Modernization Democracy And Islam:

Modernization, Democracy, and Islam Shireen T. Hunter, Huma Malick, 2005-01-30 The Islamic world has a poor record in terms of modernization and democracy However the source of this situation is not religion but factors including colonialism international economic and trading systems and the role of the military among others Recognizing these themes allows the consideration of possible remedies for change in the Muslim world The Islamic world has a poor record in terms of modernization and democracy However the source of this situation is not religion Islam but rather factors including colonialism international economic and trading systems and the role of the military among others Recognizing these themes allows the consideration of possible remedies for change in the Muslim world The distinguished scholars contributing to this volume identify key factors some intrinsic to the Muslim world and some external that contribute to Islam's current predicament Contrary to much prevailing thought and opinion Islam is neither monolithic nor impervious to change It is neither anti democratic nor inherently anti modernization Islam itself as this book shows is not the root cause of the malaise of the Islamic world

The Third Wave Samuel P. Huntington, 1993-01-01 Between 1974 and 1990 more than thirty countries in southern Europe Latin America East Asia and Eastern Europe shifted from authoritarian to democratic systems of government This global democratic revolution is probably the most important political trend in the late twentieth century In The Third Wave Samuel P Huntington analyzes the causes and nature of these democratic transitions evaluates the prospects for stability of the new democracies and explores the possibility of more countries becoming democratic The recent transitions he argues are the third major wave of democratization in the modern world Each of the two previous waves was followed by a reverse wave in which some countries shifted back to authoritarian government Using concrete examples empirical evidence and insightful analysis Huntington provides neither a theory nor a history of the third wave but an explanation of why and how it occurred Factors responsible for the democratic trend include the legitimacy dilemmas of authoritarian regimes economic and social development the changed role of the Catholic Church the impact of the United States the European Community and the Soviet Union and the snowballing phenomenon change in one country stimulating change in others Five key elite groups within and outside the nondemocratic regime played roles in shaping the various ways democratization occurred Compromise was key to all democratizations and elections and nonviolent tactics also were central New democracies must

deal with the torturer problem and the praetorian problem and attempt to develop democratic values and processes

Disillusionment with democracy Huntington argues is necessary to consolidating democracy He concludes the book with an analysis of the political economic and cultural factors that will decide whether or not the third wave continues Several Guidelines for Democratizers offer specific practical suggestions for initiating and carrying out reform Huntington s emphasis on practical application makes this book a valuable tool for anyone engaged in the democratization process At this volatile time in history Huntington s assessment of the processes of democratization is indispensable to understanding the future of democracy in the world *The Many Faces of Political Islam, Second Edition* Mohammed Ayoob, Danielle Nicole Lussier, 2020-01-03 Analysts and pundits from across the American political spectrum describe Islamic fundamentalism as one of the greatest threats to modern Western style democracy Yet very few non Muslims would be able to venture an accurate definition of political Islam Fully revised and updated *The Many Faces of Political Islam* thoroughly analyzes the many facets of this political ideology and shows its impact on global relations **The Penguin Dictionary of Islam** Azim Nanji, 2008-04-24 Islam today is a truly global faith yet it remains somewhat of an enigma to many of us Each and every day our newspapers are saturated with references to Islam Quran Taliban Hijab Fatwa Allah Sunni Jihad Shia the list goes on But how much do we really understand Are we in fact misunderstanding *The Penguin Dictionary of Islam* provides complete impartial answers It includes extensive coverage of the historical formations of the worldwide Muslim community and highlights key modern Muslim figures and events Understanding Islam is vital to understanding our world and this text is the definitive authority designed for both general and academic readers Islam and Human Rights Kirk W. Larsen T. Hunter, Huma Malik, 2015-05-26 In the last few years issues related to human rights including encouraging the democratization of Muslim societies from the Middle East to Southeast Asia have acquired great importance in shaping the character of U S Muslim relations and U S policy toward Muslim countries An important impetus behind this development were the tragic events of 9 11 which demonstrated the destructive potential of militant groups that use a distorted interpretation of Islam as justification for their actions These events also led to a greater realization by the United States and the West that a lack of democracy and lack of respect for human rights have been contributory factors to the rise of militant Islam Consequently in its approach toward the Muslim world the United States has emphasized the themes of human rights and democracy Within the Islamic world too both secular and moderate Islamists have begun focusing on issues related to human rights Although many conservative Muslims believe that Islam is incompatible with Western notions of democracy and human rights reformist Muslim thinkers and activists maintain that a proper reading of Islamic injunctions and the ethical values underpinning those injunctions shows there is no such incompatibility Complicating the debate is the fact that many Muslims secular as well as conservative and reformist doubt the seriousness of the U S commitment to the cause of human rights and democracy in the Muslim world believing that the United States applies human rights standards selectively to suit

its strategic and economic interests Irrespective of the validity of these charges they are part of the context of the U S Muslim dialogue on human rights And it is this complex dialogue that this volume seeks to advance **The Political Economy of Iran** Farhad Gohardani,Zahra Tizro,2019-03-07 This study entails a theoretical reading of the Iranian modern history and follows an interdisciplinary agenda at the intersection of philosophy psychoanalysis economics and politics and intends to offer a novel framework for the analysis of socio economic development in Iran in the modern era A brief review of Iranian modern history from the Constitutional Revolution to the Oil Nationalization Movement the 1979 Islamic Revolution and the recent Reformist and Green Movements demonstrates that Iranian people travelled full circle This historical experience of socio economic development revolving around the bitter question of Why are we backward and its manifestation in perpetual socio political instability and violence is the subject matter of this study Michel Foucault s conceived relation between the production of truth and production of wealth captures the essence of hypothesis offered in this study Foucault 1980 93 94 maintains that In the last analysis we must produce truth as we must produce wealth indeed we must produce truth in order to produce wealth in the first place Based on a hybrid methodology combining hermeneutics of understanding and hermeneutics of suspicion this monograph proposes that the failure to produce wealth has had particular roots in the failure in the production of truth and trust At the heart of the proposed theoretical model is the following formula the Iranian subject s confused preference structure culminates in the formation of unstable coalitions which in turn leads to institutional failure creating a chaotic social order and a turbulent history as experienced by the Iranian nation in the modern era As such the society oscillates between the chaotic states of socio political anarchy emanating from irreconcilable differences between and within social assemblages and their affiliated hybrid forms of regimes of truth in the springs of freedom and repressive states of order in the winters of discontent Each time after the experience of chaos the order is restored based on the emergence of a final arbiter Iranian leviathan as the evolved coping strategy for achieving conflict resolution This highly volatile truth cycle produces the experience of socio economic backwardness and violence The explanatory power of the theoretical framework offered in the study exploring the relation between the production of truth trust and wealth is demonstrated via providing historical examples from strong events of Iranian modern history The significant policy implications of the model are explored This monograph will appeal to researchers scholars graduate students policy makers and anyone interested in the Middle Eastern politics Iran development studies and political economy
