Molecular Revolution Psychiatry And Politics:

Molecular Revolution Félix Guattari, 1984 This new collection of essays has been translated from two of Guattari's most influential works *Psychanalyse et transversalité* and *La révolution moléculaire* Politics philosophy linguistics psychoanalysis sociology all have their particular partisans here Guattari fights for intellectual mobility proposing to break down these discipline barriers and to bring their languages together to confront some of the crucial issues of post Marxist European politics Attacking the English tendency toward micro specialism he offers us a quirky tough and exciting analysis of recent developments in Europe An analysis that pushes forward the radical debate of people like Foucault Roland Barthes and Baudriard Best known for *L'Anti Oedipe* which he wrote with Gilles Deleuze Guattari set out as a psychoanalyst in the Lacan school He has been politically involved for many years and played a major role in the events of May 1968 *Molecular Revolution* will be of enormous interest to those involved in the revolution begun by R D Laing and David Cooper and to everyone interested in the new wave or European thought **Molecular Revolution** David St John Thomas, 1961

Unexceptional Politics Emily Apter, 2018-02-06 A new vision of politics below the radar One way to grasp the nature of politics is to understand the key terms in which it is discussed *Unexceptional Politics* develops a political vocabulary drawn from a wide range of media political fiction art film and TV highlighting the scams imbroglios information trafficking brinkmanship and parliamentary procedures that obstruct and block progressive politics The book reviews and renews modes of thinking about micropolitics that counter notions of the state of exception embedded in theories of the political from Thomas Hobbes to Carl Schmitt Emily Apter develops a critical model of politics behind the scenes a politics that operates outside the norms of classical political theory She focuses on micropolitics defined as small events happening in series that often pass unnoticed yet disturb and interfere with the institutional structures of capitalist parliamentary systems even as they secure their reproduction and longevity Apter's experimental glossary is arranged under headings that look at the apparently incidental immaterial and increasingly virtual practices of politicking obstruction obstinacy psychopolitics managed life serial politics Such terms frame an argument for taking stock of the realization that we really do not know what politics is where it begins and ends or how its micro events should be described **Architecture After Deleuze and**

Guattari Chris L. Smith, 2023-05-04 This study illuminates the complex interplay between Deleuze and Guattari's philosophy and architecture Presenting their wide ranging impact on late 20th and 21st century architecture each chapter focuses on a core Deleuzian Guattarian philosophical concept and one key work of architecture which evokes contorts or extends it Challenging the idea that a concept or theory defines and then produces the physical work and not vice versa Chris L Smith positions the relationship between Deleuze and Guattari's philosophy and the field of architecture as one that is mutually substantiating and constitutive In this framework modes of architectural production and experimentation become inextricable from the conceptual territories defined by these two key thinkers producing a rigorous discussion of theoretical

practical and experimental engagements with their ideas Why Guattari? A Liberation of Cartographies, Ecologies and Politics Thomas Jellis, Joe Gerlach, John-David Dewsbury, 2019-05-13 This book examines Félix Guattari the French psychoanalyst philosopher and radical activist renowned for an energetic style of thought that cuts across conceptual political and institutional spheres Increasingly recognised as a key figure in his own right Guattari's influence in contemporary social theory and the modern social sciences continues to grow From the ecosophy of hurricanes to the micropolitics of cinema the book draws together a series of Guattarian motifs which animate the complexity of one of the twentieth century's greatest and most enigmatic thinkers The book examines techniques and modes of thought that contribute to a liberation of thinking and subjectivity Divided thematically into three parts cartographies ecologies and micropolitics each chapter showcases the singular and pragmatic grounds by which Guattari's signature concepts can be found to be both disruptive to traditional modes of thinking and generative toward novel forms of ethics politics and sociality This interdisciplinary compendium on Guattari's exciting experimental and enigmatic thought will appeal to academics and postgraduates within Social Theory Human Geography and Continental Philosophy Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Guattari Effect Eric Alliez, Andrew Goffey, 2011-06-30 The Guattari Effect brings together internationally renowned experts on the work of the French psychoanalyst philosopher and political activist Félix Guattari with philosophers psychoanalysts sociologists anthropologists and artists who have been influenced by Guattari's thought Best known for his collaborative work with Gilles Deleuze Guattari's own writings are still a relatively unmined resource in continental philosophy Many of his books have not yet been translated into English Yet his influence has been considerable and far reaching This book explores the full spectrum of Guattari's work reassessing its contemporary significance and giving due weight to his highly innovative contributions to a variety of fields including linguistics economics pragmatics ecology aesthetics and media theory Readers grappling with the ideas of contemporary continental philosophers such as Badiou and Rancière will at last be able to see Guattari as the extraordinary philosopher Deleuze claimed him to be with his distinctive radical ideas about the epoch of global deterritorialization we live in today forged within the practical contexts of revolutionary politics and the materialist critique of psychoanalysis

