China Developing George Fusun Ling, 2008 This book deals with the intellectual foundation of the sociopolitical economic and legal systems of developing countries using a methodological approach It calls for not only the need to search for a country's cultural identity but also a need to analyze the prevalent concepts important to a contemporary modern society such as the respect for an individual human rights freedom equality democracy and the universal respect for law Based on the author's lifelong reflection on why some of these deeply treasured Western values and institutions have not been useful in developing democracy in Asia it examines which values are applicable and which are not to Asian emerging societies Using China's historical and contemporary attempts in modernization and development the author suggests that all mighty rivers are confluences of multiple tributaries Likewise an emerging society has to recognize that the dynamism of its history would

also be derived from a confluence of multiple cultural traditions As a valuable resource for decision makers of developing countries this book will help to shed some light on the potential pitfalls and fallacies they may encounter in their search for a cultural identity and values to subscribe to among the many that are circulating in our globalized world Sample Chapter s Chapter 1 Introduction 164 KB Contents Respect for the Individual Person and Individualism Human Rights and Individual Rights Freedom from Want and Freedom of Choice Equality and Respect for Differences Democracy and the Democratic Process Law and Order Readership Policy makers of developing countries students undergraduates and graduates teachers and all intellectuals concerned with the development of their own countries general readership [Musing with Confucius and Paul](#) K. K. Yeo,2008-07-20 The book is a manifesto or apologia for Chinese Christians It seeks to articulate how it is possible to maintain a Chinese identity and a Christian identity at the same time without capitulating to some western or other cultural model of Christian identity To be a Chinese Christian is to adopt a distinctive unique identity that owes much to both traditions but is sui generis Providing great resources for the construction of a Chinese Christian theology Confucius and Paul converge across a surprisingly broad front Yet the Christ of the Cross completes or extends what is merely implicit or absent in Confucius and Confucius amplifies various elements of Christian faith e g community virtues that are underplayed in western Christianity The Christ of God as found in Paul s letter to the Galatians brings Confucian ethics in the Analects to its fulfillment while protecting the church from the aberrations of Chinese history and while protecting China against the aberrations of Christian history in the west Chinese Christianity has something to give the church that needs to be heard China can develop its distinctive vision of Christianity for the sake of the church universal Chinese Christianity will have its global mission if it can find its own authentic Chinese Christian identity Insofar as that identity brings the best of the Confucian tradition into the Christian story it will help revivify global Christianity [The Pursuit & Acquisition of Health & Wealth](#) Gerard Jacobs,2012-04-30 The pursuit and acquisition of health and wealth are part of the worldview that drives Singaporean society It encompasses a strong work ethic in the pursuit to modernise and be a key player in the global economy Health and wealth are defined in terms of an individuals well being in the sense of good health and a continued assurance of material provision and security This worldview stems from a syncretism with non Christian religions that have reconceptualised themselves with the socioeconomic and political goals of Singaporean society Subsequently they continue to be the authentic expression of the noblest longings of people that have become symbiotic with their daily expressions shaping their history and culture The book attempts to show that while Pentecostal and Charismatic Christianity have played a significant role in the growth of contemporary Singaporean churches it has inadvertently presented a gospel that appeals to the deeply embedded dominant religious secular worldview of its society in the context of health and wealth

Is Confucianism a religion If so why do most Chinese think it isn t From ancient Confucian temples to nineteenth century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade this book traces the birth and growth of the idea of Confucianism as a world religion The book begins at Oxford in the late nineteenth century when Friedrich Max M ller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world not only in the West but also in China
