Internal Migration During Modernization in Late Nineteenth-Century Russia Barbara A. Anderson,2014-07-14 To understand why people migrate during periods of modernization Barbara Anderson contends that one must study the place of origin since the persons at the origin are the potential migrant population Using data from the 1897 Imperial Russian Census the author examines two types of migration that to an already settled relatively modern area such as the major cities and that to a sparsely populated relatively traditional area such as the agricultural frontier Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Modernization of Inner Asia** Cyril E. Black,Louis Dupree,Elizabeth Endicott-West,Daniel C.

Matuszewski,Eden Naby,Arthur N. Waldron,2016-09-16 Inner Asia in premodern times the little known land of nomads and semi nomads has moved to the world s front page in the 20th century as the complex struggles for the future of Afghanistan Soviet Central Asia Tibet and other territories make clear But because Inner Asia as a whole is divided among several states politically and among area specialists academically broad perspectives on recent events are difficult to find This work treats the region as a single unit providing both an account of the region s past and an analysis of its present and its prospects in a thematic rather than a strictly country by country manner The Amish Struggle with Modernity Donald B. Kraybill,Marc Alan Olshan,1994 A distinctive American subculture responds to the forces of social change A Singular Modernity Fredric Jameson,2014-06-17 The concepts of modernity and modernism are amongst the most controversial and vigorously debated in contemporary philosophy and cultural theory In this intervention Fredric Jameson perhaps the most influential and persuasive theorist of postmodernity excavates and explores these notions in a fresh and illuminating manner The extraordinary revival of discussions of modernity as well as of new theories of artistic modernism demands attention in its own right It seems clear that the provisional disappearance of alternatives to capitalism plays its part in the universal attempt to revive modernity as a social ideal Yet the paradoxes of the concept illustrate its legitimate history and suggest some rules for avoiding its misuse as well In this major interpretation of the problematic Jameson concludes that both concepts are tainted but nonetheless yield clues as to the nature of the phenomena they purported to theorize His judicious and vigilant probing of both terms which can probably not be banished at this late date helps us clarify our present political and artistic situations *Modernizing China* A. Doak Barnett,2019-03-05 Since the death of Mao China has entered a new period in its development Turning away from the all encompassing emphasis on revolutionary struggle and ideological

transformation that characterized the last years of the Maoist era China's leaders under Deng Xiaoping have initiated dramatic new reform and development policies In original essays the contributors all senior specialists on contemporary China analyze the reasons for the new policies the nature and impact of the changes now occurring and the prospects for a continuation of these policies in the future Specifically they examine the Chinese polity as a consultative authoritarian system the far-reaching changes in China's agriculture important shifts in foreign economic relations the gradual modernization policy pursued by its military leaders the relaxation of controls on cultural life and the possibility that current social policies may well increase equality rather than inequality in Chinese society The authors conclude that it is too early to judge the eventual long term outcome of current reforms which they believe grew out of the political crises and chronic economic problems that afflicted China in the late 1960s and early 1970s Although they see some opposition and built in limits to reform on balance they foresee strong support for continued reform and believe it will be difficult for future leaders to reverse course

Modernizing Muscovy Jarmo Kotilaine, Marshall Poe, 2004-08-02 First Published in 2004 Modernizing Muscovy is a comprehensive account of seventeenth century Russian history It rejects the traditional interpretation of this era as the twilight of the Russian Middle Ages By revealing important instances of dynamic change in the late Muscovite state economy and society the book demonstrates the crucial importance of pre Petrine reform in Russia's transition to one of the great powers of the world The book's broad scope makes it a veritable encyclopaedia of late Muscovite history It both synthesizes previous scholarship and breaks new ground in many important areas

Secularization Steve Bruce, 2013-01-11 The decline in power popularity and prestige of religion across the modern world is not a short term or localized trend nor is it an accident It is a consequence of subtle but powerful features of modernization Renowned sociologist Steve Bruce elaborates the secularization paradigm and defends it against a wide variety of recent attempts at rebuttal and refutation Using the best available statistical and qualitative evidence Bruce considers the implications for the

Max Weber in Asian Studies Andreas E. Buss, 2022-11-07 **Project Independence Blueprint** United States. Federal Energy Administration, 1974 *Rural Health Care Delivery* Yi Hu, 2013-12-03 Diseases are everyday ordinary occurrences intimately related to people's daily lives However as the metaphor of the Sick Man of East Asia emerged against the backdrop of a weak modern China health care and the curing of diseases were turned into grand state politics with far reaching implications This book starting with the argument for diseases being metaphors describes and interprets such incidents in China's history as the Abolishment of Traditional Chinese Medicine the Patriotic Hygiene Campaign and the Cooperative Medical Services In an effort to reveal the internal logic of disease politics in the transformation of the state people relationship the book analyzes key aspects including the politicization and inclusion of diseases in state governance the double disciplining of hygiene legitimacy construction of the state the remaking of the nationals and the expansion of the publicness of the state The book argues that disease politics in modern China has developed following the path from

nationals to the people and then to citizens or from crisis politics and mobilization politics to life politics In addition a marked change has occurred in China s state building increasingly standard rationalized and institutionalized means have been employed while the non standard means such as large scale mobilization and ideological coercion had been historically used in China

The Vocation of Reason H. T. Wilson,2004 This book addresses and at the same time reflects the impact of Max Weber on both the social sciences and on critical theory s critique of the social sciences Weber s conception of vocation is a guiding thread unifying concerns about the nature scope and limits of theoretical thinking among social scientists whether supportive or critical of Weber Not surprisingly the source of many of these concerns whether intended or unintended biographical or situational is the ambiguous legacy of Weber himself Wilson s interrogation of Weber s thought in articles and essays over the past 30 years supplemented by Kemple s insights makes a strong case for the claim that we do indeed live in the age of Weber

Russia in the Early Modern World Donald Ostrowski,2022-01-25 A fundamental problem in studying early modern Russian history is determining Russia s historical development in relationship to the rest of the world The focus throughout this book is on the continuity of Russian policies during the early modern period 1450 1800 and that those policies coincided with those of other successful contemporary Eurasian polities The continuities occurred in the midst of constant change but neither one nor the other continuities or changes alone can account for Russia s success Instead Russian rulers from Ivan III to Catherine II with their hub advisors managed to sustain a balance between the two During the early modern period these Russian rulers invited into the country foreign experts to facilitate the transfer of technology and know how mostly from Europe but also from Asia In this respect they were willing to look abroad for solutions to domestic problems Russia looked westward for military weaponry and techniques at the same time it was expanding eastward into the Eurasian heartland The ruling elite and by extension the entire ruling class worked in cooperation with the ruler to implement policies The Church played an active role in supporting the government and in seeking to eliminate opposition to the government