Psychotherapy and Politics Nick Totton, 2000-03-23 This is one of the most comprehensive books that I have read that addresses the relationship between therapies the social and the political Comprehensive in the sense that it covers many areas in short but succinct chapters which focus on particular relationships in the field It is in some way a textbook rather than a monograph and I would imagine that students of the field would find it a useful source of reference that they would return to time and again Psychotherapy Politics SAGE's invariably stimulating book series Perspectives in Psychotherapy edited by Colin Feltham is certainly fortunate to be graced by the latest addition from Nick Totton who offers us a tour de force of the diverse and manifold ways

in which therapy and politics interpenetrate and inform each other Richard House Self Society This is a truly outstanding book In a world riven with anger hatred fear and aggression it provides a window of rationality inspired by intelligence understanding and humanistic principles The Journal of Critical Psychology Counselling Psychotherapy This stimulating addition to SAGE s catalogues aims to give the practising counsellor therapist a multi dimensional overview of the various ways in which the political and psychotherapeutic worlds interface Association for University and College Counselling Newsletter This stimulating book explores the long standing relationship between psychotherapy and politics and argues that from the beginning psychotherapy has had a political face Documenting instances where ideas from psychotherapy have been incorporated into the political agenda the book demonstrates the practical value of psychotherapy as an instigator of social and political change Related to this attempts to understand and evaluate political life through the application of psychotherapeutic concepts are examined The author poses a number of key questions including What is human nature Are aggression and violence innate in us Is the therapeutic relationship inherently unequal And is the political an appropriate topic for therapy and counselling

Felix Guattari in the Age of Semiocapitalism Gary Genosko,2019-07-30 This volume explores why and how to read Guattari today *Free Culture and the City* Alberto Corsín Jiménez,Adolfo

Estalella,2023-02-15 *Free Culture and the City* examines how and why free software spread beyond the world of hackers and software engineers and became the basis for an urban movement now heralded by scholars as a model for emulation By the late 1990s digital activists embraced a philosophy of free software and free culture in order to take control over their cities and everyday lives Free culture previously tethered to the digital realm was cut loose and used to reclaim and resculpt the city In Madrid the effects were dramatic Common sights in the city were abandoned as industrial factories turned into autonomous social centers urban orchards guerrilla architectural camps or community hacklabs Drawing on two decades of ethnographic and historical work with free culture collectives in Madrid *Free Culture and the City* shows how in its journey from the digital to the urban the practice of liberating culture required the mobilization of and alliances between public art centers neighborhood associations squatted social centers hackers intellectual property lawyers street artists guerrilla architectural collectives and Occupy assemblies R.D. Laing and the Paths of Anti-Psychiatry Zbigniew

