Molecular And Biological Aspects Of The Acute Allergic Reaction:

Molecular and Biological Aspects of the Acute Allergic Reaction S. Johansson, 2013-03-07 Ladies and Gentlemen dear guests It is my great pleasure and privilege to extend our heartiest welcome to you the participants of this 33rd Nobel symposium To those of you who have not attended a Nobel symposium before I would like just briefly to explain why Nobel's name is linked to this series of symposia Alfred Nobel who died in San Remo in 1896 donated the main part of his fortune to the promotion of international science and culture by establishing annual prizes for outstanding discoveries or contributions within five fields chemistry physics physiology or medicine literature and peace The annual awards should be distributed by five corresponding prize committees out of which four in Stockholm and one in Oslo at that time Sweden and Norway were a united kingdom The Nobel Foundation was instituted in 1900 with the main function to administer economically the Nobel Donation It has done so very successfully The Foundation has even been able to beat the inflation and the prizes have steadily increased during the last 20 years It might interest you to hear that this year's prizes will amount to 681 000 Sw crowns each Due to the favourable financial development and also due to additional donations the Nobel Foundation decided to extend its interests by promoting the arrangements of symposia lectures and other international scientific activities
