of human nature after confidence in its intrinsic goodness and moral character had been shaken by world events The chapters in this volume cover globally relevant topics such as education propaganda power oppression and genocide and include perspectives on evil drawn from across the world Theological and atheistic responses to evil are also examined in the volume This outstanding treatment of approaches to evil at a determinative period of modernity will appeal to those with interests in the intellectual history of the era as well as to those with interests in the political philosophical and theological movements that matured within it

Evil in the Christian Fantasy of C.S. Lewis and J.K. Rowling Sarah Fiona Winters, 2024-10-29 Evil in the Christian Fantasy of C S Lewis and J K Rowling From the White Witch to the Dark Mark argues that The Chronicles of Narnia and Harry Potter series are essential reading for anyone committed to understanding the cultural constructions of evil in twentieth century Europe and the strategies of resistance available to different types of

readers in response to those evils This book also suggests that while the construction of evil in both series can and should be approached through a secular lens it cannot be fully understood without a complementary understanding of religious transcendence Sarah Fiona Winters explores the tension between theological evil on the one hand and naturalist and politico historical representations of evil on the other and the tension within both the explicitly religious and the apparently secular between dualism the belief that good and evil both exist and are locked in combat and the belief in orthodox Christianity that evil is nothing She examines the developments in theories about evil that arose from the experience of the Second World War particularly those of Hannah Arendt and Stanley Milgram in 1963 arguing that Lewis presented obedience as a strategy against evil because he wrote before their work while Rowling presents disobedience as a strategy against evil as she wrote after their work

Reinhold Niebuhr in Theory and Practice Peter B. Josephson, R. Ward Holder, 2018-12-05 American public life is gripped by a tumult that it has not experienced in at least half a century Resentment distrust despair fear envy and outrage are the passions of the day Yet it was not long ago that political scientists and theologians could speak of a Niebuhr renaissance marked by an appreciation of moral paradox ethical nuance and a recognition of the irony of American history American political leaders from Barack Obama and Hillary Clinton to George Bush and John McCain referenced Reinhold Niebuhr as an important influence on their political understandings Columnists like David Brooks commented on the political condition of contemporary America and scholars from Gary Dorrien and Daniel Rice to Richard Crouter developed academic accounts of Niebuhr's political realism From an insistence on political purity to a wariness of international institutions and the claims of expertise to a rejection of whole categories of public goods it would be difficult to find a more significant shift from the principles that shaped statecraft and public policy during Niebuhr's prime to those that are foundational in the age of Trump Reinhold Niebuhr in Theory and Practice Christian Realism and Democracy in America in the Twenty First Century explains the collapse of the Niebuhrian renaissance in public life and the ascendance of the children of light and the children of darkness in the 2016 election Our focus is Niebuhr himself and what the encounter between his own theology and his practical political experience might reveal in our contemporary situation Niebuhr tells us that he does not offer precise policy prescriptions But Niebuhr was a prolific author and his works offer insights both into what realistic and Christian public policies would look like and perhaps more importantly into how citizens should think for themselves about the political challenges of our times Our aim then is to reassert the possibility of a distinctly Niebuhrian public intellectualism and a distinctly Niebuhrian political practice in the wake of the 2016 election

Social Suffering and Political Confession Feiyu Sun, 2013 The volume examines one significant political phenomenon Suku in revolutionary China through a matrix of western social theory Freud Marcuse Arendt and Ricoeur Suku is the practice of confessing individual suffering in a political context and in a collective public forum By interpreting Suku from the joint perspectives of political identity and subjective psychological identity the book presents a new paradigm for discussing social suffering and collective confession in a context

of revolutionary change in China's modern history P 4 of cover **Evil and Creation** David Luy, Matthew Levering, George Kalantzis, 2020-12-02 My help comes from the Lord maker of heaven and earth Evil is an intruder upon a world created by God and declared good Scripture emphasizes this laments are regularly juxtaposed with declarations of God as creator But evil is not merely a problem for the doctrine of creation Rather the doctrine of creation provides a hopeful response to evil In **Evil and Creation** David J Luy Matthew Levering and George Kalantzis collect essays investigating how the doctrine of creation relates to moral and physical evil Essayists pursue philosophical and theological analyses of evil rather than neatly solving the problem of evil itself Including contributions from Constantine Campbell Paul Blowers and Paul Gavrilyuk this volume draws upon biblical and patristic voices to produce constructive theology considering topics ranging from vanity in Ecclesiastes and its patristic interpreters to animal suffering Readers will gain a broader appreciation of evil and how to faithfully respond to it as well as a renewed hope in God as creator and judge