Kotowicz,2005-07-25 In the 1960s and 1970s the radical and visionary ideas of R D Laing revolutionized thinking about psychiatric practice and the meaning of madness His work from *The Divided Self* to *Knots* and his therapeutic community at Kingsley Hall made him a household name But after little more than a decade he faded from prominence as quickly as he had attained it *R D Laing and the Paths of Anti Psychiatry* re examines Laing s work in the context of the anti psychiatry movement Concentrating on his most productive decade the author provides a reasoned critique of Laing s theoretical writings investigates the influences on his thinking such as phenomenology existentialism and American family interaction research and considers the experimental Kingsley Hall therapeutic community in comparison with anti psychiatry

experiments in Germany and Italy The book provides a much needed reassessment and re evaluation of Laing s work and its significance for psychotherapy and psychiatry today Affective Methodologies Britta Timm Knudsen,2016-02-10 The collection proposes inventive research strategies for the study of the affective and fluctuating dimensions of cultural life It presents studies of nightclubs YouTube memes political provocations heritage sites blogging education development and haunting memories **Surviving Theatre** Marco Pustianaz,2021-09-28 Written soon before and in the middle of the Covid 19 pandemic when theatre ground to a halt and spectatorship was suspended this book takes stock of spectatorship as theatre s living archive and affirms its value in the midst of the present crisis Drawing from a manifold affective archive of performances and installations by Marina Abramovi Ron Athey Forced Entertainment Soc etas Raffaello Sanzio Blast Theory LIGNA Doris Salcedo Graeme Miller Lenz Rifrazioni Cristina Rizzo etc and expanding on the work of many theorists and scholars such as Roland Barthes and Jacques Ranci re Giorgio Agamben and Alain Badiou Nicholas Ridout and Alan Read among others the book focuses on the spectator as the subject rather than the object of investigation This is the right time to remember their secret power and theorise their collective time in the theatre This book is an archive of their adventure and a manifesto rooted in their potentiality It boldly posits the spectator as the inaugurator of theatre the surplus that survives it The book will be of great interest to spectators all and sundry to scholars and students of theatre and performance studies of spectatorship and politics **Principles of Transversality in Globalization and Education** David R. Cole,Joff P.N. Bradley,2018-07-07 This unique book comprehensively covers the evolving field of transversality globalization and education and presents creative research based thought experiments that seek to unravel the forces of globalization impacting education Pursuing various approaches to and uses of transversality with a focus on the ideas of F lix Guattari it is the only book of its kind Specifically it examines the influence of Guattari at the forefront of educational research that addresses enhances and sets free activist micro perspectives which can counter macro global movements such as capitalism and climate change This book is a global education research text that includes perspectives from four continents providing a balanced and significant work on globalization in education On Power in Architecture Mateja Kurir,2024-09-30 Architecture has always been a decisive manifestation of power This volume represents an attempt to question and reflect on the relationship between power and architecture from three philosophical perspectives materialistic phenomenological and post structuralist This collection opens an interdisciplinary investigation that aims to reflect on architecture and its interconnectedness with power within philosophy and cultural theory at large while presenting these concepts using practical examples from the built environment Internationally recognised authors philosophers architectural theorists and historians Andrew Benjamin Andrew Ballantyne Mladen Dolar Hilde Heynen Nadir Lahiji Jeff Malpas Dean Komel Elke Krasny Robert Pfaller Gerard Reinmuth Luka Skansi Douglas Spencer Teresa Stoppani and Sven Olov Wallenstein present their reflections in original unpublished essays and interviews In the presented works architecture is combined and

