Modest Gifts:

Gifts Richard Hyland, 2009-06-05 *Gifts A Study in Comparative Law* is the first broad based study of the law governing the giving and revocation of gifts ever attempted Gift giving is everywhere governed by social and customary norms before it encounters the law and the giving of gifts takes place largely outside of the marketplace As a result of these two characteristics the law of gifts provides an optimal lens through which to examine how different legal systems engage with social practice The law of gifts is well developed both in the civil and the common laws Richard Hyland's study provides an excellent view of the ways in which different civil and common law jurisdictions confront common issues The legal systems discussed include principally in the common law those of Great Britain the United States and India and in the civil law the private law systems of Belgium and France Germany Italy and Spain Professor Hyland also serves a critique of the dominant method in the field which is a form of functionalism based on what is called the *praesumptio similitudinis* namely the axiom that once legal doctrine is stripped away developed legal systems tend to reach similar practical results His study demonstrates to the contrary that legal systems actually differ not only in their approach and conceptual structure but just as much in the results

Every Gift Matters Carrie Morgridge, 2015-05-05 Charitable giving is on the rise in America Despite the lingering effects of the economic downturn Americans continue to give generously of their time talent and money more than 335 billion in 2013 a 4.4% increase from 2011 What's more the bulk of that charitable giving 72% came not from large foundations or corporations but from individuals making small gifts For those with passion for a cause and a generous spirit it's vitally important that they leverage their gift in the right way in order to have the greatest impact possible In her first book *EVERY GIFT MATTERS* Greenleaf May 2015 Carrie Morgridge shares inspiring stories of powerful gifts in action showing readers how to turn the act of giving into a vehicle for positive change Drawing on 15 years of experience supporting causes that align with her passions through gifts Morgridge demonstrates how a smart strategy high expectations a deep network and hands on personal involvement will ensure that one's gift is compounded over time to have the biggest impact possible Each person and every gift can make a difference writes Morgridge Whoever you are no matter how much or how little you have your gift matters The smallest seemingly unimportant donation can transform a life And the best news is that giving transforms two lives the one who receives and the one who gives Through her role as Vice President of The Morgridge Family Foundation Morgridge has learned what works and what doesn't when it comes to giving She argues that in order to ensure meaningful and lasting change a gift must be more than simply a grant of money The giver must assess whether the program is the right fit work hand in hand with the key leaders on strategy develop a plan for making the endeavor sustainable and ensure that their gift can be leveraged to have a bigger impact on the community By sharing real life stories of how this hands on approach to giving has transformed lives including her own Morgridge inspires others to believe that they can also make a difference in their community no matter the size of their gift

A Comprehensive Guide to Child Psychotherapy and Counseling Christiane Brems, 2008-03-19 Christiane Brems an experienced clinician supervisor and educator presents a metatheoretical yet practical guide to working with children ages 3 to 12 years She draws heavily on developmental interpersonal family systems and self psychological schools of thought and integrates the core components of all of these approaches in a clear and concise manner She stresses the need for intensive assessment to precede conceptualization and treatment planning so that treatment techniques are dictated by the needs of each child and family Brems has contoured the third edition to meet the practical needs and expectations of students and practitioners Divided among four sections the chapters follow the logical development of clinicians mirroring the natural flow of work with children from the practitioners self exploration to learning about special aspects of children such as diversity and development to awareness about the special needs and demands of children as related to environmental legal and ethical

issues Brems prepares clinicians to discover their own personal traits that may facilitate or hinder their work with children She walks child therapists and counselors through the initial stages of intake assessment and conceptualization The material on assessment instruments is thoroughly updated discussions refer to the latest versions of instruments and if new instruments emerged that meet one of the purposes deemed essential to child treatment they are included The text contains case examples each illustrating a specific therapeutic technique *Life After Why* Sheri Entz Blackmon,2022-04-04 This book is about overcoming obstacles When a life disrupter strikes it s common to search for reasons and formulas to obtain control of the uncontrollable The author is convinced that a satisfying life lies on the other side of asking why a life at the intersection of sorrow and joy beyond the need to control outcomes A recent cancer recurrence propelled Sheri Blackmon into surgical failures setbacks and a search for a way forward Her disrupter evoked dormant childhood trauma that obscured and complicated the process of moving toward acceptance This memoir is not only a cancer story but also a story of a girl torn between two continents as a missionary child whose mother is a Holocaust survivor It explores universal themes of loss abuse control dislocation being an outsider and finding one s voice It offers an honest Christian reflection on discovering one s footing and purpose within a framework of five discernible steps toward acceptance While presented in five steps acceptance of what is lost is not a linear process with a beginning and an end but a lifelong engagement of the heart

Posol'stvo (U.S.),1949 The Power of Gifts Felicity Heal,2014-10-23 Gifts are always with us we use them positively to display affection and show gratitude for favours we suspect that others give and accept them as douceurs and bribes The gift also performed these roles in early modern English culture and assumed a more significant role because networks of informal support and patronage were central to social and political behaviour Favours and their proper acknowledgement were preoccupations of the age of Erasmus Shakespeare and Hobbes As in modern society giving and receiving was complex and full of the potential for social damage Almost nothing men of the Renaissance learned from that great classical guide to morality Lucius Annaeus Seneca is more disgraceful than the fact that we do not know how either to give or receive benefits The Power of Gifts is about those gifts and benefits what they were and how they were offered and received in the sixteenth and seventeenth centuries It shows that the mode of giving as well as what was given was crucial to social bonding and political success The volume moves from a general consideration of the nature of the gift to an exploration of the politics of giving In the latter chapters some of the well known rituals of English court life the New Year ceremony royal progresses diplomatic missions are viewed through the prism of gift exchange Gifts to monarchs or their ministers could focus attention on the donor those from the crown could offer some assurance of favour These fundamentals remained the same throughout the century and a half before the Civil War but the attitude of individual monarchs altered specific behaviour Elizabeth expected to be wooed with gifts and dispensed benefits largely for service rendered James I modelled giving as the largesse of the Renaissance prince Charles I s gift exchanges focused on the art collecting of his coterie And always in both politics and the law courts there was the danger that gifts would be corroded morphing from acceptable behaviour into bribes and corruption The Power of Gifts explores prescriptive literature pamphlets correspondence legal cases and financial records to illuminate social attitudes and behaviour through a rich series of examples and case studies USSR Information Bulletin ,1949
