Ideology and Rationality in the Soviet Model Kristian Gerner, Stefan Hedlund, 2022-02-13 First published in 1989 Ideology and Rationality in the Soviet Model assumes that since the October Revolution the development of the Soviet Union has essentially been a process of trial and error Economic rationality has been sacrificed to political expedients and the cultural sphere has been put to use as a legitimating and rationalizing device This book analyses the internal logic of this process from the 1917 Bolshevik Revolution to Gorbachev's revolution from above including coverage of the Stalin Khrushchev and Brezhnev eras The book focuses on the structural determinants of the Soviet Model thus seeking to reveal the specific rationalities that characterizes Soviet man Its conclusion casts serious doubt on the likelihood of new policies defeating seven decades of Bolshevik rule and social indoctrination It will be of interest to students of economics political science and history

The Bread of Affliction William Moskoff, 2002-08-08 This book tells how the Soviet Union fed itself after the invasion by the Germans during World War II The author argues that central planning became much less important in

feeding the population and civilians were thereby forced to become considerably more self reliant in feeding themselves A rationing system was instituted soon after the war began but quickly became irrelevant because of the chronic food shortages The breakdown in central supplies of food was accompanied by the diminished importance of the ruble which in many places was replaced by bread and clothing as the medium of exchange Although the Soviet army was given high precedence over civilians the author also shows that the population living under German occupation was much worse off than were Soviet civilians living in the rear In addition to extensive use of American and German archives from the war period the author interviewed more than thirty Soviet emigr s who survived the war Immigration to Israel Elazer

Leshem,2017-09-04 This eighth volume in the Studies of Israeli Society series presents a broad array of topics related to the sociology of immigration to Israel The focus is on immigration and migration during the 1980s and 1990s The chapters were selected from a list of approximately 450 articles on the subject by Israeli sociologists The book covers such issues as migrants in the occupational structure migration and health formal and informal mechanisms of integration ethnic identities and processes of integration and processes of migration and their implications Immigration to Israel opens with two papers written specifically for this volume The first is a theoretical historical chapter by the editors They discuss the role and contribution of Israeli sociologists to the ongoing literature of migration The second by Sergio DellaPergola provides a historical and comparative perspective of the underlying demographic characteristics of migration to Israel in the context of global Jewish migration processes Other chapters and contributors include New Entrepreneurs and Entrepreneurial Aspirations among Immigrants from the Former USSR in Israel by M Lerner and Y Hendeles New Immigrants as a Special Group in the Israeli Armed Forces by V Azarya and B Kimmerling Iranian Ethnicity in Israel by J L Goldstein Ethiopian Immigrants in Israel by S Kaplan and C Rosen The Attitudes of Israeli Youth Toward Inter ethnic and Intra ethnic Marriage by R Shachar and Jewish Immigrants from Israel in the United States by Z Eisenbach Immigration to Israel Sociological Perspectives concludes with a selected bibliography This volume contains a wealth of information and will be important to sociologists historians scholars of Israeli culture and ethnicity specialists **Accounting for War** Mark

Harrison,2002-07-18 In this book Mark Harrison rebuilds and analyses the Soviet economy s wartime statistical record examining its prewar size and composition and wartime changes in GNP employment the defence burden and the role of foreign aid Complementing classic long run growth studies the book compares the Soviet experience with that of other great powers It emphasises the severity of current costs and capital losses arising from the war which had a negative effect on GNP that persisted well after the end of the war The results are based on a comprehensive analysis of hitherto closed official documents shedding light on the dimensions of the Soviet war effort the comparative economics of the war and its long term impact on the Soviet economy **Understanding Soviet Society** Michael Paul Sacks,Jerry G. Pankhurst,2013-10-15 First Published in 1988 Understanding Soviet Society has grown out of the authors experience as sociologists researching and

teaching about the Soviet Union Meant initially as an update to Contemporary Soviet Society Sociological Perspectives from 1980 this became a new volume because of the addition of six new authors but also because of the major changes occurring in the USSR today that in many ways necessitated new approaches It examines the fundamental institutions of Soviet society from work and social welfare to politics and the Party in order to provide an objective understanding of the social underpinnings of the Soviet System *Women and Gender in Central and Eastern Europe, Russia, and Eurasia* Mary Zirin, Irina Livezeanu, Christine D. The Hungarian Economic Reforms 1953-1988 Ivan T. Berend, 1990-05-25

Professor Berend presents a comprehensive inside account of Hungary's economic reforms since the 1950s Working from Communist Party archives which have hitherto partially remained closed to scholars Berend situates the history of these economic reforms within their political context looking in particular at the role of the Soviet Union He examines the theoretical background to reform the obstacles that arose during implementation and the gradual realisation that minor reforms of the old system could no longer work *The Hungarian Economic Reforms 1953 1988* comes at a time when many centrally planned economies are examining their performance and structure and seeking suitable forms of change The Hungarian reforms have attracted those countries wishing to rid themselves of their Stalinist command economies Thus the book indirectly sheds light upon Chinese economic reforms and on Gorbachev's Soviet perestroika It will be of interest to specialists and students of East European studies with special reference to the EMEA planned economies and economic reform