transgressed by philosophy in a new discussion that focuses only on power The contributions in this collection open a variety of architectural questions one of the central among them being the impact of neoliberal capitalism on architecture Architecture with its implications on the complex contemporary political and social reality is severely changing our space and more globally our environment A reflection on the multilayered relation between architecture and power has never been as topical as it is today This book will therefore be of interest to students researchers and academics or professionals within the fields of architecture philosophy sociology political sciences and cultural sciences **The Future Is Present** Philip Glahn, Cary Levine, 2024-06-18 A critical history of the pioneering art and technology group Mobile Image and their prescient work in communications networking and information systems In *The Future Is Present* Philip Glahn and Cary Levine tell the fascinating history of the visionary art group Mobile Image founded by Kit Galloway and Sherrie Rabinowitz in 1977 which appropriated emerging technologies from satellites to electronic message platforms Based in Los Angeles this under studied collective worked amid urban crisis a techno boom consolidating media power and ascendant neoliberal politics Mobile Image challenged fundamental conventions of the public sphere democracy communication and political participation as well as notions of power representation and identity Glahn and Levine argue not only for the historical importance of Mobile Image but also for a critical artistic process that is at once analytic and transformative They weave themes such as embodiment and its mediation public private dialectics and techno utopian vision throughout the book binding these projects to discourses around race gender and class as well as margin and center the local and the global In today's world of ubiquitous digital reproduction networking and social media *The Future Is Present* shows how the work of Mobile Image continues to have profound implications for art technology and the politics of public and private experience *The Most Radical Gesture* Sadie Plant, 2002-01-22 This book is the first major study of the Situationist International Tracing the history ideas and influences of this radical and inspiring movement from dada to postmodernism it argues that situationist ideas of art revolution everyday life and the spectacle continue to inform a variety of the most urgent political events cultural movements and theoretical debates of our times **The Double Bind of Neoliberalism** Guillaume Collett, Krista Bonello Rutter Giappone, Iain MacKenzie, 2022-06-08 In the wake of new far right populisms the fragmentation of progressive global narratives and the dismantling of economic globalization there are signs that neoliberalism is beginning to enter its death throes Using 1968 as one of the inaugural moments of neoliberalism this interdisciplinary collection is a critical and comparative resource that reexamines the significance and legacy of the global 1968 uprisings from today's vantage point For scholars and students alike this interdisciplinary collection will help readers understand why the global uprisings of 1968 continue to resonate and what it means for theory and culture today Edinburgh Companion to Poststructuralism Benoit Dillet, 2013-11-18 Written by experts in their field this Companion surveys the challenges and provocations raised by the major voices of poststructuralism Foucault Deleuze Derrida Cixous Lyotard Guattari Kristeva Irigaray Barthes and

Planning Against the Political Jonathan Metzger, Philip Allmendinger, Stijn Oosterlynck, 2014-07-11

This book brings together a number of highly innovative and thought provoking contributions from European researchers in territorial governance related fields such as human geography planning studies sociology and management studies The contributions share the ambition of highlighting troubling contemporary tendencies where spatial planning and territorial governance can be seen to circumscribe or subvert due democratic practice and the democratic ethos The book also functions as an introduction to some of the central strands of contemporary political philosophy discussing their relevance for the wider field of planning studies and the development of new planning practices

Basaglia's International Legacy: From Asylum to Community Tom Burns, John Foot, 2020-05-28

Franco Basaglia 1924 1980 was an Italian psychiatrist and activist who proposed the dismantling of psychiatric hospitals and pioneered new ideas about mental health and its treatment Basaglia was also one of the principal proponents of Italy's Law 180 which effectively closed down large mental hospitals in Italy His ideas and his disciples have had a decisive influence in the move away from institutional care in many parts of the world particularly in continental Europe and South America However Basaglia is strikingly absent from the literature in Germanic and Anglophone psychiatry Most of the literature about Basaglia in the last 40 years has been published by his followers and supporters and has often been largely positive with little exploration of differing responses or possible limitations of his model

Basaglia's International Legacy From Asylum to Community provides an overview of current thinking and the international influence of Franco Basaglia This resource draws on the combined knowledge of clinicians policy makers historians and social scientists including a handful of Basaglia's collaborators It provides an in depth understanding and critical analysis of the various applications of his thinking worldwide Organised into three broad sections chapters examine Basaglia's work and influence in Italy in the Basaglian countries of Europe and South America and in those countries where his influence has either been rejected or significantly modified The Editors bring together the contributions and draw out the important messages both positive and negative for current clinical practice and development within international mental health services
