Church and State Education in Revolutionary Mexico City Patience A. Schell, 2023-01-31 Revolution in Mexico sought to subordinate church to state and push the church out of public life Nevertheless state and church shared a concern for the nation's social problems Until the breakdown of church state cooperation in 1926 they ignored the political chasm separating them to address those problems through education in order to instill in citizens a new sense of patriotism a strong work ethic and adherence to traditional gender roles This book examines primary vocational private and parochial education in Mexico City from 1917 to 1926 and shows how it was affected by the relations between the revolutionary state and the Roman Catholic Church One of the first books to look at revolutionary programs in the capital immediately after the Revolution it shows how government social reform and Catholic social action overlapped and identifies clear points of convergence while also offering vivid descriptions of everyday life in revolutionary Mexico City Comparing curricula and practice in Catholic and public schools Patience Schell describes scandals and successes in classrooms throughout Mexico City Her re creation of day to day schooling shows how teachers inspectors volunteers and priests even while facing material shortages struggled to educate Mexico City's residents out of a conviction that they were transforming society She also reviews broader federal and Catholic social action programs such as films unionization projects and libraries that sought to instill a new morality in the working class Finally she situates education among larger issues that eventually divided church and state and examines the impact of the restrictions placed on Catholic education in 1926 Schell sheds new light on the common cause between revolutionary state education and Catholic tradition and provides new insight into the wider issue of the relationship between the revolutionary state and civil society As the presidency of Vicente Fox revives questions of church involvement in Mexican public life her study provides a solid foundation for understanding the tenor and tenure of that age old relationship

Between Two Worlds David G. Gutiérrez, 1996-04 Although immigrants enter the United States from virtually every nation Mexico has long been identified in the public imagination as one of the primary sources of the economic social and political problems associated with mass migration *Between Two Worlds* explores the controversial issues surrounding the influx of Mexicans to America The eleven essays in this anthology provide an overview of some of the most important

interpretations of the historical and contemporary dimensions of the Mexican diaspora **Where Cultures Meet** David J. Weber, Jane M. Rausch, 1997-08-01 In *Where Cultures Meet* editors Weber and Rausch have collected twenty essays that explore how the frontier experience has helped create Latin American national identities and institutions Using frontier to mean more than border Weber and Rausch regard frontiers as the geographic zones of interaction between distinct cultures Each essay in the volume illuminates the reciprocal influences of the pioneer culture and the frontier culture as they contend with each other and their physical environment The transformative power of frontiers gives them special interest for historians and anthropologists Delving into the frontier experience below the Rio Grande *Where Cultures Meet* is an important collection for anyone seeking to understand fully Latin American history and culture **Crossing Borders** Kimberly M. Grimes, 1998-07-01 Defining borders is a complex task especially today as globalization accelerates at an unprecedented rate We have entered a transnational age one in which borders are more porous So says Kimberly M Grimes in *Crossing Borders Changing Social Identities in Southern Mexico* her investigation of migration to the United States from Putla de Guerrero Oaxaca Featuring testimonies of residents and migrants Grimes allows local voices to describe the ways in which Putlecans find themselves negotiating among competing social values The testimonies of the Putlecans indicate that the changes occurring in their small town as a result of the circular migration to and from such immigrant enclaves as Atlantic City New Jersey are viewed with mixed emotions Putlecans recognize the financial need to migrate north but they rue the increased consumerism pollution and trash that comes with the rising wealth Men show off by driving their fancy cars with New Jersey tags around the tiny Mexican town but influenced by Anglo culture they also provide greater assistance in child care and housework Women find the sexual and social freedoms of the United States liberating but they still return home to baptize their babies Grimes reminds us however that the Putlecans are not passive recipients of change but are actively embracing it creating it and mediating it By reaching across the border to investigate migration Grimes shows us that social and cultural change are not just the result of national and transnational influences but are also locally negotiated phenomena *Women Through Women's Eyes* June E. Hahner, 1998-08-01 The nineteenth century was a period of peak popularity for travel to Latin America where a new political independence was accompanied by loosened travel restrictions Such expeditions resulted in numerous travel accounts most by men However because this period was a time of significant change and exploration a small but growing minority of female voyagers also portrayed the people and places that they encountered *Women through Women's Eyes* draws from ten insightful accounts by female visitors to Latin America in the nineteenth century These firsthand tales bring a number of Latin American women into focus nuns market women plantation workers the wives and daughters of landowners and politicians and even a heroine of the independence movement Questions of family life religion women's labor and education are addressed in addition to the interrelationships of men and women within the structure of Latin American societies *Women through Women's Eyes* is a perceptive look at Latin American women

from various walks of life during this period Within these pages the reader catches lengthy glimpses of the women on both sides of the travel accounts author and subject and thereby may examine them all and their societies close up **The Lettered Indian** Brooke Larson, 2023-11-17 Bringing into dialogue the fields of social history Andean ethnography and postcolonial theory The Lettered Indian maps the moral dilemmas and political stakes involved in the protracted struggle over Indian literacy and schooling in the Bolivian Andes Brooke Larson traces Bolivia's major state efforts to educate its unruly Indigenous masses at key junctures in the twentieth century While much scholarship has focused on the Indian boarding school and other Western schemes of racial assimilation Larson interweaves state centered and imperial episodes of Indigenous education reform with vivid ethnographies of Aymara peasant protagonists and their extraordinary pro school initiatives Exploring the field of vernacular literacy practices and peasant political activism she examines the transformation of the rural alphabet school from an instrument of the civilizing state into a tool of Aymara cultural power collective representation and rebel activism From the metaphorical threshold of the rural school Larson rethinks the politics of race and indigeneity nation and empire in postcolonial Bolivia and beyond
