Modernización Estatal Y Respuesta Obrera Historia De Una Derrota:

Modernización estatal y respuesta obrera Luis H. Méndez Berrueta, José Othón Quiroz Trejo, 1994 **Labor Unions, Partisan Coalitions, and Market Reforms in Latin America** Maria Victoria Murillo, 2001-05-14 Why labor unions resisted and submitted during the economic crises of the 1990s El desafío de la reforma institucional en México, 1996 En plena crisis institucional y económica de México once académicos mexicanos y estadounidenses estudian en nueve ensayos la evolución política reciente de los sectores más importantes del país obreros campesinos empresarios militares y eclesásticos y abordan los desafíos que tienen ante sí la reforma institucional la reforma electoral la reforma educativa y el conflicto entre neoliberalismo y servicios sociales **Mexico's Politics and Society in Transition** Joseph S. Tulchin, Andrew D. Selee, 2003 An exploration of the interrelated trends of Mexico's transitional politics and society Offering perspectives on the problems on the Mexican agenda the authors discuss the politics of change the challenges of social development and how to build a mutually beneficial US Mexico relationship **Social Movements and Economic Transition** Heather L. Williams, 2001-01-15 This book examines patterns of political mobilization among groups in Mexico whose livelihoods have been threatened by trade opening fiscal retrenchment and market liberalization Using data from case studies of a worker based movement and a farmer based movement Williams argues that economic transition in altering modes of state society bargaining has shifted the locus of contention and has altered the form and shape of distributive protest Williams further argues that social movements make strategic choices in their use of resources in order to widen their constituencies and extend the length of their insurgencies The Politics of Labor in a Global Age Christopher Candland, Rudra Sil, 2001-09-20 The Politics of Labor in a Global Age is one of the first works to analyse and compare recent shifts in patterns of industrial relations across late industrializing and post socialist economies The volume features original and timely essays on labor relations at national local and workplace levels as economic and political actors cope with the similar challenges associated with economic adjustment measures and the impact of globalization The authors reveal that while globalization has threatened the position of organized labor and prompted business and state elites to accommodate greater labor market flexibility the legacies of past institutions remain evident in distinctive trends in labor politics within and across late industrializing and post socialist settings The comparisons suggest that globalization is best understood not as a source of convergence but as a set of common pressures that are mediated by specific historical inheritances that spur varied responses on the part of industrial relations actors and that facilitate quite diverse institutional outcomes **The Challenge of Institutional Reform in Mexico** Riordan Roett, 1995 The Salinas administration's reforms in Mexico generated widespread attention and questions This book addresses those questions examining the impact of the recent reforms on the state's relations with key social and political actors and assessing reform initiatives **El Congreso de Panamá de 1826 y otros ensayos de integración latinoamericana en el siglo XIX** Germán A. de la Reza, 2006 **Redeploying the State** H.

Aidi,2008-12-22 This study offers a comparative analysis of Latin American and Middle Eastern corporatism by looking at Egypt and Mexico's differing experiences with privatization and showing that how the working class was attached to the regime during the period of state building shapes leaders' institutional options and capabilities for market reform **Allies Across the Border** Dale A. Hathaway,2000 North American workers find their jobs more pressured and precarious but turn on the television and find pundits praising the glories of the global economy Their counterparts south of the Rio Grande find themselves forced into the arms of global corporations that barely pay them their daily bread for work in dangerous plants that refuse to observe minimal safety or environmental standards No wonder inequality is increasing in both countries Although North Americans are told that Mexicans are stealing their jobs workers can find allies across the border Like the U S labor organizers in the early part of the 20th century who created the C I O in response to A F L corruption Mexico's F A T Frente Autentico del Trabajo or Authentic Workers Front is building a historic movement to create an alternative to Mexico's notoriously co-opted labor unions and collusion with government international capital Allies Across the Border the first book on F A T analyzes this important group in the context of the globalization of capital and the necessary globalization of labor struggle Dale Hathaway shows how F A T's dedication to worker education and self management union independence and community development are key not only in Mexico but worldwide Allies Across the Border includes detailed descriptions of F A T's growth from its liberation theology origins through the Worker's Uprising and student movements of the late 60s Mexico's debt crisis of the 70s and 80s and F A T's work with women's groups peasants and consumer co-ops in the 90s Hathaway's Allies Across the Border shows how F A T's dedication to worker's dignity offers lessons for North American workers who are fighting to keep corporations from pushing for greater exploitation of workers and environment in their home countries and worldwide Dale Hathaway is Associate Professor of Political Science at Butler University in Indianapolis
